Arresting Images Steven C. Dubin 2013-10-18 Although contemporary art may sometimes shock us, more alarming are recent attempts to regulate its display. Drawing upon extensive interviews, a broad sampling of media accounts, legal documents and his own observations of important events, sociologist Steven Dubin surveys the recent trend in censorship of the visual arts, photography and film, as well as artistic upstarts such as video and performance art. He examines the dual meaning of arresting images--both the nature of art work

which disarms its viewers and the social reaction to it. **Arresting Images** examines the battles which erupt when artists address such controversial issues as racial polarization, AIDS, gay-bashing and sexual inequality in their work.

(Note: this volume collects Parts 1 - 3 of the previously serialized Deceptive Innocence ebook series.) But it turns out Lander is much more complicated than she ever imagined. He's enticing, intelligent, mysterious—plus their sexual chemistry is off the charts. Life Itself Roger Ebert 2011-09-13 Roger Ebert is the best-known film critic of our time. He has been reviewing films for the Chicago Sun-Times since 1967, and was the first film critic ever to win a Pulitzer Prize. He has appeared on television for four decades, including twenty-three years as cohost of Siskel & Ebert at the Movies. In 2006, complications from thyroid cancer treatment resulted in the loss of his ability to eat, drink, or speak. But with the loss of his voice, Ebert has only become a more prolific and influential writer. And now, for the first time, he tells the full, dramatic story of his life and career. Roger Ebert's journalism carried him on a path far from his nearly idyllic childhood in Urbana, Illinois. It is a journey that began as a reporter for his local daily, and took him to Chicago, where he was unexpectedly given the job of film critic for the Sun-Times, launching a lifetime's adventures. In this candid, personal history, Ebert chronicles it all: his loves, losses, and obsessions; his struggle and recovery from alcoholism; his marriage; his politics; and his spiritual beliefs. He writes about his years at the Sun-Times, his colorful newspaper friends, and his life-changing collaboration with Gene Siskel. He remembers his friendships with Studs Terkel, Mike Royko, Oprah Winfrey, and Russ Meyer (for whom he wrote Beyond the Valley of the Dolls and an ill-fated Sex Pistols movie). He shares his insights into movie stars and directors like John Wayne, Werner Herzog, and Martin Scorsese. This is a story that only Roger Ebert could tell. Filled with the same deep insight, dry wit, and sharp observations that his readers have long cherished, this is more than a memoir—it is a singular, warm-hearted, inspiring look at life itself. "I believe that if, at the end, according to our abilities, we have done something to make others a little happier, and something to make ourselves a little happier, that is about the best we can do. To make others less happy is a crime. To make ourselves unhappy is where all crime starts. We must try to contribute joy to the world. That is true no matter what our problems, our health, our circumstances. We must try. I didn't always know this, and am happy I lived long enough to find it out." -from LIFE ITSELF

Lee 1992 Provides a social history of how the CIA used the psychedelic drug LSD as a tool of espionage during the early 1950s and tested it on U.S. citizens before it spread into popular culture, in particular the counterculture as represented by Timothy Leary, Allen Ginsberg, Ken Kesey, and others who helped spawn political and social upheaval.

Eddie Shore and that Old-Time Hockey C. Michael Hiam 2010-10-12 Eddie Shore was the Babe Ruth and Ty Cobb of hockey, a brilliant player with an unmatched temper. Emerging from the Canadian prairie to become a member of the Boston Bruins in 1926, the man from Saskatchewan invaded every circuit in the NHL like a runaway locomotive on a downgrade. Hostile fans turned out in droves with a wish to see him killed, but in Boston he could do no wrong. During his twenty-year professional career, the controversial Shore personified "that old time hockey" like no other, playing the game with complete disregard for his own safety. Shore was one of the most penalized men in the NHL, and also a perennial member of its All Star Team. A dedicated athlete, Shore won the Hart Trophy for the league's most valuable player four times — a record for a defenseman not since matched — and led Boston to two Stanley Cups in 1929 and 1939. In 1933, Shore was the instigator of hockey's most infamous event, the tragic "Ace Bailey Incident," and

during his subsequent sixteen-game suspension the fans chanted, "We want Shore!" After retiring from the NHL in 1940, Shore's passion for the game remained undiminished, and as owner and tyrant of the AHL Springfield Indians, he won championship after championship. This is an action-packed and full-throated celebration of the "mighty Eddie Shore" — and also of the sport of hockey as it was gloriously played in a bygone age.

You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learnBuild an intelligent machine translation system using seq-2-seq neural translation machinesCreate AI applications using GAN and deploy smart mobile apps using TensorFlowTranslate videos into text using CNN and RNNImplement smart AI Chatbots, and integrate and extend them in several domainsCreate smart reinforcement, learning-based applications using Q-LearningBreak and generate CAPTCHA using Deep Learning and Adversarial Learning Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine learning and deep

learning concepts are expected to help you get the most out of the book

A Dictionary of Shakespeare's Sexual Puns and Their Significance Frankie Rubinstein 1989-12-11

'...Rubinstein is far from innocent and comes to our aid with a lot of learning...and is quite right to urge that not to appreciate the sexiness of Shakespeare's language impoverishes our own understanding of him. For one thing, it was a strong element in his appeal to Elizabethans, who were much less woolly-mouthed and smooth-tongued than we are. For another, it has constituted a salty preservative for his work, among those who can appreciate it...an enlightening book.'
