Three to Tango and Other Tales Branka Ćubrić When the mysterious Tatee walks into the renowned Manhattan Tango Studio all hell breaks loose, not a single person stays unaltered: old friendships are challenged and put to the test; seemingly confident women are alarmingly threatened by the novel newcomer’s presence; cool sleek men lose their steps, stuttering incomprehensible disobedient words. Unprepared for surreal and outlandish relationships she takes the role of an intrigued observer witnessing the unfolding drama where the dance floor reveals a theatre of the absurdity of human nature. The other stories explore the profoundness of human psyche where joy, suffering, humour and even madness can all be found. Encounter stories about cult escapees, an incompetent lawyer, a liberated husband, a case of mistaken identity and the serendipitous nature of synchronicity.

Custom Air Suspension Julian Edgar 2017-11-07 A step-by-step guide to DIY air suspension for your road car. Manufacturers like Mercedes, Tesla, Audi and Cadillac choose air suspension because they can achieve the highest quality in ride and handling, but until now, there hasn’t been a book that shows you how to get the best from aftermarket air suspension for your road car. This book covers both theory and practice – from the technical advantages of air suspension through to detailed coverage of the development, installation and tuning of a custom air suspension system. It looks at wiring and plumbing, covers a brilliant

new low cost electronic air suspension controller, and even shows how to source low-cost components from cars originally sold with air suspension. Want to buy an air suspension kit off the shelf? That’s covered as well, with the six key questions to ask before buying. Written by a prolific hands-on modifier, who has designed and fitted air suspension to his own car, this book is a practical, easy-to-follow guide. Whether you’re after the best ride and handling, or simply like being able to raise or lower your car at the turn of a knob, this book will show you how to do it.

Auto Repair For Dummies Deanna Sclar 2019-01-07 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide—400,000 copies sold—now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it’s even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She’s also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
