When I Was Puerto Rican Esmeralda Santiago 2006-02-28 Esmeralda Santiago's story begins in rural Puerto Rico, where her childhood was full of both tenderness and domestic strife, tropical sounds and sights as well as poverty. Growing up, she learned the proper way to eat a guava, the sound of tree frogs in the mango groves at night, the taste of the delectable sausage called morcilla, and the formula for ushering a dead baby's soul to heaven. As she enters school we see the clash, both hilarious and fierce, of Puerto Rican and Yankee culture. When her mother, Mami, a force of nature, takes off to New York with her seven, soon to be eleven children, Esmeralda, the oldest, must learn new rules, a new language, and eventually take on a new identity. In this first volume of her much-praised, bestselling trilogy, Santiago brilliantly recreates the idyllic landscape and tumultuous family life of her earliest years and her tremendous journey from the barrio to Brooklyn, from translating for her mother at the welfare office to high honors at Harvard.

Students at Risk of School Failure José Jesús Gázquez 2018-10-18 The main objective of this Research Topic is to determine the conditions that place students at risk of school failure, identifying student and context variables. In spite of the fact that there is currently little doubt about how one learns and how to teach, in some countries of the “developed world,” there is still there is a high rate of school failure. Although the term “school failure” is a very complex construct, insofar as its causes, consequences, and development, from the field of educational psychology, the construct “student engagement” has recently gained special interest in an attempt to deal with the serious problem of school failure. School engagement builds on the anatomy of the students’ involvement in school and describes their feelings, behaviors, and thoughts about their school experiences. So, engagement is an important component of students’ school experience, with a close relationship to achievement and school failure. Children who self-set academic goals, attend school regularly and on time, behave well in class, complete their homework, and study at home are likely to interact adequately with the school social and physical environments and perform well in school. In contrast, children who miss school are more likely to

display disruptive behaviors in class, miss homework frequently, exhibit violent behaviors on the playground, fail subjects, be retained and, if the behaviors persist, quit school. Moreover, engagement should also be considered as an important school outcome, eliciting more or less supportive reactions from educators. For example, children who display school-engaged behaviors are likely to receive motivational and instructional support from their teachers. The opposite may also be true. But what makes student engage more or less? The relevant literature indicates that personal variables (e.g., sensory, motor, neurodevelopmental, cognitive, motivational, emotional, behavior problems, learning difficulties, addictions), social and/or cultural variables (e.g., negative family conditions, child abuse, cultural deprivation, ethnic conditions, immigration), or school variables (e.g., coexistence at school, bullying, cyberbullying) may concurrently hinder engagement, preventing the student from acquiring the learnings in the same conditions as the rest of the classmates. The Queen's Adept Rodolfo Martínez 2015-04-01 The People's Covenant and God's Hammer have raged a Cold War that has lasted for over twenty years. A war without armies, where battles are fought in the dark and information is the most dangerous weapon. In this world—which sometimes seems the Middle Ages, sometimes the Renaissance and sometimes the Nineteenth Century—lives Yáxtor Brandan, empirical adept at the service of the Queen of Alboné. A relentless, amoral and unscrupulous character, Yáxtor fights to recover his own past as he tries to prevent a new player in the espionage game to end the world, as he knows it. A fascinating fast-moving and complex plot, full of tension and surprises and excellently paced; a main character for whom it should be impossible to feel the slightest sympathy, and yet somehow we do, even as his cruelty disturbs us more and more -an

extremely difficult feat to pull off so successfully; powerful secondary actors, who either leave you with a sense of uneasiness with regard to their motivations and loyalties, or make you want to shout out -as people did in the early days of cinema- "Look out, don't trust him!"; and a pervading atmosphere of tragedy, especially in a final unexpected and shocking, yet on reflection almost inevitable, scene. In short, a totally addictive and highly original novel set in a world that is at once both strangely familiar and disturbingly alien. —Steve Redwood, author of *Fisher of Devils*.
