*Knowledge Apocalypse 2012 Edition* Jason Martell 2012-01-01  
Most ancient cultures speak of a time when their GODS visited them. They never say their GODS came from across the ocean, or from the mountains. They always came down from the skies. Was ancient man visited by GODS or Extraterrestrials? Knowledge Apocalypse ("lifting of the veil" or "revelation") is a disclosure of something hidden from the majority of mankind in an era dominated by falsehood and misconception, i.e. the veil to be lifted.

**Computer Organization and Design** John L. Hennessy 1998

**Words of Mercury** Patrick Leigh Fermor  
2010-10-10 Patrick Leigh Fermor was only 18 when he set off to walk from the Hook of Holland to Constantinople, described many years later in *A Time of Gifts* and *Between the Woods and the Water*. It was during these early wanderings that he started to pick up languages, and where he developed his extraordinary sense of the continuity of history: a quality that deepens the colours of every place he writes about, from the peaks of the Pyrenees to the cell of a Trappist monastery. His experiences in wartime Crete sealed the deep affection he had already developed for Greece, a country whose character and customs he celebrates in two books, *Mani and Roumeli*, and where he has lived for over forty years. Whether he is drawing portraits in Vienna or sketching Byron's slippers in Missolonghi, the Leigh Fermor touch is

unmistakable. Its infectious enthusiasm is driven by an insatiable curiosity and an omnivorous mind - all inspired by a passion for words and language that makes him one of the greatest prose writers of his generation.

**The Supervillain Reader** Robert Moses Peaslee  
2020-01-15 Contributions by Jerold J. Abrams, José Alaniz, John Carey, Maurice Charney, Peter Coogan, Joe Cruz, Phillip Lamarr Cunningham, Stefan Danter, Adam Davidson-Harden, Randy Duncan, Richard Hall, Richard Heldenfels, Alberto Hermida, Víctor Hernández-Santaolalla, A. G. Holdier, Tiffany Hong, Stephen Graham Jones, Siegfried Kracauer, Naja Later, Ryan Litsey, Tara Lomax, Tony Magistrale, Matthew McEniry, Cait Mongrain, Grant Morrison, Robert Moses Peaslee, David D. Perlmutter, W. D. Phillips, Jared Poon, Duncan Prettyman, Vladimir Propp, Noriko T. Reider, Robin S. Rosenberg, Hannah Ryan, Lennart Soberon, J. Richard Stevens, Lars Stoltzfus-Brown, John N. Thompson, Dan Vena, and Robert G. Weiner *The Supervillain Reader*, featuring both reprinted and original essays, reveals why we are so fascinated with the villain. The obsession with the villain is not a new phenomenon, and, in fact, one finds villains who are “super” going as far back as ancient religious and mythological texts. This innovative collection brings together essays, book excerpts, and original content from a wide variety of scholars and writers, weaving a rich tapestry of thought regarding villains in all their manifestations, including film, literature, television, games, and, of course, comics and sequential art. While *The Supervillain Reader* focuses on the latter, it moves beyond comics to show how the vital concept of the supervillain is part of our larger consciousness. Editors Robert Moses Peaslee and Robert G. Weiner collect pieces that explore how the villain is a complex part of narratives regardless of the original source. The Joker, Lex Luthor, Harley Quinn, Darth Vader, and Magneto must be compelling, stimulating, and proactive, whereas the superhero (or protagonist) is most often reactive. Indeed, whether in comics, films, novels, religious tomes, or video games, the eternal struggle between villain and hero keeps us coming back to these stories over and over again.

*The Man Who Cycled the World* Mark Beaumont  
2011-06-28 The remarkable true story of one man's quest to break the record for cycling around the world On the 15th of February 2008, Mark Beaumont had pedaled through the Arc de Triomphe in Paris—194 days and 17 hours after setting off in an attempt to circumnavigate the world. His journey had taken him, alone and unsupported, through 18,297 miles, 4 continents, and numerous countries. From broken wheels and unforeseen obstacles in Europe, to stifling Middle Eastern deserts and deadly Australian spiders, to the highways and backroads of America, he'd seen the best and worst that the world had to offer. He had also smashed the Guinness World Record by an astonishing 81 days. This is the story of how he did it. Told with honesty, humor, and wisdom, *The Man Who Cycled the World* is at once an unforgettable adventure, an insightful travel narrative, and an

impassioned paean to the joys of the open road.

**A Christmas Story** Jean Shepherd 2010-10-27 A beloved, bestselling classic of humorous and nostalgic Americana—the book that inspired the equally classic Yuletide film and the live musical on Fox. The holiday film *A Christmas Story*, first released in 1983, has become a bona fide Christmas perennial, gaining in stature and fame with each succeeding year. Its affectionate, wacky, and wryly realistic portrayal of an American family's typical Christmas joys and travails in small-town Depression-era Indiana has entered our imagination and our hearts with a force equal to *It's a Wonderful Life* and *Miracle on 34th Street*. This edition of *A Christmas Story* gathers together in one hilarious volume the gems of autobiographical humor that Jean Shepherd drew upon to create this enduring film. Here is young Ralphie Parker's shocking discovery that his decoder ring is really a device to promote Ovaltine; his mother and father's pitched battle over the fate of a lascivious leg lamp; the unleashed and unnerving savagery of Ralphie's duel in the show with the odious bullies Scut Farkas and Grover Dill; and, most crucially, Ralphie's unstoppable campaign to get Santa—or anyone else—to give him a Red Ryder carbine action 200-shot range model air rifle. Who cares that the whole adult world is telling him, "You'll shoot your eye out, kid"? The pieces that comprise *A Christmas Story*, previously published in the larger collections *In God We Trust*, *All Others Pay Cash* and *Wanda Hickey's Night of Golden Memories*, coalesce in a magical fashion to become an irresistible piece of Americana, quite the equal of the film in its ability to warm the heart and tickle the funny bone.

**Four Seasons** Isadore Sharp 2012-11-06 How did a child of immigrants, starting with no background in the hotel business, create the world's most admired and successful hotel brand? And how has *Four Seasons* grown so dramatically, over nearly half a century, without losing its focus on exceptional quality and unparalleled service? Isadore Sharp answers

these questions in his inspiring memoir. He started out in Toronto, the son of a modest builder from Poland, but ambition and fate rapidly took him beyond his father's three-man construction business. Sharp learned the hotel business by trial and error. His breakthrough was a vision for a new kind of hotel, featuring superior design, top-quality amenities, and, above all, a deep commitment to service. Today, *Four Seasons* is widely recognized as the world leader in comfort and luxury—in fact, it sets the standard by which every luxury hotel is measured.

**Greenlights** Matthew McConaughey 2020-10-20 From the Academy Award®-winning actor, an unconventional memoir filled with raucous stories, outlaw wisdom, and lessons learned the hard way about living with greater satisfaction. I've been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to

be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life's challenges - how to get relative with the inevitable - you can enjoy a state of success I call 'catching greenlights.' So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it's medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot's license, going to church without having to be born again, and laughing through the tears. It's a love letter. To life. It's also a guide to catching more greenlights-and to realising that the yellows and reds eventually turn green too. Good luck.

Gold in the Snow 2014-04-23 Who among us hasn't treasured memories of yesteryear told to us by our 'elders'? Aleta Miller has gathered vignettes and woven them into a tapestry of life in a Sierra Gold Rush mining town exotically

named Port Wine (near Whiskey Diggins and Poker Flat). She has captured the essence of California's pioneer spirit, mining nuggets of real life stories that lay buried under yesteryear's journalism: Two story deep snowdrifts compete with a mountain visitor in a Locomobile. Civil War politics blend in with birth pains of the new California statehood. Downhill ski races lift spirits of beleaguered residents of Port Wine and La Porte, also known as Rabbit Creek. Uncontrollable fires gut reconstructed towns with diabolical regularity. In addition, we meet colorful characters who have touched the hills including Black Bart, Dutch Kate, Bret Harte, the Blue Lake Monster and Sasquatch. There is something for everyone in this delightful read. Aleta Farren Miller, as a young girl, became enamored of California gold country history during occasional visits to the Davis Motor Mine. The mine tunneled into a mountainside within a mile of Port Wine, CA. It was operated by Aleta's cousins Fred and Durward Davis and produced a modest quantity of gold. Aleta was enchanted by the remoteness of the location as well as by the surroundings which have changed very little over the last 100 years. Passing encounters with "old timers" and whimsical poetry adorning grave sites in the Pioneer Cemetery stimulated a growing interest. Many of her relatives and even a pet parrot are buried there. With the help of her mother, Rilla Farren Cross, other family members, the archives of Bancroft Library at U.C. Berkeley, and The Mountain Messenger Newspaper at Downieville, CA, the interest culminated in Aleta investing almost a decade undertaking this collection of what now may be classified as journalistic memorabilia. We are indebted to her instinctive ability to sort out and preserve this remarkable collection of memories. Her own background and personal experiences make her uniquely capable of understanding and synthesizing the insight that she gained from that time in California history.

*The Lean Startup* Eric Ries 2011-09-13 Most startups fail. But many of those failures are preventable. The Lean Startup is a new approach being adopted across the globe, changing the way companies are built and new products are launched. Eric Ries defines a startup as an organization dedicated to creating something new under conditions of extreme uncertainty. This is just as true for one person in a garage or a group of seasoned professionals in a Fortune 500 boardroom. What they have in common is a mission to penetrate that fog of uncertainty to discover a successful path to a sustainable business. The Lean Startup approach fosters companies that are both more capital efficient and that leverage human creativity more effectively. Inspired by lessons from lean manufacturing, it relies on "validated learning," rapid scientific experimentation, as well as a number of counter-intuitive practices that shorten product development cycles, measure actual progress without resorting to vanity metrics, and learn what customers really want. It enables a company to shift directions with agility, altering plans inch by inch, minute by minute. Rather than wasting time creating elaborate business plans, The Lean Startup offers entrepreneurs—in companies of all sizes—a way to test their vision continuously, to adapt and adjust before it's too late. Ries provides a scientific approach to creating and managing successful startups in a age when companies need to innovate more than ever.

**Game Feel** Steve Swink 2008-10-13 "Game Feel" exposes "feel" as a hidden language in game design that no one has fully articulated yet. The language could be compared to the building blocks of music (time signatures, chord progressions, verse) - no matter the instruments, style or time period - these building blocks come into play. Feel and sensation are similar building blocks where game design is concerned. They create the meta-sensation of involvement with a game. The understanding of how game designers create feel, and affect feel are only partially understood by most in the field and tends to be overlooked as a method or course of study, yet a game's feel is central to a game's success. This book brings the subject of feel to light by consolidating existing theories into a cohesive book. The book covers topics like the role of sound, ancillary indicators, the importance of metaphor, how people perceive things, and a brief history of feel in games. The associated web site contains a playset with ready-made tools to design feel in games, six key components to creating virtual sensation. There's a play palette too, so the designer can first experience the importance of that component by altering variables and feeling the results. The playset allows the reader to experience each of the sensations described in the book, and then allows them to apply them to their own projects. Creating game feel without having to program, essentially. The final version of the playset will have enough flexibility that the reader will be able to use it as a companion to the exercises in the book, working through each one to create the feel described.
