The Hooter

A study of birds and wildlife of Engelhorn Pond presented by Kiana Rose, CWU graduate Engelhorn Pond was acquired by Central Washington University in 1976. This 1.97-acre preserve contains important habitats for many organisms, particularly migratory birds, and is a valuable resource for students. However, little information has his-

BASIC CONCEPTS OF LOGIC - UMass

1. WHAT IS LOGIC? Logic may be defined as the science of reasoning. However, this is not to suggest that logic is an empirical (i.e., experimental or observational) science like physics, biology, or psychology. Rather, logic is a non-empirical science like mathematics. Also, in saying that logic is the science of reasoning, we do not mean

Pair-bonded Relationships and Romantic Alternatives 1 Running ...

The relation between evolutionary biology and psychology can be cast in terms of Tinbergen's (1963) four questions. Tinbergen argued that a complete understanding of behavior, or any phenotypic feature, requires four levels of explanation. Two levels—referred to as “ultimate” levels—reside within the realm of evolutionary biology.
