Struggles for Representation Phyllis Rauch Klotman 1999
Struggles for Representation examines over 300 non-fiction films by more than 150 African American film/videomakers and includes an extensive filmography, bibliography, and excerpts from interviews with film/videomakers. In eleven original essays, contributors explore the extraordinary scope of these aesthetic and social documents and chart a previously undiscovered territory: documentaries that examine the aesthetic,

economic, historical, political, and social forces that shape the lives of black Americans, as seen from their perspectives. Until now, scholars and critics have concentrated on black fiction film and on mainstream non-fiction films, neglecting the groundbreaking body of black non-fiction productions that offer privileged views of American life. Yet, these rich and varied works in film, video, and new electronic media, convey vast stores of knowledge and experience. Although most documentary cannot hope to match fiction film's mass appeal, it is unrivaled in its ability to portray searing, indelible impressions of black life, including concrete views of significant events and moving portraits of charismatic individuals. Documentary footage brings audiences the moments when civil rights protestors were attacked by state troopers; it provides

the sights and sounds of Malcom X delivering an electrifying speech, Betty Carter performing a heart-wrenching song, and Langston Hughes strolling on a beach. Uniting all of this work is the "struggle for representation" that characterizes each film—an urgent desire to convey black life in ways that counter the uninformed and often distorted representations of mass media film and television productions. African American documentaries have long been associated with struggles for social and political empowerment; for many film/videomakers, documentary is a compelling mode with which to present an alternative, more authentic narrative of black experiences and an effective critique of mainstream discourse. Thus, many socially and politically committed film/videomakers view documentary as a tool with which to interrogate and reinvent

history; their works fill gaps, correct errors, and expose distortions in order to provide counter-narratives of African American experience. Contributors include Paul Arthur, Houston A. Baker, Jr., Mark F. Baker, Pearl Bowser, Janet K. Cutler Manthia Diawara, Elizabeth Amelia Hadley, Phyllis R. Klotman, Tommy Lee Lott, Erika Muhammad, Valerie Smith, and Clyde Taylor.

Accessing the Classics: Great Reads for Adults, Teens, and English Language Learners
La Vergne Rosow 2005-12-30
Help readers improve reading skills while stimulating their appreciation and increasing their understanding of great literature. Using a scaffolding approach, this guide leads readers from simple and engaging reads to more challenging texts, and simultaneously cultivates their interest and skills. An invaluable resource for middle and high school, ABE and ESL educators, as well as for readers' advisors. All readers—even those still learning to speak English—can enjoy the delights and benefits of great literature with the help of this motivational and

practical book guide. Rosow takes you on a journey through the history of Western literature, beginning with ancient myths and moving to medieval tales and classics of the Renaissance, Romantic Movement, and Modernism. Along the way, she shows you how to give readers easy access to some of the best literature of all time. Scores of collections focus on such ancient and enduring stories as Gilgamesh, Beowulf, the tales of Chaucer; historical masterpieces of William Shakespeare, Jane Austen, Edgar Allan Poe, Charles Dickens; and stellar names of more recent times, such as Virginia Woolf, John Steinbeck, Ernest Hemingway, and J.R.R. Tolkien. Each carefully selected collection lists an assortment of titles, ranging in reading level and arranged progressively from simple renditions, such as picture book retellings, through more advanced selections and readings where audio

versions and simpler formatting support the reader, and on to the most challenging reads. Author profiles and narrative, as well as detailed descriptions of each title provide further insights into the story lines and features of the books; while building a scaffold of reading experience and knowledge to help readers better understand the texts. For example, the Mark Twain collection begins with a brief biographical sketch of the author, followed by descriptions of two illustrated books about the author and two readers' theatre skits based on his work. A collection of Twain's short stories is recommended next, and then several illustrated versions of his novels, and an illustrated edition of Twain's memoir, *Life on the Mississippi*, which is supported by an audiotope version. Each recommended title is rated as start here, next read, support here,

or challenging read; and related reads, and audio and video versions are listed when appropriate. The author also notes author and student favorites, titles with exceptional illustrations, and other features of interest. Focus is on authors and titles of the Western canon that are generally in library collections. Because some of the titles cited are older editions, this is a valuable collection development tool in libraries; as well as an essential resource for readers' advisors, Adult Basic Education, and English as Second Language educators, and young adult educators and librarians. Young adult and adult or Grades 9 and up.

Terrorism Versus Democracy Paul Wilkinson
2011-02-01 This book examines the terrorist networks that operate globally and analyses the long-term future of terrorism and terrorist-backed insurgencies. Terrorism remains a serious problem for the

international community. The global picture does not indicate that the 'war on terror', which President George W. Bush declared in the wake of the 9/11 attacks, has been won. On the other hand it would be incorrect to assume that Al Qaeda, its affiliates and other jihadi groups have won their so-called 'holy war' against the Coalition against Terrorism formed after 9/11. This new edition gives more attention to the political and strategic impact of modern transnational terrorism, the need for maximum international cooperation by law-abiding states to counter not only direct threats to the safety and security of their own citizens but also to preserve international peace and security through strengthening counter-proliferation and cooperative threat reduction (CTR). This book is essential reading for undergraduate and postgraduate students of terrorism studies,

texts—including Claude McKay's *Amiable with Big Teeth*—to tell the stories of black special collections and their struggle for institutional recognition. Jean-Christophe Cloutier offers revelatory readings of major African American writers, including McKay, Richard Wright, Ann Petry, and Ralph Ellison, and provides a nuanced view of how archival methodology, access, and the power dynamics of acquisitions shape literary history. *Shadow Archives* argues that the notion of the archive is crucial to our understanding of postwar African American literary history. Cloutier combines his own experiences as a researcher and archivist with a theoretically rich account of the archive to offer a pioneering study of the importance of African American authors' archival practices and how these shaped their writing. Given the lack of institutions

dedicated to the black experience, the novel became an alternative site of historical preservation, a means to ensure both individual legacy and group survival. Such archivism manifests in the work of these authors through evolving lifecycles where documents undergo repurposing, revision, insertion, falsification, transformation, and fictionalization, sometimes across decades. An innovative interdisciplinary consideration of literary papers, *Shadow Archives* proposes new ways for literary scholars to engage with the archive.

The Worlds of Langston Hughes Vera M. Kutzinski 2012-10-15 The poet Langston Hughes was a tireless world traveler and a prolific translator, editor, and marketer. Translations of his own writings traveled even more widely than he did, earning him adulation throughout Europe, Asia, and especially the Americas. In The Worlds of Langston Hughes, Vera Kutzinski contends that, for writers who are part of the African diaspora,

translation is more than just a literary practice: it is a fact of life and a way of thinking. Focusing on Hughes's autobiographies, translations of his poetry, his own translations, and the political lyrics that brought him to the attention of the infamous McCarthy Committee, she shows that translating and being translated—and often mistranslated—are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism. As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas, we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers. Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored: Madrid, Havana, Buenos

Aires, Mexico City, and of course Harlem. The result is a fresh look at Hughes, not as a solitary author who wrote in a single language, but as an international figure at the heart of a global intellectual and artistic formation.

The Weary Blues Langston Hughes 2022 Immediately celebrated as a tour de force upon its release, Langston Hughes's first published collection of poems still offers a powerful reflection of the Black experience. From "The Weary Blues" to "Dream Variation," Hughes writes clearly and colorfully, and his words remain prophetic. Langston Hughes Laurie F. Leach 2004 Chronicles the life of the twentieth-century African-American poet, writer, journalist, and leading figure of the Harlem Renaissance who incorporated African-American speech and culture into his poems and faced Senator Joseph McCarthy's Senate committee.

The Best of Simple

Langston Hughes
2015-10-13 Langston Hughes's stories about Jesse B. Semple--first composed for a weekly column in the *Chicago Defender* and then collected in *Simple Speaks His Mind*, *Simple Takes a Wife*, and *Simple Stakes a Claim*--have been read and loved by hundreds of thousands of readers. In *The Best of Simple*, the author picked his favorites from these earlier volumes, stories that not only have proved popular but are now part of a great and growing literary tradition.

Simple might be considered an Everyman for black Americans. Hughes himself wrote: "...these tales are about a great many people--although they are stories about no specific persons as such. But it is impossible to live in Harlem and not know at least a hundred Simples, fifty Joyces, twenty-five Zaritas, and several Cousin Minnies--or reasonable facsimiles thereof." As Arnold Rampersad has written, Simple is "one of the most memorable and winning characters in the annals of American literature, justly regarded as one of Hughes's most inspired creations."

Novelist Zora Neale Hurston and poet Langston Hughes, two of America's greatest writers, first met in New York City in 1925. Drawn to each other, they helped launch a radical journal, *Fire!!* Later, meeting by accident in Alabama, they became close as they traveled together—Hurston interviewing African Americans for folk

stories, Hughes getting his first taste of the deep South. By illuminating their lives, work, competitiveness, and ambitions, Yuval Taylor savvily details how their friendship and literary collaborations dead-ended in acrimonious accusations.

The Making of the New Negro Anna Pochmara 2011
The Making of the New Negro examines black masculinity in the period of the New Negro/Harlem

Renaissance, which for many decades did not attract a lot of scholarly attention, until, in the 1990s, many scholars discovered how complex, significant, and fascinating it was. Using African American published texts, American archives and unpublished writings, and contemporaneous European discourses, this book focuses both on the canonical figures

of the New Negro Movement and African American culture, such as W.E.B. Du Bois, Booker T. Washington, Alain Locke, and Richard Wright, and on writers who have not received as much scholarly attention despite their significance for the movement, such as Wallace Thurman. Its perspective combines gender, sexuality, and race studies with a thorough literary analysis and historicist investigation, an approach that has not been extensively applied to analyze the New Negro Renaissance.

today. During a time
when the STEM fields of

liberal arts remain
vital but frequently

Committed to Memory
Cheryl Finley 2018-07-03
How an eighteenth-century engraving of the slave ship became a cultural icon of black resistance, identity,

and remembrance One of the most iconic images of slavery is a schematic wood engraving depicting the human cargo hold of a slave ship. First published by British abolitionists in 1788, it exposed this widespread commercial practice for what it really was--shocking, immoral, barbaric, unimaginable. Printed as handbills and broadsides, the image Cheryl Finley has termed the "slave ship icon" was easily reproduced, and by the end of the eighteenth century it was circulating by the tens of thousands around the Atlantic rim. *Committed to Memory* provides the first in-depth look at how this artifact of the fight against slavery became an enduring symbol of black resistance, identity, and remembrance. Finley traces how the slave ship icon became a powerful tool in the hands of British and American abolitionists, and how its radical potential was

rediscovered in the twentieth century by black artists, activists, writers, filmmakers, and curators. Finley offers provocative new insights into the works of Amiri Baraka, Romare Bearden, Betye Saar, and many others. She demonstrates how the icon was transformed into poetry, literature, visual art, sculpture, performance, and film--and became a medium through which diasporic Africans have reasserted their common identity and memorialized their ancestors. Beautifully illustrated, *Committed to Memory* features works from around the world, taking readers from the United States and England to West Africa and the Caribbean. It shows how contemporary black artists and their allies have used this iconic eighteenth-century engraving to reflect on the trauma of slavery and come to terms with its legacy.

2019-10-17 This original collection explores a number of significant texts produced in 1944 that define that year as a textual turning point when overlapping and diverging visions of a new world emerged. The questions posed at that moment, about capitalism, race, empire, nation and cultural modernity gave rise to debates that defined the global politics of their era and continue to delineate our own. "Visualizing Haiti in U.S. Culture, 1910-1950"

LindsayJ. Twa 2017-07-05

From the late 1910s through the 1950s, particularly, the Caribbean nation of Haiti drew the attention and imaginations of many key U.S. artists, yet curiously, while significant studies have been published on Haiti's history and inter-American exchanges, none analyze visual representations with any depth. The author calls not only on the methodologies of art history, but also on the interdisciplinary eye of visual culture studies, anthropology, literary theory, and tourism studies to examine the fine arts in relation to popular arts, media, social beliefs, and institutional structures. Twa

emphasizes close visual readings of photographs, illustrations, paintings, and theatre. Extensive textual and archival research also supports her visual analysis, such as scrutinizing the personal papers of this study's artists, writers, and intellectuals. Among the literary and artistic luminaries of the twentieth century that Twa includes in her discussion are Richmond Barthé, Eldzier Cortor, Aaron Douglas, Katherine Dunham, Langston Hughes, Zora Neale Hurston, Alexander King, Jacob Lawrence, James Weldon Johnson, Loïs Mailou Jones, Eugene O'Neill, and William Edouard Scott. Twa argues that their choice of Haiti as subject matter was a highly charged decision by these American artists to use their artwork to engage racial, social, and political issues.

Many of the stories assembled here have long been out of print, and others never before collected. These poignant, witty, angry, and deeply poetic stories demonstrate Hughes's uncanny gift for elucidating the most vexing questions of American race relations

and human nature in general.
