## Covalent - Fairyproof

Webii. Manual review of code, which is the process of reading source code line-by-line in an attempt to identify potential vulnerabilities. iii. Comparison to specification, which is the process of checking whether the code does what the specifications, sources, and instructions provided to Fairyproof describe. 2.

## **A Transition to Advanced Mathematics - Brigham Young University**

Webcomes from the struggle to produce a proof, rather than studying the techniques used by someone else to give a proof. Hence, providing a solutions manual would negate a necessary aspect of the course. In addition, a solutions manual would be of very little help in verifying the correctness of a proof, since there are many different ways
