

Guided Postwar America Reteaching Activity

Eventually, you will agree to discover an additional experience and achievement by spending more cash. still when? realize you take that you require to get those every needs in the manner of having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will guide you to understand even more on the subject of the globe, experience, some places, considering history, amusement, and a lot more?

It is your unconditionally own get older to put on an act reviewing habit. in the midst of guides you could enjoy now is **Guided Postwar America Reteaching Activity** below.

Lee Kuan Yew Graham Allison 2020-09-22 CNN "Book of the Week" Featuring a foreword by Henry Kissinger The grand strategist and founder of modern Singapore offers key insights and opinions on globalization, geopolitics, economic growth, and democracy in a series of interviews with the author of *Destined for War*, and others "If you are interested in the future of Asia, which means the future of the world, you've got to read this book." —Fareed Zakaria, CNN When Lee Kuan Yew speaks, presidents, prime ministers, diplomats, and CEOs listen. Lee, the founding father of modern Singapore and its prime minister from 1959 to 1990, has honed his wisdom during more than fifty years on the world stage. Almost single-handedly responsible for transforming Singapore into a Western-style economic success, he offers a unique perspective on the geopolitics of East and West. American presidents from Richard Nixon to Barack Obama have welcomed him to the White House; British prime ministers from Margaret Thatcher to Tony Blair have recognized his wisdom; and business leaders from Rupert Murdoch to Rex Tillerson, CEO of Exxon Mobil, have praised his accomplishments. This book gathers key insights from interviews, speeches, and Lee's voluminous published writings and presents them in an engaging question and answer format. Lee offers his assessment of China's future, asserting, among other things, that "China will want to share this century as co-equals with the U.S." He affirms the United States' position as the world's sole superpower but expresses dismay at the vagaries of its political system. He offers strategic advice for dealing with China and goes on to discuss India's future, Islamic terrorism, economic growth, geopolitics and globalization, and democracy. Lee does not pull his punches, offering his unvarnished opinions on multiculturalism, the welfare state, education, and the free market. This little book belongs on the reading list of every world leader.

Japanese Education Since 1945 1993

Mission on the Rhine James F. Tent 1982 German society underwent greater change under the four years of military occupation than it had under Hitler and the Nazis. The issue of reeducation lay at the heart of America's occupation policies. Encompassing denazification, restructuring of the school system, university reform, and cultural exchange, reeducation began as an idealistic (and naive) attempt to democratize Germany by making her over in the American image. For this meticulously researched study, James F. Tent has drawn on a wealth of recently declassified documents and on numerous personal interviews with veterans of the Occupation. He brings to life not only the dilemmas American officials faced in balancing the need for a political purge against the need to rehabilitate a disrupted society but also the paradoxes involved in a democracy's attempt to impose its ideals on another people. His book chronicles the dedicated work of many Americans; it also illuminates America's Occupation experience as a whole.

The Affluent Society John Kenneth Galbraith 1963-09-01 Galbraith's classic on the "economics of abundance" is, in the words of the *New York Times*, "a compelling challenge to conventional thought." With customary clarity, eloquence, and humor, Galbraith cuts to the heart of what economic security means (and doesn't mean) in today's world and lays bare the hazards of individual and societal complacency about economic inequity. While "affluent society" and "conventional wisdom" (first used in this book) have entered the vernacular, the message of the book has not been so widely embraced—reason enough to rediscover *The Affluent Society*. Chase's Calendar of Events 2016 Editors of Chase's 2015-09-11 Chase's Calendar of Events is the most comprehensive and authoritative reference available on special events, holidays, federal and state observances, historic anniversaries, astronomical phenomena, and more. Published since 1957, Chase's is the only guide to special days, weeks, and months.

Low-intensity Conflict in the Third World Stephen Blank 1988 A common thread ties together the five case studies of this book: the persistence with which the bilateral relationship between the United States and the Soviet Union continues to dominate American foreign and regional policies. These essays analyze the LIC environment in Central Asia, the Middle East, Southeast Asia, Latin America, and sub-Saharan Africa.

The War Inside Michal Shapira 2013-09-12 "In recent years the field of modern history has been enriched by the exploration of two parallel histories. These are the social and cultural history of armed conflict, and the impact of military events on social and cultural history"--

Historical Atlas of the United States National Geographic Society (U.S.) 1993 Maps trace the development of the United States, showing environmental, political, social, and economic change *Providing for the Casualties of War* Bernard D. Rostker 2013-04-29 War has always been a dangerous business, bringing injury, wounds, and death, and--until recently--often disease. What has changed over time, most dramatically in the last 150 or so years, is the care these casualties receive and who provides it. This book looks at the history of how humanity has cared for its war casualties and veterans, from ancient times through the aftermath of World War II.

Vietnam War: The Essential Reference Guide Jim Willbanks 2013-01-08 The Vietnam War was one of America's longest, bloodiest, and most controversial wars. This volume examines the complexities of this protracted conflict and explains why the lessons learned in Vietnam are still highly relevant today. • More than 45 contributors, including Robert K. Brigham, Cecil B. Currey, Arnold R. Isaacs, Lewis Sorley, Spencer C. Tucker, and David T. Zabecki • Introductory essays provide a broad overview of the Vietnam War and help readers understand the causes and consequences of the conflict • Maps depicting South Vietnam, infiltration routes, and key battles **The American Journey** Joyce Oldham Appleby 2003

On the Shoulders of Giants Kareem Abdul-Jabbar 2007-02-05 From 1920 to 1940, the Harlem Renaissance produced a bright beacon of light that paved the way for African-Americans all over the country. The unapologetic writings of W. E. B. Du Bois and Marcus Garvey, the fervent fiction and poetry of Zora Neale Hurston and Langston Hughes, the groundbreaking art of Aaron Douglas and William H. Johnson, and the triumphant music of Duke Ellington and Louis Armstrong gave voice and expression to the thoughts and emotions that Jim Crow segregation laws had long sought to stifle. In *On the Shoulders of Giants*, indomitable basketball star and bestselling author and historian Kareem Abdul-Jabbar invites the reader on an extraordinarily personal journey back to his birthplace, through one of the greatest political, cultural, literary, and artistic movements in our history, revealing the tremendous impact the Harlem Renaissance had on both American culture and his own life. Beginning with the rise of the Harlem Renaissance as pioneers of professional basketball, Kareem traces the many streams of historical influence that converged to create the man he is today -- the NBA's all-time leading scorer and a veritable African-American icon. Travel deep into the soul of the Renaissance -- to the night clubs, restaurants, basketball games, and fabulous parties that have made footprints in Harlem's history. Meet the athletes, jazz musicians, comedians, actors, politicians, entrepreneurs, and writers who not only inspired Kareem's rise to greatness but an entire nation's. Kareem Abdul-Jabbar was born in the midst of a cultural reawakening, carried on the shoulders of athletes trying to prove there was a lot more at stake than a ball game, men and women who made music that could break your heart, and writers and intellectuals who gave voice to not just the ideals of a movement but the raw emotions. Kareem tells what it took to get these revolutionaries to Harlem and how they changed the world. A world that is still riding on the shoulders of giants.

New Europe 1944

The Last Colonial Massacre Greg Grandin 2011-07-30 After decades of bloodshed and political terror, many lament the rise of the left in Latin America. Since the triumph of Castro, politicians and historians have accused the left there of rejecting democracy, embracing communist totalitarianism, and prompting both revolutionary violence and a right-wing backlash. Through unprecedented archival research and gripping personal testimonies, Greg Grandin powerfully challenges these views in this classic work. In doing so, he uncovers the hidden history of the

Latin American Cold War: of hidebound reactionaries holding on to their power and privilege; of Mayan Marxists blending indigenous notions of justice with universal ideas of equality; and of a United States supporting new styles of state terror throughout the region. With Guatemala as his case study, Grandin argues that the Latin American Cold War was a struggle not between political liberalism and Soviet communism but two visions of democracy—one vibrant and egalitarian, the other tepid and unequal—and that the conflict's main effect was to eliminate homegrown notions of social democracy. Updated with a new preface by the author and an interview with Naomi Klein, *The Last Colonial Massacre* is history of the highest order—a work that will dramatically recast our understanding of Latin American politics and the role of the United States in the Cold War and beyond. "This work admirably explains the process in which hopes of democracy were brutally repressed in Guatemala and its people experienced a civil war lasting for half a century."—*International History Review* "A richly detailed, humane, and passionately subversive portrait of inspiring reformers tragically redefined by the Cold War as enemies of the state."—*Journal of American History*

The Last Shah Ray Takeyh 2021-01-26 The surprising story of Iran's transformation from America's ally in the Middle East into one of its staunchest adversaries "An original interpretation that puts Iranian actors where they belong: at center stage."--Michael Doran, *Wall Street Journal* "For the clearest view of Iran for the last 100 years, this book is it."--Marvin Zonis, author of *Majestic Failure: The Fall of the Shah* Offering a new view of one of America's most important, infamously strained, and widely misunderstood relationships of the postwar era, this book tells the history of America and Iran from the time the last shah, Mohammad Reza Pahlavi, was placed on the throne in 1941 to the 1979 revolution that brought the present Islamist government to power. This revolution was not, as many believe, the popular overthrow of a powerful and ruthless puppet of the United States; rather, it followed decades of corrosion of Iran's political establishment by an autocratic ruler who demanded fealty but lacked the personal strength to make hard decisions and, ultimately, lost the support of every sector of Iranian society. Esteemed Middle East scholar Ray Takeyh provides new interpretations of many key events—including the 1953 coup against Prime Minister Mohammad Mossadeq and the rise of Ayatollah Ruhollah Khomeini--significantly revising our understanding of America and Iran's complex and difficult history.

Fiske Guide to Colleges with Great Sports Traditions Edward B Fiske 2014-02-12 Blue and white face paint at Duke; the Big Brown Jug trophy game between Minnesota and Michigan; touchdown Jesus at Notre Dame--American colleges and universities are packed with sports traditions that date long before the first telecast of ESPN. Now, the preeminent name in college guides, Edward B. Fiske, turns his pen to those schools that bleed their mascot colors. Whether a grand old favorite—Auburn anyone?--or a surprising addition—University of Pennsylvania--you'll be fascinated by the details Fiske brings to these sports infused schools.

Catfish and Mandala Andrew X. Pham 2010-04-01 *A Vietnamese Bicycle Days* by a stunning new voice in American letters. Andrew X. Pham dreamed of becoming a writer. Born in Vietnam and raised in California, he held technical jobs at United Airlines and always carried a letter of resignation in his briefcase. His father had been a POW of the Vietcong; his family came to America as "boat people." His sister committed suicide, prompting Andrew to quit his job. He sold all of his possessions and embarked on a year-long bicycle journey that took him through the Mexican desert, where he was treated as a *bueno hermano*, a "good brother"; around a thousand-mile loop from Narita to Kyoto in Japan; and, after five months and 2,357 miles, to Saigon, where he finds "nothing familiar in the bombed-out darkness." In Mexico he's treated kindly as a *Vietnamito*, though he shouts, "I'm American, Vietnamese American!" In Vietnam, he's taken for Japanese or Korean by his countrymen, except, of course, by his relatives, who doubt that as a Vietnamese he has the stamina to complete his journey ("Only Westerners can do it"); and in the United States he's considered anything but American. A vibrant, picaresque memoir written with narrative flair and a wonderful, eye-opening sense of adventure, *Catfish and Mandala* is an unforgettable search for cultural identity.

The Other America Michael Harrington 1997-08 Presents the original report on poverty in America that led President Kennedy to initiate the federal poverty program

Building the State: Architecture, Politics, and State Formation in Postwar Central Europe Virag Molnar 2013-10-08 The built environment of former socialist countries is often deemed uniform and drab, an apt reflection of a repressive regime. Building the State peeks behind the grey façade to reveal a colourful struggle over competing meanings of the nation, Europe, modernity and the past in a divided continent. Examining how social change is closely intertwined with transformations of the built environment, this volume focuses on the relationship between architecture and state politics in postwar Central Europe using examples from Hungary and Germany. Built around four case studies, the book traces how architecture was politically mobilized in the service of social change, first in socialist modernization programs and then in the postsocialist transition. Building the State does not only offer a comprehensive survey of the diverse political uses of architecture in postwar Central Europe but is the first book to explore how transformations of the built environment can offer a lens into broader processes of state formation and social change.

The Viet Kieu in America Nghia M. Vo 2009-10-21 Vietnamese make up one of the largest refugee populations in the United States, some arriving by boat in 1975 after the fall of Saigon and others coming in the 1990s. This collection of 22 essays by 14 authors illuminates Vietnamese-American culture, views of freedom and oppression, and the issues of relocation, assimilation and transition for two million people. It contains personal experiences of the Vietnam War, life under Communist rule, and escape to America.

Impetus 1950

Neo-nationalism and Universities John Aubrey Douglass 2021-09-07 The rise of neo-nationalism is having a profound and troubling impact on leading national universities and the societies they serve. This is the first comparative study of how today's right-wing populist movements and authoritarian governments are threatening higher education. Universities have long been at the forefront of both national development and global integration. But the political and policy world in which they operate is undergoing a transition, one that is reflective of a significant change in domestic politics and international relations: a populist turn inward among a key group of nation-states, often led by demagogues, that includes China and Hong Kong, Turkey, Hungary, Russia, Brazil, the United Kingdom, and the United States. In many parts of the world, the COVID-19 pandemic provided an opportunity for populists and autocrats to further consolidate their power. Within right-wing political ecosystems, universities, in effect, offer the proverbial canary in the coal mine—a clear window into the extent of civil liberties and the political environment and trajectory of nation-states. In *Neo-nationalism and Universities*, John Aubrey Douglass provides the first significant examination of the rise of neo-nationalism and its impact on the missions, activities, behaviors, and productivity of leading national universities. Douglass presents a major comparative exploration of the role of national politics and norms in shaping the role of universities in nation-states—and vice versa. He also explores when universities are societal leaders or followers: When they are agents of social and economic change, or simply agents reinforcing and supporting an existing social and political order. In a series of case studies, Douglass and contributors examine troubling trends that threaten the societal role of universities, including attacks on civil liberties, free speech, and the validity of science; the firing and jailing of academics; anti-immigrant rhetoric; and restrictions on visas with consequences for the mobility of academic talent. The book also offers recommendations to preserve the autonomy and academic freedom of universities and their constituents. Neo-nationalism and Universities is written for a broad public readership interested and concerned about the rise of nationalist

movements, illiberal democracies, and autocratic leaders. Contributors: José Augusto Guilhon Albuquerque, Elizabeth Balbachevsky, Thomas Brunotte, Igor Chirikov, Igor Fedyukin, Karin Fischer, Wilhelm Krull, Brendan O'Malley, Bryan E. Penprase, Marijk van der Wende
Japan Rearmed Sheila A. Smith 2019-04-08 Modern Japan is not only responding to threats from North Korea and China but is also reevaluating its dependence on the United States, Sheila Smith shows. No longer convinced they can rely on Americans to defend their country, Tokyo's political leaders are now confronting the possibility that they may need to prepare the nation's military for war.

Readers' Guide to Periodical Literature 1945

The Arts of Democratization Jennifer M. Kapczynski 2022-02-07 How postwar West German democracy was styled through word, image, sound, performance, and gathering
Cold War Friendships Josephine Nock-Hee Park 2016-05-02 Cold War Friendships explores the plight of the Asian ally of the American wars in Korea and Vietnam. Enlisted into proxy warfare, this figure is not a friend but a "friendly," a wartime convenience enlisted to serve a superpower. It is through this deeply unequal relation, however, that the Cold War friendly secures her own integrity and insists upon her place in the neocolonial imperium. This study reads a set of highly enterprising wartime subjects who make their way to the US via difficult attachments. American forces ventured into newly postcolonial Korea and Vietnam, both plunged into civil wars, to draw the dividing line of the Cold War. The strange success of containment and militarization in Korea unraveled in Vietnam, but the friendly marks the significant continuity between these hot wars. In both cases, the friendly justified the fight: she was also a political necessity who redeployed cold war alliances, and, remarkably, made her way to America. As subjects in process--and indeed, proto-Americans--these figures are prime literary subjects, whose processes of becoming are on full display in Asian American novels and testimonies of these wars. Literary writings on both of these conflicts are presently burgeoning, and Cold War Friendships performs close analyses of key texts whose stylistic constraints and contradictions--shot through with political and historical nuance--present complex gestures of alliance.

Those Who Forget Geraldine Schwarz 2020-09-22 "[Makes] the very convincing case that, until and unless there is a full accounting for what happened with Donald Trump, 2020 is not over and never will be." —The New Yorker "Riveting...we can never be reminded too often to never forget." —The Wall Street Journal Journalist Géraldine Schwarz's astonishing memoir of her German and French grandparents' lives during World War II "also serves as a perceptive look at the current rise of far-right nationalism throughout Europe and the US" (Publishers Weekly). During World War II, Géraldine Schwarz's German grandparents were neither heroes nor villains; they were merely Mitläufer—those who followed the current. Once the war ended, they wanted to bury the past under the wreckage of the Third Reich. Decades later, while delving through filing cabinets in the basement of their apartment building in Mannheim, Schwarz discovers that in 1938, her paternal grandfather Karl took advantage of Nazi policies to buy a business from a Jewish family for a low price. She finds letters from the only survivor of this family (all the others perished in Auschwitz), demanding reparations. But Karl Schwarz refused to acknowledge his responsibility. Géraldine starts to question the past: How guilty were her grandparents? What makes us complicit? On her mother's side, she investigates the role of her French grandfather, a policeman in Vichy. Weaving together the threads of three generations of her family story with Europe's process of post-war reckoning, Schwarz explores how millions were seduced by ideology, overcome by a fog of denial after the war, and, in Germany at least, eventually managed to transform collective guilt into democratic responsibility. She asks: How can nations learn from history? And she observes that countries that avoid confronting the past are especially vulnerable to extremism. Searing and unforgettable, *Those Who Forget* "deserves to be read and discussed widely...this is Schwarz's invaluable warning" (The Washington Post Book Review).

Chase's Calendar of Events 2017 Editors of Chase's 2016-09-23 Find out what's going on any day of the year, anywhere across the globe! The world's datebook, Chase's is the definitive day-by-day resource of what America and the wider world are celebrating and commemorating. Founded in 1957 on a reputation for accuracy and comprehensiveness, this annual publication has become the must-have reference used by experts and professionals for more than fifty years. From celebrity birthdays to historical anniversaries, from astronomical phenomena to national awareness days, from award ceremonies and sporting events to religious festivals and carnivals, Chase's is the one-stop shop for everything that is happening now or is worth remembering from the past. The 2017 Edition of Chase's Calendar of Events brings you information about: The 500th anniversary of Martin Luther's Ninety-Five Theses The 150th anniversary of the Dominion of Canada The 100th anniversary of the Russian Revolution The 100th anniversary of splitting the atom The 50th anniversary of the Summer of Love Frank Lloyd Wright's 150th birth anniversary and much more!

Judenmord Kathrin Hoffmann-Curtius 2018-06-11 "In remembering the murder of the Jews during the period of National Socialism in Germany, the contribution made by artists in the first twenty years after the end of the war has been largely ignored. But how did artists deal with their own experiences and relate these to what they saw, heard and read about the Holocaust? What images of the Jews were presented to the Germans after the end of the brutal regime? And did works of art in Germany contribute to a re-education process, new ways of thinking in both East and West Germany, and the culture of memory? *Judenmord* is the first collection of works of art specifically by German artists from the end of the war to the end of the 1960s that comment on the Holocaust. It presents paintings, drawings and etchings that bring to light the persecution of the Jews, and examines how artists reacted to injustice in a social situation where the majority stayed silent. Featuring an unfamiliar array of works, by artists such as Otto Pankok, Lea Grundig, Ludwig Meidner, Werner Tubke, Wolf Vostell, Joseph Beuys and Gerhard Richter, and including those by former camp inmates, this is essential reading for all those interested in the history of

art and the Holocaust."--Publisher's description.

Mercenaries: A Guide to Private Armies and Private Military Companies Alan Axelrod 2013-12-27 Mercenaries have been active in battle from the beginning of military history and, as private armies and military support firms, they are a major component of warfare today. Security, military advice, training, logistics support, policing, technological expertise, intelligence, transportation—all are outsourced to a greater or lesser degree in the U.S. military. However, privatization is not a uniquely American phenomenon. Countries as diverse as Saudi Arabia and Australia rely on privatization in one form or another. Historically, heads of state, politicians, and other administrators have justified use of mercenaries on the basis of their effectiveness, and cost-savings. These reasons and others continue to serve as rationales for use of private military companies in military strategy. *Mercenaries: A Guide to Private Armies and Private Military Companies* provides a comprehensive survey and guide to mercenary forces, entrepreneurs, and corporations active on the international military scene today, including a concise history of mercenaries and private armies on land, sea, and in the air. Narrative chapters are amply supplemented by sidebars including biographies of major figures, key statistics, historical and current documents, contracts, and legislation on private armies and outsourced military services. Each chapter includes a bibliography of books, journal articles, and web sites, and a general bibliography concludes the entire work.

Guide to Records Relating to U.S. Military Participation in World War II: Supply and Support United States. National Archives and Records Administration 1996
Workforce 2000 William B. Johnston 1987

The Fifteen Weeks (February 21 - June 5, 1947) Joseph M. Jones 2018-12-01 A DRAMATIC AND REVEALING ACCOUNT, FROM INSIDE THE GOVERNMENT, OF THE MOMENTOUS DAYS IN WHICH AMERICA ASSUMED THE RESPONSIBILITY OF WORLD LEADERSHIP. First published in 1955, Joseph M. Jones' memoirs *The Fifteen Weeks* chronicle his role in the development of the Truman Doctrine and the Marshall Plan. "The fifteen weeks which form the title and subject of this book comprise the period in 1947 when the United States stepped out irrevocably and wholeheartedly as leader upon the world stage.... "The greatness of a nation, like the greatness of an individual, is in the last analysis a mystery. We do not know why at one time immense exertions and far-reaching vision are more prevalent than at others. Yet to look within, to account for the obvious factors in the situation is highly useful. That function is performed in a book which for readability and for responsible narration would be hard to surpass."—August Heckscher in the New York Herald Tribune.

The First Resort of Kings Richard T. Arndt 2011 A landmark study of the most-neglected tool of U.S. foreign policy.

Theaters of Occupation Jennifer Fay 2008 In the aftermath of total war and unconditional surrender, Germans found themselves receiving instruction from their American occupiers. It was not a conventional education. In their effort to transform German national identity and convert a Nazi past into a democratic future, the Americans deployed what they perceived as the most powerful and convincing weapon—movies. In a rigorous analysis of the American occupation of postwar Germany and the military's use of "soft power," Jennifer Fay considers how Hollywood films, including *Ninotchka*, *Gaslight*, and *Stagecoach*, influenced German culture and cinema. In this cinematic pedagogy, dark fantasies of American democracy and its history were unwittingly played out on-screen. *Theaters of Occupation* reveals how Germans responded to these education efforts and offers new insights about American exceptionalism and virtual democracy at the dawn of the cold war. Fay's innovative approach examines the culture of occupation not only as a phase in U.S.–German relations but as a distinct space with its own discrete cultural practices. As the American occupation of Germany has become a paradigm for more recent military operations, Fay argues that we must question its efficacy as a mechanism of cultural and political change. Jennifer Fay is associate professor and codirector of film studies in the Department of English at Michigan State University.

Composers of the Nazi Era Michael H. Kater 1999-12-23 How does creativity thrive in the face of fascism? How can a highly artistic individual function professionally in so threatening a climate? *Composers of the Nazi Era* is the final book in a critically acclaimed trilogy that includes *Different Drummers* (OUP 1992) and *The Twisted Muse* (OUP 1997), which won the Wallace K. Ferguson Prize of the Canadian Historical Association. Here, historian Michael H. Kater provides a detailed study of the often interrelated careers of eight prominent German composers who lived and worked amid the dictatorship of the Third Reich, or were driven into exile by it: Werner Egk, Paul Hindemith, Kurt Weill, Karl Amadeus Hartmann, Carl Orff, Hans Pfitzner, Arnold Schoenberg, and Richard Strauss. Kater weighs issues of accommodation and resistance to ask whether these artists corrupted themselves in the service of a criminal regime—and if so, whether this may be discerned from their music. After chapters discussing the circumstances of each composer individually, Kater concludes with an analysis of the composers' different responses to the Nazi regime and an overview of the sociopolitical background against which they functioned. The final chapter also extends the discussion beyond the end of World War II to examine how the composers reacted to the new and fragile democracy in Germany.

Thought Crime Max Ward 2019-03 Max Ward explores the Japanese state's efforts to suppress political radicalism in the 1920s and 1930s through the enforcement of what it called thought crime, providing a window into understanding how modern states develop ideological apparatuses to subject their respective populations.

Guide to Guidance ... 1946

How TV Changed America's Mind Edward Wakin 2002-11 Tells the story of how television worked to change the minds of Americans in the categories of confrontation, politics, war, heroes and villains, and eye-openers, from the 1950s through the 1990s.

Guide to the Study of United States History Outside the U.S., 1945-1980: Bibliography 1985
