Lubaina Himid Lisa Panting 2019-02 First monograph on Turner Prize winning artist. 'My work is about attempting to belong, about understanding who we are as black people in the diaspora, how much we have contributed across Europe in terms of culture, building, the wealth of the European machine.' -- Lubaina Himid This is the first extensive monograph on the work of

celebrated British artist and Turner Prize winner, Lubaina Himid (b. 1954, Zanzibar). Including the artist's own writing from the 1990s to the present day, alongside archival images, and documentation from recent exhibitions and projects. Featuring writings from Zoé Whitley (Curator of International Art, Tate Modern), Helen Legg (Director, Tate Liverpool), Courtney J. Martin (Deputy Director/Chief Curator, Dia Art Foundation, New York), and Emma Ridgway (Head of Programme, Modern Art Oxford). This catalogue is published after the artist's major exhibitions across the UK in 2017/18 at Spike Island (Bristol), Harris Museum and Art Gallery (Preston), BALTIC (Gateshead), and Walker Art Gallery (Liverpool).

Learning SAS by Example Ron Cody 2018-07-03
Learn to program SAS by example! Learning SAS by Example, A Programmer's Guide, Second Edition, teaches SAS programming from very basic concepts to more advanced topics. Because most programmers prefer examples rather than reference-type syntax, this book uses short examples to explain each topic. The second edition has brought this classic book on SAS programming up to the latest SAS version, with new chapters that cover topics such as PROC

SGPLOT and Perl regular expressions. This book belongs on the shelf (or e-book reader) of anyone who programs in SAS, from those with little programming experience who want to learn SAS to intermediate and even advanced SAS programmers who want to learn new techniques or identify new ways to accomplish existing tasks. In an instructive and conversational tone, author Ron Cody clearly explains each programming technique and then illustrates it with one or more real-life examples, followed by a detailed description of how the program works. The text is divided into four major sections: Getting Started, DATA Step Processing, Presenting and Summarizing Your Data, and Advanced Topics. Subjects addressed include Reading data from external sources Learning details of DATA step programming Subsetting and combining SAS data sets Understanding SAS functions and working with arrays Creating reports with PROC REPORT and PROC TABULATE Getting started with the SAS macro

language Leveraging PROC SQL Generating high-quality graphics Using advanced features of user-defined formats and informats Restructuring SAS data sets Working with multiple observations per subject Getting started with Perl regular expressions You can test your knowledge and hone your skills by solving the problems at the end of each chapter.

Building IBM Enterprise Content Management Solutions From End to End Wei-Dong Zhu

2014-10-22 IBM® Enterprise Content Management (ECM) solutions provide efficient and effective ways to capture content, manage the content and business processes, discover insights from the content, and derive actions to improve business processes, products, and services. This IBM Redbooks® publication introduces and highlights some of the IBM ECM products that can be implemented and integrated together to create end-to-end ECM solutions: IBM Case Manager IBM Datacap IBM Content Manager OnDemand IBM Enterprise

Records IBM Watson™ Content Analytics IBM Content Classification For each product involved in the ECM solution, this IBM Redbooks publication briefly describes what it is, its functions and capabilities, and provides step-by-step procedures for installing, configuring, and implementing it. In addition, we provide procedures for integrating these products together to create an end-to-end ECM solution to achieve the overall solution objectives. Not all of the products are required to be integrated into an ECM solution. Depending on your business requirements, you can choose a subset of these products to be built into your ECM solutions. This book serves as a hands-on learning guide for information technology (IT) specialists who plan to build ECM solutions from end-to-end, for a proof of concept (PoC) environment, or for a proof of technology environment. For implementing a production-strength ECM solution, also refer to IBM Knowledge Center, IBM Redbooks publications, and IBM Software

Services.

Mazda 626 Ed Scott 1989 Photographs and text give maintenance, tune-up, repair, and overhaul procedures for front wheel drive Mazda 626
Plastic-esthetic Periodontal and Implant Surgery Otto Zuhr 2012-01-01 "In this book, the authors blend scientific knowledge and practical experience to provide a comprehensive overview of the principles, indications, and clinical techniques of plastic-esthetic periodontal and implant microsurgery, focusing especially on minimal soft tissue trauma and maximally perfect wound closure. Microsurgery provides clinically relevant advantages over conventional macrosurgical concepts for regenerative and plastic-esthetic periodontal surgery, especially in the all-important esthetic zone. The microsurgical principles and procedures presented in the book are explained step-by-step in meticulously illustrated case examples with large, exquisite images. Each case example also

includes an illustrated armamentarium of the materials and instruments necessary for the practical implementation of the microsurgical procedure. The book concludes with instructions on how to manage all major complications for each procedure."--Publisher.
