Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Each book in the series examines the revolution that has occurred in nursing and explores the role IT continues to play in this transformation, with a thoughtful examination of nursing practice, science and research, and education. This book, Nursing Education and Digital Health Strategies explores the current state of health and healthcare education, as well as the current state of nursing informatics education. These topics include technologies-enabled education for all nurses and interprofessional collaborations from a worldwide perspective. The "New" learning for applied critical thinking will include technology, content, skills versus tools, and the use of "smart" systems for care delivery, the role of critical thinking and uniqueness of nursing care delivery. Further, how these changes are understood as a paradigm shift that needs to be incorporated along with nursing and healthcare education is emphasized. As part of nursing education, learning from clients/patients to better shape and advance nursing education and scholarship are discussed. Academic-clinical practice partnerships for a digital future, how teams are working together (clinician/teacher) for better healthcare delivery and applied knowledge, including joint appointments (exchange of academia and applied expertise), academic-applied human resources, and interprofessional learning/development are discussed. The book closes by discussing and using case studies to showcase nursing competencies for the next decade, and implications for preparing the healthcare workforce for a digital world, faculty readiness and the interaction with gaming and simulations. Nursing informatics education, including continuing education beyond academia, i.e., informal education, worldwide is described as well as global challenges to support digital world capabilities. Dance, Music and Cultures of Decolonisation in the Indian Diaspora Tina K Ramnarine 2020-06-30 Dance, Music and Cultures of Decolonisation in the Indian Diaspora provides fascinating examples of dance and music projects across the Indian Diaspora to highlight that decolonisation is a creative process, as well as a historical and political one. The book analyses creative processes in decolonising projects, illustrating how dance and music across the Indian Diaspora articulate socio-political aspirations in the wake of thinkers such as Gandhi and Ambedkar. It presents a wide range of examples: post-apartheid practices and experiences in a South African dance company, contestations over national identity politics in Trinidadian music competitions, essentialist and assimilationist strategies in a British dance competition, the new musical creativity of second-generation British-Tamil performers, Indian classical dance projects of reform and British multiculturalism, feminist intercultural performances in Australia, and performance re-enactments of museum exhibits that critically examine the past. Key topics under discussion include postcolonial contestations, decolonising scholarship, dialogic pedagogies and intellectual responsibility. The book critically reflects on decolonising aims around respect, equality and the colonial past's redress as

expressed through performing arts projects. Presenting richly detailed case studies that underline the need to examine creative processes in the cultures of decolonisation, Dance, Music and Cultures of Decolonisation in the Indian Diaspora will be of great interest to scholars of South Asian Studies, Diaspora Studies, Performing Arts Studies and Anthropology. The chapters were originally published as a special issue of South Asian Diaspora.
