Zachary Tinkle's Minicup Decision Zachary Tinkle 2015-06-17 Zachary Tinkle wants to be a NASCAR(r) driver when he grows up, so he's been practicing with go-karts, getting ready for his first time racing outdoors. But when his parents take him to get the autograph of a famous NASCAR(r) driver, he sees something he can't believe: A little NASCAR(r) stock car-just his size. It's a minicup, a half-size stock car that can go 100 miles per hour on the track. Then he meets a father and his young son-who races a mincup! Zachary loves go-karts, but he knows a mincup will get him to the NASCAR big leagues. It's time to make a decision, and talk to Mom and Dad... Children and race fans will love this account by Zachary Tinkle, based on his own true-life story and immaculately illustrated by Antonio J. "Nunoh" Diaz. It's about working hard for your dreams, and the value of thinking through important decisions. About the Author: Zachary Tinkle is a 12-year-old driving sensation based in Park Ridge, IL that currently races the #53 1/2 size stock car mini cup car (also known as super cups) and indoor electric go-karts. He is the 2014 Central States Region (CSR) Rookie of the Year and placed Top 5 in championship points in his rookie season. Tinkle has won a junior gas-powered indoor go-karting championship (Chicago Indoor Racing 2013) and three junior electric indoor go-karting championships (K1 Speed 2014 & 2015). He has family ties to the Indianapolis and Richmond, IN areas and was born in Cincinnati, OH. The Science of American Football Jay R. Hoffman 2020-11-17 The game of American football may be the greatest team sport that exists. It epitomizes the need of a "team" first approach to achieve the desired success. Success is often measured as the hoisting of a championship trophy, which involved a journey that required discipline, perseverance, sacrifice, and hard work. These traits are the backbone of success in football, but more importantly they are the backbone or blueprint for success in life. The Science of American Football provides an in-depth discussion on the physiology of the game of American football, including the physiological strain associated with playing in various environmental extremes. Acclimatization, preparation, and medical issues associated with each of these environmental extremes are discussed as well as medical issues occurring during the athlete's playing career (common sites of injury) and potential risks arising post-career (e.g. neurological dysfunction, arthritic joints, obesity). The book goes on to consider aspects of player selection and preparation, including discussion of evidence-based physical conditioning programs, appropriate nutrition, and specific dietary supplementation for the American football player. The Science of American Football is the first book to focus on the physiology, science, and medical issues associated with the game of American football and will be key reading for students of coaching and exercise science as well as those with a keen interest in understanding the science of American football, such as coaches and players.

Spaces Speak, Are You Listening? Barry Blesser 2009-09-18 How we experience space by listening: the concepts of aural architecture, with examples ranging from Gothic cathedrals to surround sound home theater. We experience spaces not only by seeing but also by listening. We can navigate a room in the dark, and "hear" the emptiness of a house without furniture. Our experience of music in a concert hall depends on whether we sit in the front row or under the balcony. The unique acoustics of religious spaces acquire symbolic meaning. Social relationships are strongly influenced by the way that space changes sound. In Spaces Speak, Are You Listening?, Barry Blesser and Linda-Ruth Salter examine auditory spatial awareness: experiencing space by attentive listening. Every environment has an aural architecture.The audible attributes of physical space have always contributed to the fabric of human culture, as demonstrated by prehistoric multimedia cave paintings, classical Greek open-air theaters, Gothic cathedrals, acoustic geography of French villages, modern music reproduction, and virtual spaces in home theaters. Auditory spatial awareness is a prism that reveals a culture's attitudes toward hearing and space. Some listeners can learn to "see" objects with their ears, but even without training, we can all hear spatial geometry such as an open door or low ceiling. Integrating contributions from a wide range of disciplines—including architecture, music, acoustics, evolution, anthropology, cognitive psychology, audio engineering, and many others—Spaces Speak, Are You Listening? establishes the concepts and language of aural architecture. These concepts provide an interdisciplinary guide for anyone interested in gaining a better understanding of how space enhances our well-being. Aural architecture is not the exclusive domain of specialists. Accidentally or intentionally, we all function as aural architects.

Securing Outer Space Natalie Bormann 2009-01-30 The challenges that space poses for political theory are profound. Yet until now, the exploration and utilization of space has generally reflected - but not challenged - the political patterns and impulses which characterized twentieth-century politics and International Relations. This edited volume analyses a number of controversial policies, and contentious strategies which have promoted space activities under the rubric of exploration and innovation, militarization and weaponization, colonization and commercialization. It places these policies and strategies in broader theoretical perspective in two key ways. Firstly, it engages in a reading of the discourses of space activities: exposing their meaning-producing practices; uncovering the narratives which convey certain space strategies as desirable, inevitable and seamless. Secondly, the essays suggest ways of understanding, and critically engaging with, the effects of particular space policies. The essays here seek to 'bring back space' into the realm of International Relations discourse, from which it has been largely removed, marginalized and silenced. The various chapters do this by highlighting how activities in outer space are always connected to earth-bound practices and performances of the every day. Securing Outer Space will be of great interest to students of space power, critical security studies and IR theory.

Created for More Jonathan Malm 2014-08-15 Are you compartmentalizing God? If you ever feel like your times spent praying or trying to read the Bible are disconnected from the rest of your day, you need this book. Devotions aren't supposed to be isolated from your life; the God who created you also calls you to create—whether that is a business, a family, a book, a photograph, a website, a sermon, or a meal. Created for More ties together our drive to create and our desire for God. Spend 30 days learning to be more than you thought you could be. Be humble. Be intentional. Be limited. Be parallel. Be invested. Be brave. Be a creator as you draw near to the God who created you.

Worship Together in Your Church as in Heaven Josh Davis 2015 If we hope to share the message of Christ with people in this changed world, we must examine and reshape our worship. Our communities and our neighborhoods are becoming increasingly multicultural. Is the same thing true at your church? Is the worship at your church reflective of heaven? The Bible is clear that one day people from every tribe, language, and nation will gather together to worship Jesus together in heaven. More often than not, however, our worship here on earth is segregated, preferential, one-dimensional, and united around a musical style rather than the person of Jesus Christ. This kind of worship is not only incomplete, but it is dangerous, leading us farther and farther away from the kind of worship that heaven is about. Multicultural worship doesn't just happen. The church is in need of pastors, worship leaders, and worshipers who, with their hearts fixed on heaven, will not settle for the separate but equal mentality in worship. Worship Together in Your Church as in Heaven is a foundational book for church leaders and all those who serve and participate in worship. The authors convincingly lay out the case for a shift to multicultural worship for virtually every church. They then take readers by the hand, so to speak, and show them how to begin making the changes in hands-on, practical, doable ways.

Profiting with Iron Condor Options Michael Benklifa 2011-01-19 In a straightforward approach, Hanania Benklifa provides readers the practical knowledge needed to trade options conservatively in Profiting with Iron Condor Options: Strategies from the Frontline for Trading in Up or Down Markets. The objectives are simple: make 2%-4% a month staying in the market as little as possible. Market experts use option condors to consistently earn monthly returns while trading conservatively and staying in the market as little as possible. Benklifa—who manages \$10+ million in condor trades each month—shows you exactly how to run these trades and earn these returns, delivering all the details you need to master every nuance of this remarkable strategy. Benklifa shares option condors examples using market realities, not oversimplified abstractions. You'll learn how to handle real-life market dynamics that can dramatically impact results, including rising and falling volatility, changing bid-ask spreads, and distorted call parity. You'll learn how to profit in the sideways markets where condor options are most widely used—and also in extreme-trending markets that offer their own surprising opportunities. Traders who focus on a specific type of trade have a history of outperforming stock pickers and directional investors. This book will give you that deep and usable level of knowledge about one of today's most well-proven strategies: option condors.

very bad men in her life. So she's accepted her cousin's invitation to spend the summer in Austria to indulge her photography hobby. Rumors of a haunted forest there draw Iolanthe into the dark woods—and into the eighteenth century.... Nikola Czerny is a cursed man, forced by his half brothers to live forever as a Dark One. But his miserable existence takes an intriguing turn when a strange, babbling woman is thrown in his path. Iolanthe claims to know Nikola's daughter—three hundred years in the future. She also knows what fate—in the form of his murderous half brothers—has in store for him. If only she knew the consequences of changing the past to save one good, impossibly sexy vampire...

Unhurried Tales Ruskin Bond 2017-12 Unhurried Tales: My Favourite Novellas brings together, for the very first time, Ruskin Bond's favourite (and finest) novellas. The stories in this book include Time Stops at Shamli (written in 1956 and published for the first time in 1987); The Blue Umbrella, which has been a bestseller for the last forty years; Angry River, which was a longer work when it was first written; Bus Stop, Pipalnagar; Night of the Leopard; The Last Tiger and Tales of Fostergeran, his latest novella, which was published in 2013. These stories speak of a world that has long vanished, but it is a world that has lost none of its power to enchant. Whether we are accompanying Sita on her perilous journey down the angry river or Bisnu as he gets the better of a dangerous leopard, whether we delight in Binya's joy at owning her blue umbrella or are saddened by the fate of the last tiger, whether we laugh uproariously at the antics of the eccentric guests at the 'hotel' in Shamli, get involved in the adventures of the boys in Pipalnagar or plunge into the various goings-on in the 'backwater' of Fostergeran, we are always entertained, always charmed. All the stories unwind in an unhurried way, even those that are filled with death-defying thrills and spills, and it is this quality that enables us to sink into them and experience to its fullest the magic of the fiction that Ruskin Bond has spun out of the hills and small towns of India for over sixty years.

The Six Hats of the Worship Leader Rich Kirkpatrick 2014-02-01 You can wear a hat, share a hat, or give a hat away. Many church leadership books today seem to focus heavily on the language of the corporate world. Throw a creative worship leader into the mix and vertigo sets in for all involved. Why? Creative leaders simply think differently. If you want to learn how to better explain your worship leadership to those in charge, this book is for you. If your role is leading worship leaders, the language shared in this book aims to help you take your team to their next level.

Worship Like Jesus Constance M. Cherry 2019-10-15 Worship in local churches has changed dramatically over the past fifty years, not only in North America but in many places on every continent. Have these widespread and varying shifts left us with vague or even false impressions of what the weekly worship event is all about? Do followers of Jesus Christ grasp the importance of their role in worship? Do they know how to become fully engaged participants? Do they realize Jesus himself is our best guide and model for worship? Worship Like Jesus guides Christ-followers through the essential features of Christian worship, transforming the reader's understanding and experience of worship. This leads people—even entire congregations—to experience worship in exciting and profound ways as never before. This type of worship also leads people into deeper and more committed discipleship. Imagine a community of fully engaged, deeply committed disciples! Revered author and scholar Constance Cherry offers this practical and foundational resource for ministry leaders and their worship communities. Each chapter follows the same helpful structure: Introduction Description of the chapter topic and its importance Discovery of Jesus's own practice Deliberation or reflection on how Jesus's model makes a difference Determination—readers consider how their worship will be shaped as a result of this chapter; includes questions for reflection Prayer At the end of each chapter, an exercise is suggested to help people take a practical step toward greater participation and engagement. A Leader Guide is included as an Appendix. This equips pastors, worship leaders and others to facilitate group study of the book. It is a powerful tool for transforming leadership teams and entire congregations.

The Grace Walk Experience Steve McVey 2008-03-01 For years, Steve McVey's Grace Walk (more than 200,000 copies sold) has inspired Christians to leave behind a performance and fear-based faith to embrace a faith lived in abundance and grace. Now The Grace Walk Experience workbook helps readers move that message of hope from their heads to their hearts as they explore eight truths that have changed lives worldwide daily, interactive studies that reveal grace as much more than a doctrine ways to quit "doing" for God so that He can live through them illustrations of the wonder and miracle of faith as God intended God's Word, salvation, and evangelism with new perspective This excellent tool for church classes, small group discussion, and individual study will lead believers to understand their identity in Christ, let go of legalism, and make room for the overflowing love, mercy, and purpose of life lived wholly in God's grace.

Sonic Interaction Design Karmen Frantinovic 2013-03-22 An overview of emerging topics, theories, methods, and practices in sonic interactive design, with a focus on the multisensory aspects of sonic experience. Sound is an integral part of every user experience but a neglected medium in design disciplines. Design of an artifact's sonic qualities is often limited to the shaping of functional, representational, and signaling roles of sound. The interdisciplinary field of sonic interaction design (SID) challenges these prevalent approaches by considering sound as an active medium that can enable novel sensory and social experiences through interactive technologies. This book offers an overview of the emerging SID research, discussing theories, methods, and practices, with a focus on the multisensory aspects of sonic experience. Sonic Interaction Design gathers contributions from scholars, artists, and designers working at the intersections of fields ranging from electronic music to cognitive science. They offer both theoretical considerations of key themes and case studies of products and systems created for such contexts as mobile music, sensorimotor learning, rehabilitation, and gaming. The goal is not only to extend the existing research and pedagogical approaches to SID but also to foster domains of practice for sound designers, architects, interaction designers, media artists, product designers, and urban planners. Taken together, the chapters provide a foundation for a still-emerging field, affording a new generation of designers a fresh perspective on interactive sound as a situated and multisensory experience.
