Dependency in Southeast Asia

Jason P. Abbott 2003-08-29 This

book provides a detailed cross-country study of the automotive industry in South East Asia.

Abbott argues that, contrary to prevailing opinion, the diffusion of manufacturing in the Asia-

Pacific has been characterized by hierarchical networks of production linked to Japan for technology.

Backpacker 2001-03 Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often.

The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish.

Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

Economic Dynamism in the Asia-Pacific Grahame Thompson

2005-10-18 This broad-ranging student textbook examines the rise of the Asia-Pacific as an important economic region. It looks at the sources of that rise, its future development and the possible consequences for the global economy. The analysis is divided into three sections considering: * how far the Asia-Pacific has developed as a regional system, looking at the patterns of integration of the principal economies * the relationship between the key individual economies of Japan, Korea, China and the United States * how the rise of the Asia-Pacific economy has affected the international economic system. In so doing it provides much-needed insights not only into the growth of this powerful economic region, but also the international context of Asia-Pacific development.
