**Unknown Bodies: Mothers Daughters and Adoption** Janine Veto 2021-04 The dramatic story of one woman's determined surprising search for her birth parents and commitment to creating her own family Madison WI-Janine Veto's "Unknown Bodies: Mothers Daughters and Adoption" is a brutally and beautifully honest story that begins on a Villa Park, Illinois, playground when her playmate calls her "bastard." Until then she thought being adopted was happily special. Her life had been privileged, secure and typically 1950s American: Dad, mom, brother, church on Sunday, lakeside summers in northern Wisconsin. Suddenly Veto felt she was "misplaced." The need to find her so-called "real parents" grew. It was a need that would take decades as well as drive, cunning, a little thievery and a lot of spunk. It also was a need fueled by alcohol, sex and disillusion. Set in the arts and philanthropy worlds of Chicago and New York as well as an Iowa farm, a Denver sports bars and a Midwestern university town, it is memoir of a Boomer in search of her identity in the rapidly changing landscape of America. "Unknown Bodies" explores the meaning of mother, both as noun and verb, and identity. It continues, on a deeply personal level, the debates about closed vs. open adoption and nature vs. nurture. Accented with her own poetry, Veto writes with candor and insight that is distinctly her own but relatable to adoptees and enlightening for non-adoptees. Ultimately, the message of "Unknown Bodies" is love; the unconditional love of Veto's adoptive parents, accepting and forgiving love for her broken "real parents", and the bonding love between Veto and her own adopted daughter.
