Art Deco and Modernist Carpets

Susan Day
2002-10 "In 1927, the critic Rene Chavance identified carpet production as the most successful of the decorative arts in

achieving 'the more visionary aims of the times'. Susan Day's book, a work of original scholarship accompanied throughout by illustrations both of the carpets themselves and of contemporary interiors, demonstrates that these Art Deco carpets have lost none of their decorative power. A significant number of the carpets are shown precisely as they were meant to be seen, within the rooms for which they were made." "The fruits of the remarkable Art Deco efflorescence throughout Europe form the first part of the book. In the second, the focus turns to the reaction against the artistes-decorateurs by the champions of modernism. In France, the designs of Sonia Delaunay, Eileen Gray and Jean Lurcat evoked collage and Cubism; the Bauhaus and Scandinavia

provided different influences. The fashion for abstract and modernist rugs was further stimulated by limited editions of rugs woven from works by such artists as Picasso, Klee and Miro, while in the USA, designers developed a style that was distinctly American." "This visual feast, of appeal not only to carpet collectors and textile specialists but to anyone with an interest in 20th-century design, ranges from the supremely imaginative achievements of Paul Poiret's unique weaving studio, the Ecole Martine, to the Scandinavian folk traditions of Marta Maas-Fjetterstrom, the innovations of Frank Lloyd Wright and Donald Deskey in the USA and Gunta Stolzl's handwoven carpets in Germany. The book's invaluable reference section

includes detailed information on artists, manufacturers and retailers, their signatures and monograms, and a glossary and bibliography." --Book Jacket.

Creative research methods in the social sciences Kara, Helen 2015-04-10 With foreword by Kenneth J. Gergen and Mary M. Gergen. Creative research methods can help to answer complex contemporary questions, which are hard to answer using traditional methods alone. Creative methods can also be more

ethical, helping researchers to address social injustice. This accessible book is the first to identify and examine the four areas of creative research methods: arts-based research, research using technology, mixed-method research and transformative research frameworks. Written in a practical and jargon-free style, with over 100 boxed examples, it offers numerous examples of creative methods in practice, from the social sciences, arts, and humanities around the world. Spanning the gulf between academia and practice, this useful book will inform and inspire researchers by showing readers why, when, and how to use creative methods in their research.

Knit Fold Pleat Repeat

Norah Gaughan 2022-02-15

Knitting guru Norah

Gaughan shows you how to

make rectangles, squares, and simple shapes—then fold, twist, and pleat them to create unique, fashionable clothes and accessories. Simple shapes are ideal for the novice knitter, but the clever folds and fastenings of *Knit, Fold, Pleat, Repeat* will intrigue the experienced crowd too. These techniques are easy to learn, and the design possibilities—and new combinations that come to light once you begin—are nearly endless. Each design starts with a simple rectangle, square, or triangle and builds from there: to fold, drape, or twist the shape into a garment or accessory, and to introduce pleats, welts, and slices along the way. Every pattern has a gorgeous high-fashion style, and the projects are so addictive to knit—you may find yourself making

the same garment in new colors and yarns so you'll have one for each season. The book includes thirty-six patterns in all, each with variations.
