The Road to Democracy in South Africa South African Democracy Education Trust 2004 The third volume in the series examines the role of anti-apartheid movements around the world and their success in both creating awareness of the liberation struggle in South Africa, and in contributing to the downfall of the apartheid government. This volume, in two parts, brings together analysis written by activist scholars with deep roots in the movements and organisations they are writing about. This first part focuses on International Solidarity with the liberation struggle. It covers the contribution of various international organisations, governments and their peoples, and solidarity organisations, to the liberation struggle in South Africa. In particular, the roles of nine western European countries are discussed: West Germany; Belgium; Austria; France; The Netherlands; Portugal; Spain; Greece and Switzerland. The second part focuses on African solidarity, with an emphasis on the Organisation of African Unity (OAU) and its Liberation Committee; various countries in the southern African region, including the role that Tanzania and Zambia played; as well as countries in west, east and North Africa. This is a major resource for historians, scholars and anyone interested in the history of South Africa, and will be valued by future generations for its sensitive collection of highly significant historical material.

Spear Paul S. Landau 2022-06-07 A revelatory and definitive account of how Nelson Mandela and his peers led South Africa to the brink of revolution against the postwar twentieth century's most infamously racist regime. Spear: Mandela and the Revolutionaries brings to life the brief revolutionary period in which Nelson Mandela and his comrades fought apartheid not just with words but also with violence. After the 1960 Sharpeville police shootings of civilian protesters, Mandela and his comrades in the mass-resistance order of the African National Congress (ANC) and the Communist Party pioneered the use of force and formed Umkhonto we Sizwe (MK), or Spear of the Nation. A civilian-based militia, MK stockpiled weapons and waged a war of sabotage against the state with pipe bombs, Molotov cocktails, and dynamite. In response, the state passed draconian laws, militarized its police, and imprisoned its enemies without trial. Drawing from several hundred first-person accounts, most of which are unpublished, Paul Landau traces Mandela's allies—and opponents—in communist, pan-Africanist, liberal, and other groups involved in escalating resistance alongside the ANC. After Mandela's capture, the Pan Africanist Congress planned to initiate street violence, and MK organized Operation Mayibuye, an uprising to be led by trained commandos. The state short-circuited those plans and subsequently jailed, exiled, tortured, and murdered revolutionaries. The era of high apartheid then began. Spear reshapes our understanding of Mandela by focusing on this intense but relatively neglected period of escalation in the movement against apartheid. Landau's book is not a biography, nor is it a history of a militia or an army; rather, it is a riveting story about ordinary civilians debating and acting together in extremis. Contextualizing Mandela and MK's activities amid anticolonial change and Black Marxism in the early 1960s, Spear also speaks to today's transnational antiracism protests and worldwide struggles against oppression.

The Way Of The Women Marlene van Niekerk 2015-05-19 How can you speak when speech has been taken away? When the only person listening refuses to understand? Milla, trapped in silence by a deadly paralysing illness, confined to her bed, struggles to make herself heard by her maidservant and now nurse, Afaat. Contrary, controlling, proud, secretly affectionate, the two women, servant and mistress, are more than matched. Life for white farmers like Milla in the South Africa of the 1950s was full of promise - newly married, her future held the thrilling challenges of creating her own farm and perhaps one day raising children. Forty years later, the world Milla knew is as if seen in a mirror, and all she has left are memories and diaries. As death draws near, she looks back on good intentions and soured dreams, on a brutal marriage and a longed-for only son scarred by his parents' battles, and on a lifetime's tug-of-war with Afaat. As Milla's old white world recedes, in the new South Africa her guardian's is ever more filled with the prospect of freedom. Marlene Van Niekerk's is a stunning new literary voice from South Africa, to compare to J.M. Coetzee and Nadine Gordimer.

The Book of Evidence John Banville 2012-03-07 John Banville's stunning powers of mimicry are brilliantly on display in this engrossing novel, the darkly compelling confession of an improbable murderer. Freddie Montgomery is a highly cultured man, a husband and father living the life of a dissolute exile on a Mediterranean island. When a debt comes due and his wife and child are held as collateral, he returns to Ireland to secure funds. That pursuit leads to murder. And here is his attempt to present evidence, not of his innocence, but of his life, of the events that lead to the murder he committed because he could. Like a hero out of Nabokov or Camus, Montgomery is a chillingly articulate, self-aware, and amoral being, whose humanity is painfully on display.

Nothing but the Truth John Kani 2002-11-01 An award-winning play about the relationship between brothers. In the same year Kani was also awarded a special Obie award for his extraordinary contribution to theatre in the USA.

An African Elegy Ben Okri 2015-04-30 Dreams are the currency of Okri's writing, particularly in this first book of poems, An African Elegy, but also in his books of short stories and prize-winning novel The Famished Road. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, Times Literary Supplement

Economics of South African Townships Sandeep Mahajan 2014-08-22 Countries everywhere are divided within into two distinct spatial realms: one urban, one rural. Classic models of development predict faster growth in the urban sector, causing rapid migration from rural areas to cities, lifting average incomes in both places. The situation in South Africa throws up an unconventional challenge. The country has symptoms of a spatial realm that is not not rural, not fully urban, lying somewhat in limbo. This is the realm of the country's townships and informal settlements (T&IS). In many ways, the townships and especially the informal settlements are similar to developing world slums, although never was a slum formed with as much central planning and purpose as were some of the larger South African townships. And yet, there is something distinct about the T&IS. For one thing, unlike most urban slums, most T&IS are geographically distant from urban economic centers. Exacerbated by the near absence of an affordable public transport system, this makes job seeking and other forms of economic integration prohibitively expensive. Motivated by their uniqueness and their special place in South African economic and social life, this study seeks to develop a systematic understanding of the structure of the township economy. What emerges is a rich information base on the migration patterns to T&IS, changes in their demographic profiles, their labor market characteristics, and their access to public and financial services. The study then look closely at Diepsloot, a large township in the Johannesburg Metropolitan Area, to bring out more vividly the economic realities and choices of township residents. Given the current dichotomous urban structure, modernizing the township economy and enabling its convergence with the much richer urban centers has the potential to unleash significant productivity gains. Breaking out of the current low-level equilibrium however will require a comprehensive and holistic policy agenda, with significant complementarities among the major policy reforms. While the study tells a rich and coherent story about development patterns in South African townships and points to some broad policy directions, its research and analysis will generally need to be deepened before being translated into direct policy action.

A Threshold Crossed Omar Shakir 2021 "The widely held assumption that the Israeli occupation of Palestinian territory is a temporary situation and that the 'peace process' will soon bring an end to Israeli abuses has obscured the reality on the ground today of Israel's entrenched discriminatory rule over Palestinians. A single authority, the Israeli government, rules primarily over the area between the Jordan River and Mediterranean Sea, populated by two groups of roughly equal size, methodologically privileging Jewish Israelis while repressing Palestinians, most severely in the Occupied Palestinian Territory (OPT), made-up of the West Bank, including East Jerusalem, and Gaza. Drawing on years of human rights documentation, case studies and a review of government planning documents, statements by officials and other sources, [this report] examines Israel's treatment of Palestinians and evaluates whether particular Israeli policies and practices in certain areas amount to the crimes against humanity of apartheid and persecution."--Page 4 of cover.
