As this Chapter 18 Section 2 The Cold War Heats Up Civil In Korea, it ends up creature one of the favored ebook Chapter 18 Section 2 The Cold War Heats Up Civil In Korea collections that we have. This is why you remain in the best website to look the incredible ebook to have.

Military Medical Ethics, Volume 2

The Doctrines of US Security Policy Heiko Meiertöns 2010-06-10 The practise of outlining principles for the conduct of US security policy in so-called doctrines is a characteristic feature of US foreign policy. From an international lawyer's point of view two aspects of these doctrines are of particular interest. First, to what degree are the criteria for the use of force, as laid down in these doctrines, consistent with the limitations for the use of force in international law? Second, which law-creating effects do these doctrines have? Furthermore, the legal nature of these doctrines remains uncertain. These matters are examined, beginning with the Monroe

Doctrine of 1823 and taking into account the Stimson Doctrine of 1932, the doctrines of the Cold-War period and the Bush Doctrine of 2002. The Bush Doctrine in particular has generated controversies concerning its compatibility with Article 51 of the UN Charter, due to its principle of preventive self-defence.

Military Medical Ethics: Sect. IV. Medical ethics in the military. Medical ethics on the battlefield: the crucible of military medical ethics 2003

Beyond the Divide Simo Mikkonen 2015-10-01 Cold War history has emphasized the division of Europe into two warring camps with separate ideologies and little in common. This volume presents an alternative perspective by suggesting that there were transnational networks bridging

the gap and connecting like-minded people on both sides of the divide. Long before the fall of the Berlin Wall, there were institutions, organizations, and individuals who brought people from the East and the West together, joined by shared professions, ideas, and sometimes even through marriage. The volume aims at proving that the post-WWII histories of Western and Eastern Europe were entangled by looking at cases involving France, Denmark, Poland, Romania, Switzerland, and others.

The London-Budapest Game Catherine Eva Schandl 2007-08 'The London-Budapest Game' is the true sequel to 'Sword of the Turul,' with a unique glimpse into the British underground in World War II Hungary - and its aftermath. From 1991 to 2001, a Swedish-Russian joint Commission investigating the fate of Swedish diplomat Raoul Wallenberg discovered that 3 Hungarian numbered prisoners secretly held in Vladimir prison, Soviet Union had been connected to his case. One was Karoly Schandl, a young lawyer in Budapest who lived near the Swedish Embassy. This is the continuation of his shocking true story, supported by historical documents and excerpts from his private writings. Karoly's anti- Nazi resistance group was led by his childhood friend, Gabor Haraszty, a.k.a. British agent ALBERT. The group had links to MI9, ISLD (MI6), SOE, Colonel Howie, the Dutch and Polish Underground, the Tito partisans, and a group of famous Jewish parachutists from Palestine, with whom they

had planned to collaborate in Hungary. It was a dangerous game, and only a few would survive ..

Mao's China and the Cold War Jian Chen 2010-03-15 This comprehensive study of China's Cold War experience reveals the crucial role Beijing played in shaping the orientation of the global Cold War and the confrontation between the United States and the Soviet Union. The success of China's Communist revolution in 1949 set the stage, Chen says. The Korean War, the Taiwan Strait crises, and the Vietnam War--all of which involved China as a central actor--represented the only major "hot" conflicts during the Cold War period, making East Asia the main battlefield of the Cold War, while creating conditions to prevent the two superpowers from engaging in a direct military showdown. Beijing's split with Moscow and rapprochement with Washington fundamentally transformed the international balance of power, argues Chen, eventually leading to the end of the Cold War with the collapse of the Soviet Empire and the decline of international communism. Based on sources that include recently declassified Chinese documents, the book offers pathbreaking insights into the course and outcome of the Cold War.

Monument Culture Laura A. Macaluso 2019-05-30 This book brings together a collection of essays from scholars and cultural critics working on the meanings of monuments and memorials in the second decade of

the twenty-first century, a time of great social and political change.

Political Science For Dummies Marcus A. Stadelmann 2020-07-27 Expand your political science knowledge with a book that explains concepts in a way anyone can understand! The global political climate is dynamic, at times even volatile. To understand this evolving landscape, it's important to learn more about how countries are governed. Political Science For Dummies explores the questions that political scientists examine, such as how our leaders make decisions, who shapes political policy, and why countries go to war. The book is the perfect course supplement for students taking college-level, introductory political science courses.

Political Science For Dummies is a guide that makes political science concepts easier to grasp. Get a better understanding of political ideologies, institutions, policies, processes, and behavior Explore topics such as class, government, diplomacy, law, strategy, and war Learn the specialized vocabulary within the field of political science Help prepare for a range of careers, from policy analyst to legislative assistant Political science crosses into many other areas of study, such as sociology, economics, history, anthropology, international relations, law, statistics, and public policy. Those who want to understand the implications of changing political economies or how governing bodies work can look to Political Science For Dummies. It's the book that cuts through the jargon as it focuses on issues

that interest readers.

Unconditional Love Athirath Vijay Reddy 2016-03-21 It is 1980 in India as Surya waits for the forbidden love of his life, Ahalya, to appear. When she finally arrives, she is wearing a wedding ring. After the two reluctantly part ways, Surya, who is drowning in despair and heartache, takes his own life. All that is left for his family and best friend, Vijay, is grief and their memories. Vijay, desperate for a new beginning, soon moves to the city where he is blessed with two sons named Surya after his beloved friend. As Surya grows up to become a reincarnation of his namesake, he rebels against his father's desire to have him join the family business and pursues his dream of becoming a filmmaker. He eventually falls in love with Priya, a sweet girl who seems to know him better than he knows himself. But as his pursuit of his dream pulls Surya and his father apart, life comes full circle for both men as Vijay confronts his past and Surya attempts to convince Priya's family that he is the right man for her.

Unconditional Love is the poignant story of a young Indian man's struggles to find his place in the world and a woman who loves all of him.

The Routledge Handbook of Language and Culture Farzad Sharifian 2014-12-17 The Routledge Handbook of Language and Culture presents the first comprehensive survey of research on the relationship between language and culture. It provides readers with a clear and accessible

introduction to both interdisciplinary and multidisciplinary studies of language and culture, and addresses key issues of language and culturally based linguistic research from a variety of perspectives and theoretical frameworks. This Handbook features thirty-three newly commissioned chapters which cover key areas such as cognitive psychology, cognitive linguistics, cognitive anthropology, linguistic anthropology, cultural anthropology, and sociolinguistics offer insights into the historical development, contemporary theory, research, and practice of each topic, and explore the potential future directions of the field show readers how language and culture research can be of practical benefit to applied areas of research and practice, such as intercultural communication and second language teaching and learning. Written by a group of prominent scholars from around the globe, The Routledge Handbook of Language and Culture provides a vital resource for scholars and students working in this area.

The Main Enemy Milton Bearden 2003-05-06 A landmark collaboration between a thirty-year veteran of the CIA and a Pulitzer Prize-winning journalist, *The Main Enemy* is the dramatic inside story of the CIA-KGB spy wars, told through the actions of the men who fought them. Based on hundreds of interviews with operatives from both sides, *The Main Enemy* puts us inside the heads of CIA officers as they dodge surveillance and walk into violent ambushes in Moscow. This is the story of the generation

of spies who came of age in the shadow of the Cuban missile crisis and rose through the ranks to run the CIA and KGB in the last days of the Cold War. The clandestine operations they masterminded took them from the sewers of Moscow to the back streets of Baghdad, from Cairo and Havana to Prague and Berlin, but the action centers on Washington, starting in the infamous "Year of the Spy"—when, one by one, the CIA's agents in Moscow began to be killed, up through to the very last man. Behind the scenes with the CIA's covert operations in Afghanistan, Milt Bearden led America to victory in the secret war against the Soviets, and for the first time he reveals here what he did and whom America backed, and why. Bearden was called back to Washington after the Soviets withdrew from Afghanistan and was made chief of the Soviet/East European Division—just in time to witness the fall of the Berlin Wall, the revolutions that swept across Eastern Europe, and the implosion of the Soviet Union. Laced with startling revelations—about fail-safe top-secret back channels between the CIA and KGB, double and triple agents, covert operations in Berlin and Prague, and the fateful autumn of 1989—*The Main Enemy* is history at its action-packed best.

Cold Wars Lorenz M. Lüthi 2020-03-19 A new interpretation of the Cold War from the perspective of the smaller and middle powers in Asia, the Middle East and Europe.

Civil War Andrew R. L. Cayton 1995-06

Desert Dreams. the Quest for Arab Integration from the Arab Revolt to the Gulf Cooperation Council Justin Dargin 2012-02 DIVS - ISL, 3

(International Studies Library, 27) This book discusses the history of Arab integration attempts from the late Ottoman period to the creation of the Gulf Cooperation Council (GCC). Although there is significant scholarship on the history of pan-Arab nationalism and the drive for disparate Arab nations to integrate, there is precious little literature that seeks to understand the development of closer integration in the Gulf in the context of the long history amongst Arabs of the awareness that a common cultural and social nation exists that should politically and economically collaborate. This book reassesses the history of Arab integration, and argues convincingly, that while the more politically charged "unionist" attempts of Arab political integration may have failed, instead what we can anticipate, based on the illustration of the GCC, is deeper and closer economic, financial, political and social coordination amongst various Arab countries. Table of Contents Preface Introduction Part I: The Birth of the Arab Revolt Chapter 1: Early Stirrings: The Formation of Arab Nationalism Chapter 2: Heeding the Call: Christian and Muslim Arab Intellectuals Conceptualize the Arab Nation Chapter 3: The Birth of the Arab Resistance Chapter 4: Europe's Great Powers promote Independence

from the Ottomans Chapter 5: Europe's Great Powers oppose the Arab quest for independence Chapter 6: Returning to the Fold- The Birth of Arab Ottoman Resistance Turkey deserts the "non progressive" Islamic/Arabic World Chapter 7: Germany's influence on Arab political thought Chapter 8: The British creation of the Gulf Status-quo Chapter 9: The German-Arab alliance confronts the Mandatory system Part II: A Region Aflame-Post War Integration Attempts Chapter 10: The New Arab Modernity Chapter 11: The Harbinger of Change: Arab Nationalism in the Gulf Chapter 12: Nasser and the Cold War Era Chapter 13: The Yemeni Gateway: Nasser's Proxy War with Saudi Arabia Chapter 14: The '67 War / The Egyptian "anti-hegemon" falters Chapter 15: Arab Authoritarianism and Economic Development Part III: The Gulf and Structural Arab Integration Chapter 16: A Requiem for Arabism: The GCC and Laying the Foundation for Gulf Arab Integration Chapter 17: The Evolving Geopolitical Environment: The Fall of Pan-Arabism and the Rise of the Shi'ite Lazarus Chapter 18: Towards a more perfect union: Creeping Gulf Integration Chapter 19: A New Security Paradigm? Chapter 20: Transportation Chapter 21: Economic Integration Epilogue: The End of Arab 'Isms' and the Death of Ideology About the Author Justin Dargin is a research fellow at the Dubai Initiative at Harvard University. He specializes in Middle Eastern geopolitics, the Gulf energy sector and the global energy market.

He has published extensively on the Gulf and its energy and economic sectors, including, *The Dolphin Project: The Development of a Gulf Gas Initiative* (OIES Press Jan. 2008). He completed his graduate studies at Georgetown University Law Center with distinction.

U.S. History P. Scott Corbett 2017-12-19 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

The Americans Study Guide Reconstruction to the 21st Century Grades 9-12 Holt McDougal 1998-06-11

U.S. Military History For Dummies John C. McManus 2010-01-28 Want to know more about American military history? *U.S. Military History For Dummies* presents concise and revealing accounts of all of the nation's armed conflicts from the French and Indian War to Iraq. It explains how

the U.S. military is organized and how its branches operate, both independently and together. This straightforward guide examines the causes for each of America's wars and reveals how these conflicts have shaped the nation's borders, society, politics, culture, and future. You'll meet heroes, cowards, patriots, and traitors; relive great battles; and get a taste of what combat is really like, as you discover: How the French/Indian war sowed the seeds of the Revolutionary War Why America's battle for independence didn't end at Yorktown Early U.S. wars against Indians, tax cheats, and pirates The War of 1812: guaranteeing U.S. sovereignty "Manifest Destiny" wars that stretched America from sea to shining sea Why the American Civil War could not be avoided The Spanish American War and the U.S. as an emerging global power Why World War I failed to "make the world safe for democracy" How World War II changed America's role in the world Korea and Vietnam: hot wars during the Cold War Featuring important insights on technological, political, and social changes that transformed the way America fights its wars *U.S. Military History For Dummies* is your key to understanding the evolution of the most powerful military force in history.

The Oceola Air Force Radar Station Jason Tish 2008

Cold War Warriors Ian Pearson 2021-09-01 *Cold War Warriors* tells the little-known story of the operations by the Royal Australian Air Force's P-3

Orions during the latter years of the Cold War. The aircraft's largely low-profile missions, usually flown far from their base, were often shrouded by confidentiality. Now, access to declassified documents has allowed this story to be told. From the lead-up to their delivery in 1968, to the end of the Cold War in 1991; from the intrigues associated with the procurement of the aircraft and subsequent upgrades, to perilous moments experienced by the aircraft and their crews while conducting operations; and from triumphs to tragedies; *Cold War Warriors* documents the P-3's service in the RAAF in the context of the unfolding domestic and international events that shaped the aircraft's evolving missions. As well as being a story of the RAAF Orions and their growing capabilities, *Cold War Warriors* is also the story of the crews who flew the aircraft. Using their words, *Cold War Warriors* faithfully describes a number of incidents, both on the ground, and in the air, to provide a sense of the enormous breadth of service the P-3 Orion has provided to the Royal Australian Air Force, to Australia and to our allies.

A History of the Book in America David Paul Nord 2015-12-01 The fifth volume of *A History of the Book in America* addresses the economic, social, and cultural shifts affecting print culture from World War II to the present. During this period factors such as the expansion of government, the growth of higher education, the climate of the Cold War, globalization,

and the development of multimedia and digital technologies influenced the patterns of consolidation and diversification established earlier. The thirty-three contributors to the volume explore the evolution of the publishing industry and the business of bookselling. The histories of government publishing, law and policy, the periodical press, literary criticism, and reading--in settings such as schools, libraries, book clubs, self-help programs, and collectors' societies--receive imaginative scrutiny as well. The *Enduring Book* demonstrates that the corporate consolidations of the last half-century have left space for the independent publisher, that multiplicity continues to define American print culture, and that even in the digital age, the book endures. World History: Connections to Today Elisabeth Gaynor Ellis 2003-12

Exiting the Cold War, Entering a New World Daniel S. Hamilton 2019-11-12

This book explores how and why the dangerous yet seemingly durable and stable world order forged during the Cold War collapsed in 1989, and how a new order was improvised out of its ruins. It is an unusual blend of memoir and scholarship that takes us back to the years when the East-West conflict came to a sudden end and a new world was born. In this book, senior officials and opinion leaders from the United States, Russia, Western and Eastern Europe who were directly involved in the decisions of that time describe their considerations, concerns, and pressures. They are joined by scholars who have been able to draw on newly declassified archival sources to revisit this challenging period.

Oxford AQA History: A Level and AS Component 2: The Cold War c1945-1991 John Aldred 2015-11-05 Retaining well-loved features from the previous editions, The Cold War has been approved by AQA and matched to the new 2015 specification. This textbook explores in depth the evolving course of international relations during an era of tension between communist and capitalist powers. It focuses on key ideas such as communism and anti-communism, aggression and détente, and the power of nuclear technology, and covers events and developments with precision. Students can further develop vital skills such as historical interpretations and source analyses via specially selected sources and extracts. Practice questions and study tips provide additional support to help familiarize students with the new exam style questions, and help them

achieve their best in the exam.

An Introduction to International Relations Richard Devetak 2011-10-17

Invaluable to students and those approaching the subject for the first time, *An Introduction to International Relations, Second Edition* provides a comprehensive and stimulating introduction to international relations, its traditions and its changing nature in an era of globalisation. Thoroughly revised and updated, it features chapters written by a range of experts from around the world. It presents a global perspective on the theories, history, developments and debates that shape this dynamic discipline and contemporary world politics. Now in full-colour and accompanied by a password-protected companion website featuring additional chapters and case studies, this is the indispensable guide to the study of international relations.

Research Handbook on International Law and Cities Aust, Helmut P.

2021-08-27 This groundbreaking *Research Handbook* provides a comprehensive analysis and assessment of the impact of international law on cities. It sheds light on the growing global role of cities and makes the case for a renewed understanding of international law in the light of the urban turn.

The Cambridge History of the Cold War Melvyn P. Leffler 2010-03-25 This volume examines the origins and early years of the Cold War in the first

comprehensive historical reexamination of the period. A team of leading scholars shows how the conflict evolved from the geopolitical, ideological, economic and sociopolitical environments of the two world wars and interwar period.

Kennan and the Cold War David Felix 2017-07-05 With his policy of containment, US diplomat George F. Kennan (1904-2005) devised a way to resist the Soviet Union's attempt to conquer the world for Communism. That way was to go to the brink of war to prevent war. His idea was first expressed in his famous Long Telegram from Moscow on February 22, 1946. It took genius to see a wartime ally as a dangerous adversary, and to convince the American leadership to act upon it. Back in the United States, the young diplomat first acted as deputy commandant in the National War College. He then operated as director of the State Department's Policy Planning Staff to restore Europe from wartime destruction. By 1950 Kennan began to reverse his thinking, believing that the military component of American policy was going too far. While his old colleagues continued to develop US power, given point by the atomic bomb, Kennan withdrew from government and began a new career as a public intellectual campaigning for a more peaceable policy in his eighteen books, and articles and talks. The breakdown of the Soviet economy in the 1980s showed that Kennan was right the second time as well. Always

sympathetic to the Russian people and culture, which the later Soviet leaders appreciated, Kennan was able to welcome the new non-Communist Russia into a more peaceable relationship with the democracies that ended the Cold War. His life and works have become a national treasure.

China Among Unequals Brantly Womack 2010 Pt. I. Asymmetric international relationships. ch. 1. Recognition, deference, and respect : generalizing the lessons of an asymmetric Asian order. ch. 2. The United States, human rights, and moral autonomy in the post-Cold War world. ch. 3. Dissecting soft power : attention, attraction, persuasion. ch. 4. The dilemma of regional powers. ch. 5. Vietnam and China in an era of economic uncertainty. ch. 20. Korea and Vietnam : similarities and differences in their relationships to China

Post-socialist Political Economy James M. Buchanan 1997 This book presents a critical assessment of the political and social order in the post-revolutionary decade of the 1990s in both the transitional economies and Western welfare states confronting fiscal crises. As we enter the new post-socialist century, James M. Buchanan argues that we need to think and act on the premise that the future is uncertain. James M. Buchanan examines the political economy of the post-socialist era, analysing the events of 1989-91 and some of their predicted consequences. In addition he reflects upon the influence of those revolutionary years and the reactions to the changes, as well as the role of economists in the new socio-political environment. The political economy of the post-socialist era will be determined by the forces of historical development, social and cultural evolution, directed political change and exogenous shocks. To a large extent, many of these forces cannot be planned for, except directed

political change. This insightful new book will be welcomed by political economists, legal and political philosophers, political scientists and public choice economists.

China's Grand Strategy Andrew Scobell 2020-07-27 To explore what extended competition between the United States and China might entail out to 2050, the authors of this report identified and characterized China's grand strategy, analyzed its component national strategies (diplomacy, economics, science and technology, and military affairs), and assessed how successful China might be at implementing these over the next three decades.

Operation Overflight Francis Gary Powers 2011-03 In this new edition of his classic 1970 memoir about the notorious U-2 incident, pilot Francis Gary Powers reveals the full story of what actually happened in the most sensational espionage case in Cold War history. After surviving the shoot-down of his reconnaissance plane and his capture on May 1, 1960, Powers endured sixty-one days of rigorous interrogation by the KGB, a public trial, a conviction for espionage, and the start of a ten-year sentence. After nearly two years, the U.S. government obtained his release from prison in a dramatic exchange for convicted Soviet spy Rudolph Abel. The narrative is a tremendously exciting suspense story about a man who was labeled a traitor by many of his countrymen but who

emerged a Cold War hero.

Open Door Daniel S. Hamilton 2019-05-03 NATO's decision to open itself to new members and new missions is one of the most contentious and least understood issues of the post-Cold War world. This book, an unusual and intriguing blend of memoirs and scholarship, takes us back to the decade when those momentous decisions were made. Former senior officials from the United States, Russia, Western and Eastern Europe who were directly involved in the decisions of that time describe their considerations, concerns, and pressures. They are joined by scholars who have been able to draw on newly declassified archival sources to revisit NATO's evolving role in the 1990s.

The Star and the Scepter Emmanuel Navon 2020-11 The first all-encompassing book on Israel's foreign policy and the diplomatic history of the Jewish people, *The Star and the Scepter* retraces and explains the interactions of Jews with other nations from the ancient kingdoms of Israel to modernity. Starting with the Hebrew Bible, Emmanuel Navon argues that one cannot grasp Israel's interactions with the world without understanding how Judaism's founding document has shaped the Jewish psyche. He sheds light on the people of Israel's foreign policy through the ages: the ancient kingdoms of Israel, Jewish diasporas in Europe from the Middle Ages to the emancipation, the emerging nineteenth-century Zionist

movement, and Zionist diplomacy following World War I and surrounding World War II. Navon elucidates Israel's foreign policy from the birth of the state in 1948 to our days: the dilemmas and choices at the beginning of the Cold War; Israel's attempts to establish periphery alliances; the Arab-Israeli conflict; Israel's relations with Europe, the United States, Russia, Asia, Africa, Latin America, the United Nations, and the Jewish diasporas; and how twenty-first-century energy geopolitics is transforming Israel's foreign relations today. Navon's analysis is rooted in two central ideas, represented by the Star of David (faith) and the scepter (political power). First, he contends that the interactions of Jews with the world have always been best served by combining faith with pragmatism. Second, Navon shows how the state of Israel owes its diplomatic achievements to national assertiveness and hard power—not only military strength but economic prowess and technological innovation. Demonstrating that diplomacy is a balancing act between ideals and realpolitik, *The Star and the Scepter* draws aspirational and pragmatic lessons from Israel's exceptional diplomatic history.

AP® World History Crash Course Book + Online Jay Harmon 2016-09-28

REA's Crash Course® for the AP® World History Exam - Gets You a Higher Advanced Placement® Score in Less Time 2nd Edition - Updated for the 2017 Exam Crash Course is perfect for the time-crunched student,

the last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your Advanced Placement® World History exam yet? How will you memorize everything you need to know before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's Crash Course for AP® World History is just what you need. Our Crash Course gives you: Targeted, Focused Review - Study Only What You Need to Know Written by an AP® World History teacher, the targeted review chapters prepare students for the test by only focusing on the important topics and themes tested on the new 2017 AP® World History exam. The easy-to-read review chapters in outline format cover everything AP® students need to know for the exam: The Ancient Near East, The Middle Ages, Early Modern Europe, Asia, World War I & II, The Cold War, and more. Expert Test-taking Strategies Our experienced AP® World History teacher shares detailed question-level strategies and explains the best way to answer the multiple-choice and essay questions you'll encounter on test day. By following our expert tips and advice, you can boost your overall point score! Take REA's FREE Practice Exam After studying the material in the Crash Course, go to the online REA Study Center and test what you've learned. Our free practice

exam features timed testing, detailed explanations of answers, and automatic scoring analysis. The exam is balanced to include every topic and type of question found on the actual AP® exam, so you know you're studying the smart way. Whether you're cramming for the test at the last minute, looking for extra review, or want to study on your own in preparation for the exams - this is the study guide every AP® World History student must have. When it's crucial crunch time and your Advanced Placement® exam is just around the corner, you need REA's Crash Course for AP® World History!

Rigged David Shimer 2020-06-30 The definitive history of the covert struggle between Russia and America to influence elections, why the threat to American democracy is greater than ever, and what we can do about it. This is "the first book to put the story of Russian interference into a broader context.... Extraordinary and gripping" (The New York Times Book Review). Russia's interference in the 2016 elections marked only the latest chapter of a hidden and revelatory history. In Rigged, David Shimer tells the sweeping story of covert electoral interference past and present. He exposes decades of secret operations—by the KGB, the CIA, and Vladimir Putin's Russia—to shape electoral outcomes, melding deep historical research with groundbreaking interviews with more than 130 key players, from leading officials in both the Trump and Obama

administrations to CIA and NSA directors to a former KGB general. Throughout history and in 2016, both Russian and American operations achieved their greatest success by influencing the way voters think, rather than tampering with actual vote tallies. Understanding 2016 as one battle in a much longer war is essential to comprehending the critical threat currently posed to America's electoral sovereignty and how to defend against it. Illuminating how the lessons of the past can be used to protect our democracy in the future, Rigged is an essential book for readers of every political persuasion.

U.S. History by OpenStax (Print Version, Paperback, B&W, Volume 1 & 2)
OpenStax 2014-12-30 U.S. History by OpenStax (Print Version, Paperback, B&W, Volume 1 & 2) This is the grayscale (black and white) paperback edition, with a donation made to OpenStax from every new copy sold. Its list price is lower from the use of the latest in printing technology. U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The 32 chapters provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

The Long Game Rush Doshi 2021-06-11 For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents,

leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

The Cold War: A Very Short Introduction Robert J. McMahon 2021-02-25
Very Short Introductions: Brilliant, Sharp, Inspiring The Cold War dominated international life from the end of World War II to the fall of the Berlin Wall in 1989. But how did the conflict begin? Why did it move from

its initial origins in Postwar Europe to encompass virtually every corner of the globe? And why, after lasting so long, did the war end so suddenly and unexpectedly? Robert McMahon considers these questions and more, as well as looking at the legacy of the Cold War and its impact on international relations today. *The Cold War: A Very Short Introduction* is a truly international history, not just of the Soviet-American struggle at its heart, but also of the waves of decolonization, revolutionary nationalism, and state formation that swept the non-Western world in the wake of World War II. McMahon places the 'Hot Wars' that cost millions of lives in Korea, Vietnam, and elsewhere within the larger framework of global superpower competition. He shows how the United States and the Soviet Union both became empires over the course of the Cold War, and argues that perceived security needs and fears shaped U.S. and Soviet decisions from the beginning—far more, in fact, than did their economic and territorial ambitions. He unpacks how these needs and fears were conditioned by the divergent cultures, ideologies, and historical experiences of the two principal contestants and their allies. Covering the years 1945-1990, this second edition uses recent scholarship and newly available documents to offer a fuller analysis of the Vietnam War, the changing global politics of the 1970s, and the end of the Cold War. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds

of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors

combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.
