*Félix Ravaisson* Mark Sinclair  
2016-10-20 This reader makes the key essays of 19th century French philosopher Félix Ravaisson available in English for the first time. In recent years, Ravaisson has emerged as an extremely important and influential figure in the history of modern European philosophy. The volume contains the classic 1838 dissertation *Of Habit*, studies of

Pascal, Stoicism and the wider history of philosophy together with the Philosophical Testament that he left unfinished when he died in 1900. The volume also features Ravaisson's work in archaeology, the history of religions and art-theory, and his essay on the Venus de Milo, which occupied him over a period of twenty years after he noticed, when hiding the statue behind a false wall in a dingy Parisian basement during the Franco-Prussian war, that it had previously been presented in a way that deformed its original bearing and meaning. Félix Ravaisson: Selected Essays contains an introductory intellectual biography of Ravaisson, which contextualises each of the essays in the volume. It also features an annotated bibliography of suggested further reading. This book will grant scholars and students alike wider access to his distinctive contribution to the history of philosophy.

**Medical Anthropology** Andrea S. Wiley  
2009 Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

**Slave Stealers** Timothy Ballard 2018-09-04 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great

Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

**Radar Instruction Manual** United States. Maritime Administration 2005 Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. **Call Me Debbie** Deborah Voigt  
2015-01-27 Internationally beloved  
opera star Deborah Voigt recounts her  
harrowing and ultimately successful  
private battles to overcome the  
addictions and self-destructive  
tendencies that nearly destroyed her  
life. Call Me Debbie is one of the  
most electrifying performances of  
Deborah Voigt's life. The brilliantly  
gifted opera soprano takes us behind  
the velvet curtains to tell her  
compelling story—a tale of success,  
addiction, music, and faith as  
dramatic as any role she has  
performed. For the first time, she  
talks about the events that led to  
her dangerous gastric bypass surgery  
in 2004 and its shocking aftermath:  
her substantial weight loss coupled  
with the "cross addiction" that led  
to severe alcoholism, frightening  
all-night blackouts, and suicide  
attempts. Ultimately, Voigt emerged  
from the darkness to achieve complete  
sobriety, thanks to a twelve-step  
program and a recommitment to her  
Christian faith. Colored by hilarious  
anecdotes and juicy gossip that  
illuminate what really goes on  
backstage, Voigt paints diverting  
portraits of the artists with whom  
she's worked, her most memorable

moments onstage, and her secrets to great singing. She also offers fascinating insight into the roles she's played and the characters she loves, including Strauss's Ariadne and Salome, Puccini's Minnie, and Wagner's Sieglinde, Isolde, and Brünnhilde, sharing her intense preparation for playing them. Filled with eight pages of color photos, *Call Me Debbie* is an inspirational story that offers a unique look into the life of a modern artist and a remarkable woman.

**The Sarashina Diary** Sugawara no Takasue no Musume 2018-03-20  
A thousand years ago, a young Japanese girl embarked on a journey from deep in the countryside of eastern Japan to the capital. Forty years later, with the long account of that journey as a foundation, the mature woman skillfully created an autobiography that incorporates many moments of heightened awareness from her long life. Married at age thirty-three, she identified herself as a reader and writer more than as a wife and mother; enthralled by fiction, she bore witness to the dangers of romantic fantasy as well as the enduring consolation of self-expression. This reader's edition streamlines Sonja Arntzen and Moriyuki Itō's acclaimed translation of the Sarashina Diary for general readers and classroom use. This translation captures the lyrical richness of the original text while revealing its subtle structure and ironic meaning, highlighting the author's deep concern for Buddhist belief and practice and the juxtaposition of poetic passages and narrative prose. The translators' commentary offers insight into the author's family and world, as well as the style, structure, and textual history of her work.
