**From Caledonia to Pictland** James E. Fraser 2009-01-19 Shortlisted for the 2009 Saltire Society History Book of the Yea. rFrom Caledonia to Pictland examines the transformation of Iron Age northern Britain into a land of Christian kingdoms, long before 'Scotland' came into existence. Perched at the edge of the western Roman Empire, northern Britain was not unaffected by the experience, and became swept up in the great tide of processes which gave rise to the early medieval West. Like other places, the country experienced social and ethnic metamorphoses, Christianisation, and colonization by dislocated outsiders, but northern Britain also has its own unique story to tell in the first eight centuries AD.This book is the first detailed political history to treat these centuries as a single period, with due regard for Scotland's position in the bigger story of late Antique transition. From Caledonia to Pictland charts the complex and shadowy processes which saw the familiar Picts, Northumbrians, North Britons and Gaels of early Scottish history become established in the country, the achievements of their foremost political figures, and their ongoing links with the world around them. It is a story that has become much revised through changing trends in scholarly approaches to the challenging evidence, and that transformation too is explained for the benefit of students and general readers. *The Shieling, 1600-1840* Albert Bil 1990

*How the Scots Invented the Modern World* Arthur Herman 2007-12-18 An exciting account of the origins of the modern world Who formed the first literate society? Who invented our modern ideas of democracy and free market capitalism? The Scots. As historian and author Arthur Herman reveals, in the eighteenth and nineteenth centuries Scotland made crucial contributions to science, philosophy, literature, education, medicine, commerce, and the politics—contributions that have formed and nurtured the modern West ever since. Herman has charted a fascinating journey across the centuries of Scottish history. Here is the untold story of how John Knox and the Church of Scotland laid the foundation for our modern idea of democracy; how the Scottish Enlightenment helped to inspire both the American Revolution and the U.S. Constitution; and how thousands of Scottish immigrants left their homes to create the American frontier, the Australian outback, and the British Empire in India and Hong Kong. How the Scots Invented the Modern World reveals how Scottish genius for creating the basic ideas and institutions of modern life stamped the lives of a series of remarkable historical figures, from James Watt and Adam Smith to Andrew Carnegie and Arthur Conan Doyle, and how Scottish heroes continue to inspire our contemporary culture, from William “Braveheart” Wallace to James Bond. And no one who takes this incredible historical trek will ever view the Scots—or the modern West—in the same way again.

*Islay* David Caldwell 2017-05-25 This is the history of Islay up to the present day with a particular focus on the people of the island. Islay was originally part of Dal Riata, the early kingdom of the Scots, but was then colonized by Scandinavian settlers in the ninth century. It was also the home of the MacDonalds, who established the Lordship of the Isles during the Medieval Period and who mounted a challenge to the Stewart dynasty for control of Scotland. It also looks at the lesser folk, especially during the time of the Campbell lairds, from the early 17th century onwards. Archaeology combined with documentary research has helped to build up a picture of how the people of Islay lived, the way the land was farmed and the development of local industries, including the distilling of whisky.

**Greyfriar's Bobby** Eleanor Atkinson 2010-12 Set in 19th century Edinburgh, Scotland, Greyfriar's Bobby is a classic dog story that teaches the values of friendship, loyalty, compassion and an innate sense of duty. A small terrier named Bobby was the devoted working companion to an elderly shepherd, but when Old Jock dies and is buried in the Greyfriar's Cemetery the lonely dog takes up his vigil at the grave. This proves no easy accomplishment since dogs are not allowed in this gated burial ground. Befriended by a kind innkeeper and eventually by the local tenement children, Bobby is sustained physically during his 15-year faithful graveside watch. His canine tenderness and unflinnging devotion gained him the reputation as a beacon of loyalty as Old Jock's only mourner. The dog's dedication at the site of his master's grave touched the heartstrings of amazed humankind. Perhaps considered sentimental by modern standards of animal/human literary fare, this book remains a classic in canine lore--ultimately inspiring the citizens of Edinburgh to erect a statue honoring Bobby's lifelong vigil. This short book also offers descriptions of Scotland's scenic beauty, along with gentle insights into the Victorian lifestyle. For dog lovers and kids of all ages!

*The People with No Name* Patrick Griffin 2012-01-06 More than 100,000 Ulster Presbyterians of Scottish origin migrated to the American colonies in the six

decades prior to the American Revolution, the largest movement of any group from the British Isles to British North America in the eighteenth century. Drawing on a vast store of archival materials, *The People with No Name* is the first book to tell this fascinating story in its full, transatlantic context. It explores how these people--whom one visitor to their Pennsylvania enclaves referred to as "a spurious race of mortals known by the appellation Scotch-Irish"--drew upon both Old and New World experiences to adapt to staggering religious, economic, and cultural change. In remarkably crisp, lucid prose, Patrick Griffin uncovers the ways in which migrants from Ulster--and thousands like them--forged new identities and how they conceived the wider transatlantic community. The book moves from a vivid depiction of Ulster and its Presbyterian community in and after the Glorious Revolution to a brilliant account of religion and identity in early modern Ireland. Griffin then deftly weaves together religion and economics in the origins of the transatlantic migration, and examines how this traumatic and enlivening experience shaped patterns of settlement and adaptation in colonial America. In the American side of his story, he breaks new critical ground for our understanding of colonial identity formation and of the place of the frontier in a larger empire. *The People with No Name* will be indispensable reading for anyone interested in transatlantic history, American Colonial history, and the history of Irish and British migration.

**On a Pedestal** Roger Lytollis 2021-11-04 This is a book for people who are interested in statues . . . and for people who aren't. It explores those immortalised in marble and bronze - and what the rest of us think about them. As Roger Lytollis travels Britain he encounters a man at Liverpool's Beatles statue convinced that Rod Stewart was in the Fab Four. In Edinburgh he walks into a row over Greyfriars Bobby's nose and in Glasgow learns why the Duke of Wellington wears a traffic cone on his head. London brings a controversial nude statue and some hard truths about racism. Elsewhere, Roger sees people dancing with Eric Morecambe, finds a statue being the backdrop to a marriage proposal and, everywhere he goes, pigeons. *Always pigeons* . . . *On a Pedestal* is the first book to examine public statues around the nation. It looks at their emergence into our culture wars; the trend for portraying musicians, sports stars and comedians rather than monarchs, politicians and generals; the amazing tales of many of those commemorated on our streets. It also features interviews with sculptors, including Sir Antony Gormley, telling the stories behind some of our most popular modern statues. Part history book, part travelogue, *On a Pedestal* brings

statues to life. Informative and entertaining, it's a book that - ultimately - is more about blood than bronze.

**A Bit of a Stretch** Chris Atkins 2020-02-06 'Shocking, scathing, entertaining.' Guardian 'Incredibly compelling.' The Times 'Heart-breaking.'
