The Justified Tight B**rd's Guide to Life** P.J. Moore 2014-05-28 The Justified Tight B****rd's Guide to Life is a book of down-to-earth, no-nonsense, everyday financial advice written and presented with curmudgeonly black humour in the style of Victor Meldrew from One Foot in the Grave. Taking a lateral and critically reflective look at some of our modern consumer and lifestyle choices, it aims to provide all readers, regardless of income, with the key to modest financial wellbeing. The book challenges the arguments of those who claim that we are on the brink of a financial abyss akin to the great 1930s depression. P. J. suggests that, for all our difficulties, we all have enough money, either from employment or social welfare, to live at the very least in modest comfort. P. J. examines some of our perceived financial woes from an holistic rather than a purely economic viewpoint and demonstrates how these problems may be dealt with by a simple shift in perspective. The book also suggests that many purchases we make every day are not only unnecessary, but actually counterproductive or damaging in some way, therefore offering the reader a justified reason for not purchasing many of the items we often consider to be essential. The Justified Tight B****rd's Guide to Life is presented in four separate sections, containing over 300 points. Each point is a self-contained money saving tip linked to the others in the section. Dispensing with political correctness and urging a return to independent thinking, the book challenges the population to take an honest, rounded, responsible and wholesome approach to the problems they encounter and how they resolve them. The book will be of help to anyone who would like to cut their expenses or household outgoings. It is also a self-help book that challenges the reader to ask themselves what they really want from life, and what their priorities are. It should spark critical reflection of our spending habits in all.

Why Viewers Watch Jib Fowles 1992-01-14 Substantially updated, this revised edition of Why Viewers Watch presents recent research, overlooked past studies and fresh survey data to offer an alternative perspective on the role of television and how it serves its viewers psychologically. Fowles argues that television is a `grandly therapeutic force' - a tension-reliever of great benefit to viewers. He also examines the phenomenon of media snobbery - anti-television attitudes proliferated by those who want to feel superior to others by denigrating television viewing.

Recharge Your Library Programs with Pop Culture and Technology Linda D. Behen 2013-06-17 Learn how to integrate pop culture and technology into school library programs and classrooms, and make today's digital content, mobile devices, and students' changing interests work to the educator's advantage. Today's school libraries need to evolve and meet the needs of 21st-century students—the instruction, programming, and library services must be relevant to today's learners. Additionally, the interactions between educators and the students are what make the critical difference in the students' learning, and turn the library and classroom into places where they will find, assimilate, experience, and understand information. This book provides practical strategies for using pop culture and technology trends to connect with easily distracted middle and high school students and hold their attention. Author Linda D. Behen addresses why school libraries are in transition and why there is a need for dramatic change. She discusses the evolution of all libraries in response to digital content; ubiquitous mobile devices such as smart phones, iPads, and other tablet computers; patrons' changing interests; and the ways in which schools and school libraries have found to effectively adapt to technology changes and student needs. This book is essential for middle and high school librarians and educators, library school students and instructors, and young adult public librarians. Provides annotated lists of recommended apps and effective media tools Examines what new methods and tools work best to engage the attention of this generation of students Explains how to teach students already comfortable with the Internet how to find, evaluate, understand, and assimilate information for both academic and personal purposes Demonstrates how to keep up and constantly change a library program to maintain its appeal
