Latin America. Since the triumph of Castro, politicians and historians have accused the left there of rejecting democracy, embracing communist totalitarianism, and prompting both revolutionary violence and a right-wing backlash. Through unprecedented archival research and gripping personal testimonies, Greg Grandin powerfully challenges these views in this classic work. In doing so, he uncovers the hidden history of the Latin American Cold War: of hidebound reactionaries holding on to their power and privilege; of Mayan Marxists blending indigenous notions of justice with universal ideas of equality;

and of a United States supporting new styles of state terror throughout the region. With Guatemala as his case study, Grandin argues that the Latin American Cold War was a struggle not between political liberalism and Soviet communism but two visions of democracy—one vibrant and egalitarian, the other tepid and unequal—and that the conflict’s main effect was to eliminate homegrown notions of social democracy. Updated with a new preface by the author and an interview with Naomi Klein, *The Last Colonial Massacre* is history of the highest order—a work that will dramatically recast our

understanding of Latin American politics and the role of the United States in the Cold War and beyond. “This work admirably explains the process in which hopes of democracy were brutally repressed in Guatemala and its people experienced a civil war lasting for half a century.”—International History Review “A richly detailed, humane, and passionately subversive portrait of inspiring reformers tragically redefined by the Cold War as enemies of the state.”—Journal of American History

The Arts of Democratization Jennifer M. Kapczynski 2022-02-07 How postwar West

German democracy was styled through word, image, sound, performance, and gathering

Japanese Education since 1945 Edward R. Beauchamp 2015-05-11 A study of postwar education in Japan which is intended to shed light on the development of Japanese educational policy. Major educational documents are included, some taken from records of the American occupation forces and others being original translations from Japanese sources.

[Chase's Calendar of Events 2017](#) Editors of Chase's 2016-09-23 Find out what's going on any day of the year, anywhere across the globe! The

world's datebook, Chase's is the definitive day-by-day resource of what America and the wider world are celebrating and commemorating. Founded in 1957 on a reputation for accuracy and comprehensiveness, this annual publication has become the must-have reference used by experts and professionals for more than fifty years. From celebrity birthdays to historical anniversaries, from astronomical phenomena to national awareness days, from award ceremonies and sporting events to religious festivals and carnivals, Chase's is the one-stop shop for everything that is happening now or is worth

remembering from the past. The 2017 Edition of Chase's Calendar of Events brings you information about: The 500th anniversary of Martin Luther's Ninety-Five Theses The 150th anniversary of the Dominion of Canada The 100th anniversary of the Russian Revolution The 100th anniversary of splitting the atom The 50th anniversary of the Summer of Love Frank Lloyd Wright's 150th birth anniversary and much more!

Thought Crime Max Ward 2019-03 Max Ward explores the Japanese state's efforts to suppress political radicalism in the 1920s and 1930s through the enforcement of what it called thought

crime, providing a window into understanding how modern states develop ideological apparatuses to subject their respective populations.

The Fifteen Weeks (February 21 - June 5, 1947)

Joseph M. Jones 2018-12-01 A DRAMATIC AND REVEALING ACCOUNT, FROM INSIDE THE GOVERNMENT, OF THE MOMENTOUS DAYS IN WHICH AMERICA ASSUMED THE RESPONSIBILITY OF WORLD LEADERSHIP.

First published in 1955, Joseph M. Jones' memoirs *The Fifteen Weeks* chronicle his role in the development of the Truman Doctrine and the Marshall Plan. "The fifteen weeks which form the

title and subject of this book comprise the period in 1947 when the United States stepped out irrevocably and wholeheartedly as leader upon the world stage.... "The greatness of a nation, like the greatness of an individual, is in the last analysis a mystery. We do not know why at one time immense exertions and far-reaching vision are more prevalent than at others. Yet to look within, to account for the obvious factors in the situation is highly useful. That function is performed in a book which for readability and for responsible narration would be hard to surpass."—August Heckscher in the *New York*

Herald Tribune.

Mission on the Rhine James F. Tent 1982

German society underwent greater change under the four years of military occupation than it had under Hitler and the Nazis. The issue of reeducation lay at the heart of America's occupation policies. Encompassing denazification, restructuring of the school system, university reform, and cultural exchange, reeducation began as an idealistic (and naive) attempt to democratize Germany by making her over in the American image. For this meticulously researched study, James F. Tent has drawn on a wealth of

recently declassified documents and on numerous personal interviews with veterans of the Occupation. He brings to life not only the dilemmas American officials faced in balancing the need for a political purge against the need to rehabilitate a disrupted society but also the paradoxes involved in a democracy's attempt to impose its ideals on another people. His book chronicles the dedicated work of many Americans; it also illuminates America's Occupation experience as a whole.

Building the State: Architecture, Politics, and State Formation in Postwar Central Europe Virag

Molnar 2013-10-08 The built environment of former socialist countries is often deemed uniform and drab, an apt reflection of a repressive regime. Building the State peeks behind the grey façade to reveal a colourful struggle over competing meanings of the nation, Europe, modernity and the past in a divided continent. Examining how social change is closely intertwined with transformations of the built environment, this volume focuses on the relationship between architecture and state politics in postwar Central Europe using examples from Hungary and Germany. Built around four case studies, the

book traces how architecture was politically mobilized in the service of social change, first in socialist modernization programs and then in the postsocialist transition. Building the State does not only offer a comprehensive survey of the diverse political uses of architecture in postwar Central Europe but is the first book to explore how transformations of the built environment can offer a lens into broader processes of state formation and social change.

The Viet Kieu in America Nghia M. Vo

2009-10-21 Vietnamese make up one of the largest refugee populations in the United States,

some arriving by boat in 1975 after the fall of Saigon and others coming in the 1990s. This collection of 22 essays by 14 authors illuminates Vietnamese-American culture, views of freedom and oppression, and the issues of relocation, assimilation and transition for two million people. It contains personal experiences of the Vietnam War, life under Communist rule, and escape to America.

Chase's Calendar of Events 2016 Editors of Chase's 2015-09-11 Chase's Calendar of Events is the most comprehensive and authoritative reference available on special events, holidays,

federal and state observances, historic anniversaries, astronomical phenomena, and more. Published since 1957, Chase's is the only guide to special days, weeks, and months.

Providing for the Casualties of War Bernard D. Rostker 2013-04-29 War has always been a dangerous business, bringing injury, wounds, and death, and--until recently--often disease. What has changed over time, most dramatically in the last 150 or so years, is the care these casualties receive and who provides it. This book looks at the history of how humanity has cared for its war casualties and veterans, from ancient times

through the aftermath of World War II.

How TV Changed America's Mind Edward Wakin
2002-11 Tells the story of how television worked to change the minds of Americans in the categories of confrontation, politics, war, heroes and villains, and eye-openers, from the 1950s through the 1990s.

International Relations, Music and Diplomacy

Frédéric Ramel 2018-01-22 This volume explores the interrelation of international relations, music, and diplomacy from a multidisciplinary perspective. Throughout history, diplomats have gathered for musical events, and musicians have

served as national representatives. Whatever political unit is under consideration (city-states, empires, nation-states), music has proven to be a component of diplomacy, its ceremonies, and its strategies. Following the recent acoustic turn in IR theory, the authors explore the notion of “musical diplomacies” and ask whether and how it differs from other types of cultural diplomacy.

Accordingly, sounds and voices are dealt with in acoustic terms but are not restricted to music per se, also taking into consideration the voices (speech) of musicians in the international arena.

Workforce 2000 William B. Johnston 1987

Masters of All They Surveyed D. Graham Burnett

2001-09-20 Chronicling the British pursuit of the legendary El Dorado, *Masters of All They*

Surveyed tells the fascinating story of geography, cartography, and scientific exploration in Britain's unique South American colony, Guyana. How did nineteenth-century Europeans turn areas they called terra incognita into bounded colonial territories? How did a tender-footed gentleman,

predisposed to seasickness (and unable to swim), make his way up churning rivers into thick jungle, arid savanna, and forbidding mountain ranges, survive for the better part of a decade, and emerge with a map? What did that map mean? In answering these questions, D. Graham Burnett brings to light the work of several such explorers, particularly Sir Robert H. Schomburgk, the man who claimed to be the first to reach the site of Raleigh's El Dorado. Commissioned by the Royal Geographical Society and later by the British Crown, Schomburgk explored and mapped regions in modern Brazil, Venezuela, and

Guyana, always in close contact with Amerindian communities. Drawing heavily on the maps, reports, and letters that Schomburgk sent back to England, and especially on the luxuriant images of survey landmarks in his Twelve Views in the Interior of Guiana (reproduced in color in this book), Burnett shows how a vast network of traverse surveys, illustrations, and travel narratives not only laid out the official boundaries of British Guiana but also marked out a symbolic landscape that fired the British imperial imagination. Engagingly written and beautifully illustrated, *Masters of All They Surveyed* will

interest anyone who wants to understand the histories of colonialism and science.

Pedagogy of Democracy Mire Koikari 2009-12-28

This book argues that postwar gender reform was part of the Cold War containment strategies that eroded rather than promoted women's political and economic rights. It suggests that American and Japanese women leaders both participated in as well as resisted the ruling dynamics of race, gender, class, sexuality, and nation. Compares and contrasts imperial feminism of both the 19th and 20th centuries.

From the Heart of Europe Francis Otto

Matthiessen 1948

Stalin and Europe Timothy Snyder 2014 The Soviet Union was the largest state in the twentieth-century world, but its repressive power and terrible ambition were most clearly on display in Europe. Under the leadership of Joseph Stalin, the Soviet Union transformed itself and then all of the European countries with which it came into contact. This book considers each aspect of the encounter of Stalin with Europe: the attempt to create a kind of European state by accelerating the European model of industrial development; mass murder in anticipation of a war against

European powers; the actual contact with Europe's greatest power, Nazi Germany, during four years of war fought chiefly on Soviet territory and bringing untold millions of deaths, including much of the Holocaust; and finally the reestablishment of the Soviet system, not just in the reestablished Soviet system, but in the Baltic States, Poland, Czechoslovakia, Romania, Hungary, Bulgaria, and East Germany. The contributors take up not just high politics but also the experiences of the populations that were affected by them. Divided into four parts, the book deals with Soviet politics and actions mainly in

the 1930s; the Soviet invasion and occupation of Poland; German aggression against the Soviet Union as well as plans for occupation and their improvised implementation; and Soviet wartime plans for the postwar period. This volume brings together the best work from a multi-year project sponsored by the Institute for Human Sciences in Vienna, including scholars who have worked with archival materials in numerous countries and whose research is often published in other languages.

Intimate Rivals Sheila A. Smith 2015-04-07 No country feels China's rise more deeply than

Japan. Through intricate case studies of visits by Japanese politicians to the Yasukuni Shrine, conflicts over the boundaries of economic zones in the East China Sea, concerns about food safety, and strategies of island defense, Sheila A. Smith explores the policy issues testing the Japanese government as it tries to navigate its relationship with an advancing China. Smith finds that Japan's interactions with China extend far beyond the negotiations between diplomats and include a broad array of social actors intent on influencing the Sino-Japanese relationship. Some of the tensions complicating Japan's encounters

with China, such as those surrounding the Yasukuni Shrine or territorial disputes, have deep roots in the postwar era, and political advocates seeking a stronger Japanese state organize themselves around these causes. Other tensions manifest themselves during the institutional and regulatory reform of maritime boundary and food safety issues. Smith scrutinizes the role of the Japanese government in coping with contention as China's influence grows and Japanese citizens demand more protection. Underlying the government's efforts is Japan's insecurity about its own capacity for change and its waning status

as the leading economy in Asia. For many, China's rise means Japan's decline, and Smith suggests how Japan can maintain its regional and global clout as confidence in its postwar diplomatic and security approach diminishes.

A History of Modern Psychology in Context Wade

Pickren 2010-02-19 A fresh look at the history of psychology placed in its social, political, and cultural contexts A History of Modern Psychology in Context presents the history of modern psychology in the richness of its many contexts.

The authors resist the traditional storylines of great achievements by eminent people, or schools of thought that rise and fall in the wake of scientific progress. Instead, psychology is portrayed as a network of scientific and professional practices embedded in specific temporal, social, political, and cultural contexts. The narrative is informed by three key concepts—indigenization, reflexivity, and social constructionism—and by the fascinating interplay between disciplinary Psychology and everyday psychology. The authors complicate the notion of who is at the center and who is at the periphery

of the history of psychology by bringing in actors and events that are often overlooked in traditional accounts. They also highlight how the reflexive nature of Psychology—a science produced both by and about humans—accords history a prominent place in understanding the discipline and the theories it generates. Throughout the text, the authors show how Psychology and psychologists are embedded in cultures that indelibly shape how the discipline is defined and practiced, the kind of knowledge it creates, and how this knowledge is received. The text also moves beyond an exclusive focus on the

development of North American and European psychologies to explore the development of psychologies in other indigenous contexts, especially from the mid-20th-century onward.

Mercenaries: A Guide to Private Armies and Private Military Companies Alan Axelrod

2013-12-27 Mercenaries have been active in battle from the beginning of military history and, as private armies and military support firms, they are a major component of warfare today. Security, military advice, training, logistics support, policing, technological expertise, intelligence, transportation—all are outsourced to

a greater or lesser degree in the U.S. military. However, privatization is not a uniquely American phenomenon. Countries as diverse as Saudi Arabia and Australia rely on privatization in one form or another. Historically, heads of state, politicians, and other administrators have justified use of mercenaries on the basis of their effectiveness, and cost-savings. These reasons and others continue to serve as rationales for use of private military companies in military strategy.

Mercenaries: A Guide to Private Armies and Private Military Companies provides a comprehensive survey and guide to mercenary

forces, entrepreneurs, and corporations active on the international military scene today, including a concise history of mercenaries and private armies on land, sea, and in the air. Narrative chapters are amply supplemented by sidebars including biographies of major figures, key statistics, historical and current documents, contracts, and legislation on private armies and outsourced military services. Each chapter includes a bibliography of books, journal articles, and web sites, and a general bibliography concludes the entire work.

The American Journey Joyce Oldham Appleby

2003

Those Who Forget Geraldine Schwarz

2020-09-22 “[Makes] the very convincing case that, until and unless there is a full accounting for what happened with Donald Trump, 2020 is not over and never will be.” –The New Yorker
“Riveting...we can never be reminded too often to never forget.” –The Wall Street Journal Journalist
Géraldine Schwarz’s astonishing memoir of her German and French grandparents’ lives during World War II “also serves as a perceptive look at the current rise of far-right nationalism throughout Europe and the US” (Publishers Weekly). During

World War II, Géraldine Schwarz's German grandparents were neither heroes nor villains; they were merely Mitläufer—those who followed the current. Once the war ended, they wanted to bury the past under the wreckage of the Third Reich. Decades later, while delving through filing cabinets in the basement of their apartment building in Mannheim, Schwarz discovers that in 1938, her paternal grandfather Karl took advantage of Nazi policies to buy a business from a Jewish family for a low price. She finds letters from the only survivor of this family (all the others perished in Auschwitz), demanding reparations.

But Karl Schwarz refused to acknowledge his responsibility. Géraldine starts to question the past: How guilty were her grandparents? What makes us complicit? On her mother's side, she investigates the role of her French grandfather, a policeman in Vichy. Weaving together the threads of three generations of her family story with Europe's process of post-war reckoning, Schwarz explores how millions were seduced by ideology, overcome by a fog of denial after the war, and, in Germany at least, eventually managed to transform collective guilt into democratic responsibility. She asks: How can nations learn

from history? And she observes that countries that avoid confronting the past are especially vulnerable to extremism. Searing and unforgettable, *Those Who Forget* “deserves to be read and discussed widely...this is Schwarz’s invaluable warning” (The Washington Post Book Review).

Japan Rearmed Sheila A. Smith 2019-04-08

Modern Japan is not only responding to threats from North Korea and China but is also reevaluating its dependence on the United States, Sheila Smith shows. No longer convinced they can rely on Americans to defend their country,

Tokyo’s political leaders are now confronting the possibility that they may need to prepare the nation’s military for war.

Nightmare Envy and Other Stories George

Guide to Records Relating to U.S. Military Participation in World War II: Supply and support
United States. National Archives and Records Administration 1996

Freedom in the World 2015 Freedom House
2015-12-24 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fourteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are

determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious

composition, or level of economic development. Composers of the Nazi Era Michael H. Kater 1999-12-23 How does creativity thrive in the face of fascism? How can a highly artistic individual function professionally in so threatening a climate? Composers of the Nazi Era is the final book in a critically acclaimed trilogy that includes Different Drummers (OUP 1992) and The Twisted Muse (OUP 1997), which won the Wallace K. Ferguson Prize of the Canadian Historical Association. Here, historian Michael H. Kater provides a detailed study of the often interrelated careers of eight prominent German composers

who lived and worked amid the dictatorship of the Third Reich, or were driven into exile by it: Werner Egk, Paul Hindemith, Kurt Weill, Karl Amadeus Hartmann, Carl Orff, Hans Pfitzner, Arnold Schoenberg, and Richard Strauss. Kater weighs issues of accommodation and resistance to ask whether these artists corrupted themselves in the service of a criminal regime--and if so, whether this may be discerned from their music. After chapters discussing the circumstances of each composer individually, Kater concludes with an analysis of the composers' different responses to the Nazi regime and an overview of the

sociopolitical background against which they functioned. The final chapter also extends the discussion beyond the end of World War II to examine how the composers reacted to the new and fragile democracy in Germany.

Neo-nationalism and Universities John Aubrey Douglass 2021-09-07 "This book offers the first significant examination of the rise of neo-nationalism and its impact on the missions, activities, behaviors, and productivity of leading national universities. This book also presents the first major comparative exploration of the role of national politics and norms in shaping the role of

universities in nation-states, and vice versa, and discusses when universities are societal leaders or followers-in promoting a civil society, facilitating talent mobility, in researching challenging social problems, or in reinforcing and supporting an existing social and political order"--

The Affluent Society John Kenneth Galbraith

1963-09-01 Galbraith's classic on the "economics of abundance" is, in the words of the New York Times, "a compelling challenge to conventional thought." With customary clarity, eloquence, and humor, Galbraith cuts to the heart of what economic security means (and doesn't mean) in

today's world and lays bare the hazards of individual and societal complacency about economic inequity. While "affluent society" and "conventional wisdom" (first used in this book) have entered the vernacular, the message of the book has not been so widely embraced--reason enough to rediscover *The Affluent Society*.

Catfish and Mandala Andrew X. Pham

2010-04-01 A Vietnamese Bicycle Days by a stunning new voice in American letters. Andrew X. Pham dreamed of becoming a writer. Born in Vietnam and raised in California, he held

technical jobs at United Airlines-and always carried a letter of resignation in his briefcase. His father had been a POW of the Vietcong; his family came to America as "boat people." His sister committed suicide, prompting Andrew to quit his job. He sold all of his possessions and embarked on a year-long bicycle journey that took him through the Mexican desert, where he was treated as a *bueno hermano*, a "good brother"; around a thousand-mile loop from Narita to Kyoto in Japan; and, after five months and 2,357 miles, to Saigon, where he finds "nothing familiar in the bombed-out darkness." In Mexico he's treated

kindly as a *Vietnamito*, though he shouts, "I'm American, Vietnamese American!" In Vietnam, he's taken for Japanese or Korean by his countrymen, except, of course, by his relatives, who doubt that as a Vietnamese he has the stamina to complete his journey ("Only Westerners can do it"); and in the United States he's considered anything but American. A vibrant, picaresque memoir written with narrative flair and a wonderful, eye-opening sense of adventure, *Catfish and Mandala* is an unforgettable search for cultural identity.

Impetus 1950
