So, afterward you require the ebook swiftly, you can straight get it. Its fittingly unquestionably easy and appropriately fats, isnt it? You have to favor to in this song

A Contract with the Earth Newt Gingrich 2008-09-30 A bold rallying cry for conservative environmental leadership from Newt Gingrich, New York Times bestselling author of *Trump and the American Future*. Appealing to America's core conservative readership and defying conventional thinking, former Speaker of the House Newt Gingrich and eminent conservationist Terry L. Maple posit that the values of conservative America are aligned with the principles of conservation and "entrepreneurial environmentalism." Saving the earth is not—and cannot be—a partisan issue. The authors outline a ten-point Contract with the Earth that promotes ingenuity over rhetoric, maintaining that the expansion of "green business," new technologies, and environmental economic incentives will be the defining opportunities for the leaders of the next generation. An inspiring call to action, *A Contract with the Earth* offers a vision of the future that is both hopeful and achievable.

Corporatocracy Lee S. Dimin 2011-04-18 With the election of Barack Obama as president of the United States, a retired attorney and patriot began writing a collection of essays commenting on the problems he sees around him. Lee S. Dimin, who served in the Army Air Force during World War II, shares how the growing power of corporations and governmental corruption is hurting American citizens. In this collection of essays, he examines issues such as ways to bridge differences between Democrats and Republicans; Islams continuing quest to dominate the world; the intentions of the nations Founding Fathers in writing the Constitution, and how their ideals are being violated; the increasing deficit and its implications on every single citizen; the ways in which mounting divisions between the rich and poor are hurting the country. The challenges that face the United States continue to grow in number, but they are not insurmountable. In *Corporatocracy*, youll learn equip yourself with the knowledge that will help you take the country back.

Encyclopedia of Social Media and Politics Kerric Harvey 2013-12-20 The Encyclopedia of Social Media and Politics explores how the rise of social media is altering politics both in the United States and in key moments, movements, and places around the world. Its scope encompasses the disruptive technologies and activities that are changing basic patterns in American politics and the amazing transformations that social media use is rendering in other political systems heretofore resistant to democratization and change. In a time when social media are revolutionizing and galvanizing politics in the United States and around the world, this encyclopedia is a must-have reference. It reflects the changing landscape of politics where old modes and methods of political communication from elites to the masses (top down) and from the masses to elites (bottom up) are being displaced rapidly by social media, and where activists are building new movements and protests using social media to alter mainstream political agendas. Key Features This three-volume A-to-Z encyclopedia set includes 600 short essays on high-interest topics that explore social media's impact on politics, such as "Activists and Activism," "Issues and Social Media," "Politics and Social Media," and "Popular Uprisings and Protest." A stellar array of world renowned scholars have written entries in a clear and accessible style that invites readers to explore and reflect on the use of social media by political candidates in this country, as well as the use of social media in protests overseas Unique to this book is a detailed appendix with material unavailable anywhere else tracking and illustrating social media usage by U.S. Senators and Congressmen. This encyclopedia set is a must-have general, non-technical resource for students and researchers who seek to understand how the changes in social networking through social media are affecting politics, both in the United States and in selected countries or regions around the world.

Employment and Training Reporter 2008

Politics to the Extreme S. Frisch 2013-12-11 To overcome the political deadlock that overshadows the pressing problems facing the United States, the academies top scholars address the causes and consequences of polarization in American politics, and suggest solutions for bridging the partisan divide.

Burning Down the House Julian E. Zelizer 2020-07-07 A New York Times Notable Book! A New York Times Book Review Editors' Choice The story of how Newt Gingrich and his allies tainted American politics, launching an enduring era of brutal partisan warfare When Donald Trump was elected president in 2016, President Obama observed that Trump "is not an outlier; he is a culmination, a logical conclusion of the rhetoric and tactics of the Republican Party." In *Burning Down the House*, historian Julian Zelizer pinpoints the moment when our country was set on a path toward an era of bitterly partisan and ruthless politics, an era that was ignited by Newt Gingrich and his allies. In 1989, Gingrich brought down Democratic Speaker of the House Jim Wright and catapulted himself into the national spotlight. Perhaps more than any other politician, Gingrich introduced the rhetoric and tactics that have shaped Congress and the Republican Party for the last three decades. Elected to Congress in 1978, Gingrich quickly became one of the most powerful figures in America not through innovative ideas or charisma, but through a calculated campaign of attacks against political opponents, casting himself as a savior in a fight of good versus evil. Taking office in the post-Watergate era, he weaponized the good government reforms newly introduced to fight corruption, wielding the rules in ways that shocked the legislators who had created them. His crusade against Democrats culminated in the plot to destroy the political career of Speaker Wright. While some of Gingrich's fellow Republicans were disturbed by the viciousness of his attacks, party leaders enjoyed his successes so much that they did little collectively to stand in his way. Democrats, for their part, were alarmed, but did not want to sink to his level and took no effective actions to stop him. It didn't seem to matter that Gingrich's moral conservatism was hypocritical or that his methods were brazen, his accusations of corruption permanently tarnished his opponents. This brand of warfare worked, not as a strategy for governance but as a path to power, and what Gingrich planted, his fellow Republicans reaped. He led them to their first majority in Congress in decades, and his legacy extends far beyond his tenure in office. From the Contract with America to the rise of the Tea Party and the Trump presidential campaign, his fingerprints can be seen throughout some of the most divisive episodes in contemporary American politics. *Burning Down the House* presents the alarming narrative of how Gingrich and his allies created a new normal in Washington.

Fed Up! Rick Perry 2010-11-15 Now, do not misunderstand me, America is great. But we are fed up with being over-taxed and over-regulated. We are tired of being told how much salt to put on our food, what kind of cars we can drive, what kinds of guns we can own, what kind of prayers we are allowed to say and where we can say them, what we are allowed to do to elect political candidates, what kind of energy we can use, what doctor we can see. What kind of nation are we becoming? I fear it's the very kind the Colonists fought against. But perhaps most of all, we are fed up because deep down we know how great America has always been, how many great things the people do in spite of their government, and how great the nation can be in the future if government will just get out of the way. Our fight is clear. We must step up and retake the reins of our government from a Washington establishment that has abused our trust. We must empower states to fight for our beliefs, elect only leaders who are on our team, set out to remind our fellow Americans why liberty is guaranteed in the Constitution, and take concrete steps to take

newt-gingrich-american-solutions

back our country. The American people have never sat idle when liberty's trumpet sounds the call to battle -- and today that battle is for the soul of America.

Breakout Newt Gingrich 2014-10-07 It is not between the Left and the Right, but between the past and the future. America is on the edge of a breakout. In fact, we are poised for one of the most spectacular leaps in human well-being in history. Pioneers of the future—innovators and entrepreneurs—are achieving breakthroughs in medicine, transportation, energy, education, and other fields that will make the world a dramatically different and better place. Unless the “prison guards” of the past stop them. Every American must choose a side. Will you be a champion of the future or a prisoner of the past? Every potential breakthrough has to get past a host of individuals and institutions whose power and comfort depend on the status quo. These prison guards of the past will strangle every innovation that threatens to change the way things have always been done—if we let them.

Defining Conservatism Jonathan Krohn 2010 A teenage political pundit who became a national sensation lays out his definition of what conservatism is and provides a road map for putting America back on what he sees as the correct path.

Saving Lives & Saving Money Newt Gingrich 2003 Medical care, United States.

\$2.50 A Gallon Newt Gingrich 2012-05-01 New York Times bestselling author, former Speaker of the House, and Fox News political analyst and Republican presidential candidate Newt Gingrich has a plan for slashing gas prices and reducing our long-term dependence on foreign oil. Gingrich is famous for taking big, visionary ideas and boiling them down into practical solutions for the American people and in his new book, \$2.50 A Gallon: Why Obama Is Wrong and Cheap Gas Is Possible, Gingrich tackles America's energy crisis. Dealing not only with spiraling gas prices, but with all aspects of energy policy, Gingrich shows how we can safely reap the benefits of America's own natural resources and technology in gas, oil, coal, wind, solar, biofuels and nuclear energy. Gingrich argues that the pinch Americans are feeling at the pump is not a blip in the economy but a looming crisis—affecting not only the price of gas, but the price of food, the strength of our economy, and our national security. To meet this crisis, Gingrich lays out a national strategy that will tap America's scientists, engineers, and entrepreneurs, and require Congress to unlock our oil reserves and remove all the impediments and disincentives that unnecessary government regulation has put in the way of American energy independence. The energy crisis is solvable, as Newt Gingrich's plan makes clear. His handbook, \$2.50 A Gallon: Why Obama Is Wrong and Cheap Gas Is Possible, is sure to become the talk of the presidential campaign season.

Why We Hate the Oil Companies John Hofmeister 2011-08-30 As president of Shell Oil, John Hofmeister was known for being a straight shooter, willing to challenge his peers throughout the industry. Now, he's a man on a mission, the founder of Citizens for Affordable Energy, crisscrossing the country in a grassroots campaign to change the way we look at energy in this country. While pundits proffer false new promises of green energy independence, or flatly deny the existence of a problem, Hofmeister offers an insider's view of what's behind the energy companies' posturing, and how politicians use energy misinformation, disinformation, and lack of information to get and stay elected. He tackles the energy controversy head-on, without regard for political correctness. He also provides a new framework for solving difficult problems, identifying solutions that will lead to a future of comfortable lifestyles, affordable and clean energy, environmental protection, and sustained economic competitiveness.

Managing Innovative Projects and Programs H. James Harrington 2022-07-15 It has been estimated that over 75% of the innovative projects that begin through the Innovation Management System (IMS) are either failures or they failed to produce the desired results. The biggest wastes most medium- to large-size organizations face are the waste of money, time, reputation, opportunity, and income that these failures are costing them. Following this book's recommendations could reduce this failure rate by as much as 70%. The purpose of this book is to provide a step-by-step procedure on how to process a medium- or large-size project, program, or product using an already-established IMS that considers the guidance given in ISO 56002:2019 – Innovation Management Systems Standard. Often the most complicated, complex, difficult, and challenging system used in an organization is the IMS. At the same time, it usually is the most important system because it is the one that generates most of the value-adding products for the organization, and it involves all of the key functions within the organization. The opportunity for failure in time and the impact on the organization is critical and often means the difference between success and bankruptcy. Throughout this book, the authors detail the high-impact inputs and activities that are required to process individual projects/programs/products through the innovation cycle. Although this book was prepared to address how medium to large projects, programs, and products proceed through the cycle, it also provides the framework that can be used for small organizations and simple innovation activities. Basically, the major difference between large- and small-impact innovation projects is that the small projects can accept more risks and require fewer resources to be committed. It's important to remember that the authors are addressing an existing IMS rather than trying to create an entirely new one. Currently, this is the only book geared for professionals responsible for managing innovative projects and programs using ISO 56002:2019 – Innovation Management – Innovation Management System – Guidance to provide a comprehensive management strategy and step-by-step plan. It provides a comprehensive analysis of what is required from the time an opportunity is recognized to the time the customer is using the innovative product.

Rock Brands Elizabeth Barfoot Christian 2010-12-22 *Rock Brands: Selling Sound in a Media Saturated Culture*, edited by Elizabeth Barfoot Christian, explores how different genres of popular music are branded and marketed today. The authors provide research explaining how established mainstream artists and bands, from Christian heavy metal bands to Kanye West to Marilyn Manson, are continuing to market themselves in an ever-changing technological world, and how such bands can use integrated marketing communication to effectively 'brand' themselves to prevent technology and delivery changes from stifling their success. *Rock Brands* further addresses the use of religious and political words and images to gain an audience, as well as the latest technological influences of gaming, reality television, and social networking websites.

A Contract with the Earth Newt Gingrich 2007-11-01 The foundation of the book—a ten-point Contract with the Earth—promotes ingenuity over rhetoric as the way forward.

Obama and America's Political Future Theda Skocpol 2012-09-04 Obama's 2008 victory, coming amid the greatest economic crisis since the 1930s, opened the door to major reforms. But he quickly faced skepticism from supporters and fierce opposition from Republicans. What happened? Skocpol surveys the political landscape to help us to understand Obama's triumphs and setbacks and see where we might be headed next.

Anti-Americanism and American Exceptionalism Brendon O'Connor 2019-06-21 This book argues against the tendency to see America as the worst or best nation and instead presents a case for seeing anti-Americanism as a counterproductive prejudice. There are many reasons to criticise American policies, politics and even society,

but a crucial distinction must be drawn between criticism and prejudice. Charting the development and adaptation of this anti-American tradition, O'Connor maintains that it is important to contextualise it within the particularities of the American experience and the global reach of the United States' influence and power. He argues for a move away from stereotypes and caricatures towards more specific and profitable discussions about American actions and policies. Offering precise and useful ways of understanding anti-Americanism and American exceptionalism that place the terms in their relevant political contexts, this volume is a useful and engaging resource for those researching or studying American politics and ideology, foreign policy, American culture and international relations.

Real Change Newt Gingrich 2009-06-15 The former Speaker of the House of Representatives examines the need for change in health care, immigration, energy and environmental policy, transportation, and national security, and discusses the difficulties politicians from both parties have in imple

Drill Here, Drill Now, Pay Less Newt Gingrich 2008-09-23 Bestselling author, former Speaker of the House, and Fox News political analyst Newt Gingrich has a plan for slashing gas prices and reducing our long-term dependence on foreign oil. Dealing not only with spiraling gas prices, but with the energy crisis as a whole, Gingrich shows how we can safely reap the benefits of America's own natural resources and technology in gas, oil, coal, wind, solar, biofuels and nuclear energy. To meet this crisis, Gingrich lays out a national strategy that will tap America's scientists, engineers, and entrepreneurs, and require Congress to unlock our oil reserves and remove all the impediments and disincentives that unnecessary government regulation has put in the way of American energy independence.

A Nation Like No Other Newt Gingrich 2011-06-13 A best-selling author and former speaker of the House argues for "American Exceptionalism"--the notion that Americans get their rights not from the government, but from God. 300,000 first printing.

To Save America Newt Gingrich 2011-01-04 The message of this extraordinary election [in November 2010] is clear enough: the American citizenry has rejected the secular dogma, socialist policies, and machine-driven politics that comprise the Obama agenda. Now, the question is whether President Obama and his Democratic Party will accept the will of the people and change the destructive course upon which they have set this country. . . . [F]irst and foremost, Republicans must fight to dislodge the secular-socialist machine whose methods and goals are described in this book. This machine has driven America so deeply into debt, and has so fundamentally changed the relationship between the American citizenry and our government, that our children's future is now imperiled. We cannot assume that after the 2010 election, the machine will simply accept the will of the people. After all, the very purpose of a political machine is to thwart the will of the people.

Re-electing Trump Newt Gingrich 2020-06-23 The 2020 election will be a decisive choice for America. Will the American people choose four more years of President Trump's focus on economic growth, a foreign and trade policy of putting American interests first, dismantling the deep state, and dramatically reforming the bureaucracies? Or do they reject Trumpism and elect a radical extremist Democrat dedicated to bigger government, globalism, and anti-American values? Not since the election of 1964 has the choice in an election been so stark. Re-electing Trump by Newt Gingrich will lay out the stakes of the 2020 election and provide a clarion call for all Americans on why it is vital to return President Trump to the White House for a second term. Featuring insights gleaned from the lifetime of experience and access only Newt Gingrich can bring, Re-electing Trump will be crucial reading for every citizen who wants to continue to make America great again.

Elections A to Z Dave Tarr 2012-07-03 Combining the rich content of the print edition with the advanced online functionality demanded by today's researchers, Elections A to Z: Online Edition is the ultimate 21st century research tool for finding current, accurate information on U.S. elections. Advanced Web-enabled features allow users to conduct searches from A to Z on election. Like all CQ Press online editions, Elections A to Z: Online Edition comes loaded with powerful user-friendly functions such as CiteNow!, which lets researchers download full citations in MLA, APA, Bluebook, and other formats. Elections A to Z explains how campaigns and elections, the hallmark of any democracy, are conducted in the United States. The new third edition has been redesigned and updated with new entries covering the vital current elections topics that readers want to know about. Entries range from short definitions of terms like front-runner to in-depth essays exploring vital aspects of campaigns and elections, such as the right to vote, turnout trends, and the history, evolution, and current state of House, Senate, presidential, and some state-level elections. Readers will find essential information on: Stages in the campaign process and the general election The roles of political consultants, the media, and political parties Debates and issues such as term limits, majority-minority districts, and campaign finance Amendments, legislation, and court cases that have shaped electoral, campaign, and voting matters Voter turnout and voting rights in the United States Important terms and concepts like absolute majority and dark horse Highlights of presidential elections throughout U.S. history

Understanding Trump Newt Gingrich 2017-06-13 Learn how Trump is making America great again -- and why government and media elites attack his vision -- in this "inspiring and informative" book from one of his key political advisors (Sean Hannity). Donald Trump is unlike any president we've ever had. The only person ever elected to be commander in chief who has not first held public office or served as a general in the military, Trump's principles grow out of five decades of business and celebrity success -- not politics. The president owes his position to the people who believed in him as a candidate, not to the left-wing government and media who have expressed contempt for him since his first day on the campaign trail. Trump has enacted policies and set goals that send our country in a bold new direction -- one that is "unreasonable" to Washington elites but sensible to millions of Americans outside the Beltway. With Understanding Trump, Newt Gingrich provides unique insight into how the president's past experiences have helped to shape his life and style of governing, including a thorough analysis of how President Trump thinks and makes decisions, as well as his philosophy, doctrine, and forward-thinking political agenda. Discover Trump-style solutions for national security, education, health care, economic growth, government reform, and other important topics. In this eye-opening book, Gingrich also investigates and exposes the forces in the Washington establishment, media, and bureaucracy that oppose the president at every turn. Finally, Understanding Trump explains the president's actions so far and lays out a vision for what Americans can do to help make President Trump's agenda a success. With your help, President Trump will be able to overcome corrupt interests in Washington and fulfill his promise to make America great again.

Contract with America Newt Gingrich 1994 Includes the contract, explains the contract, and replaces myths about the plan with facts

Real Change Newt Gingrich 2009-06-15 Americans don't just want change this election year, they want real change—but most have no idea where it will come from. Democrats can't provide it and Republicans won't. But former Speaker of the House Newt Gingrich does. He explains what is wrong with our country and how to solve our problems in his blockbuster new book, Real Change: From the World That Fails to the World That Works.

The New Deal Orion Karl Daley 2007 The New Deal for Election 2008 represents plans and commitment in leadership of our nation. It is a set of blue prints for our strategic future with the message to leave no American behind. It is still needed even more today. Its focus is on the reform of the government with respect to the information age, the economy in order to bring it into the 21st century, and provide personal empowerment in a secure nation that has workable foreign policy. We can pay back the over burdened foreign debt without major cost to the taxpayer, bring momentum back into our economy, return industry to US soil, build strong labor unions, and have personal empowerment when it comes to having real health care, employment, and good educational systems. The nation is moved by the people's voice. As being a blue print, in voting for the New Deal in November 2008, it's do-able, and that's the bottom line.

It's Even Worse Than It Looks Thomas E. Mann 2016-04-05 Acrimony and hyperpartisanship have seeped into every part of the political process. Congress is deadlocked and its approval ratings are at record lows. America's two main political parties have given up their traditions of compromise, endangering our very system of constitutional democracy. And one of these parties has taken on the role of insurgent outlier; the Republicans have become ideologically extreme, scornful of compromise, and ardently opposed to the established social and economic policy regime. In It's Even Worse Than It Looks, congressional scholars Thomas Mann and Norman Ornstein identify two overriding problems that have led Congress -- and the United States -- to the brink of institutional collapse. The first is the serious

mismatch between our political parties, which have become as vehemently adversarial as parliamentary parties, and a governing system that, unlike a parliamentary democracy, makes it extremely difficult for majorities to act. Second, while both parties participate in tribal warfare, both sides are not equally culpable. The political system faces what the authors call &"asymmetric polarization," with the Republican Party implacably refusing to allow anything that might help the Democrats politically, no matter the cost. With dysfunction rooted in long-term political trends, a coarsened political culture and a new partisan media, the authors conclude that there is no &"silver bullet"; reform that can solve everything. But they offer a panoply of useful ideas and reforms, endorsing some solutions, like greater public participation and institutional restructuring of the House and Senate, while debunking others, like independent or third-party candidates. Above all, they call on the media as well as the public at large to focus on the true causes of dysfunction rather than just throwing the bums out every election cycle. Until voters learn to act strategically to reward problem solving and punish obstruction, American democracy will remain in serious danger.

America-A Purpose-Driven Nation Philip Michael Pantana, Sr. 2007-11 Pantana focuses on 95 essential themes of conservatism and presents a plan for reversing the current secular trends in force today. (Christian)

Trump and the American Future Newt Gingrich 2020-06-23 New York Times bestselling author Newt Gingrich lays out the stakes of the 2020 elections and what the end results could mean for the future of American citizens. The 2020 election will be a decisive choice for America, especially as we emerge from the coronavirus crisis. Will the American people choose four more years of President Trump to lead us back to strong economic growth, a foreign and trade policy of putting American interests first, dismantling the deep state, and dramatically reforming the bureaucracies? Or will they reject Trumpism and elect the radical Democratic policies of big government, globalism, and socialist policies that Joe Biden represents? Not since the election of 1964 has the choice in an election been so stark. Trump and the American Future by Newt Gingrich will lay out the stakes of the 2020 election and provide a clarion call for all Americans on why it is vital to return President Trump to the White House for a second term. Featuring insights gleaned from the lifetime of experience and access only Newt Gingrich can bring, Trump and the American Future will be crucial reading for every citizen who wants to continue to make America great again.

The Evil Axis of Finance Richard Westra 2012-02-20 Why, despite the existence of raft of potential international investment outlets, is a major share of global wealth and savings mpelled toward a United States (US) Wall Street centered casino ? Why has an increasingly gapping chasm crystallized between ever bloating global financial activities and the "real" world economy of production and trade? How is it that wealthy governments injecting trillions of dollars into stumbling financial sectors across the globe is failing to create new decent jobs? The present volume clearly answers these questions and more as it connects the dots linking the 2008 meltdown and over a decade of dress rehearsals for it to a rigged global financial game that cemented US international dominance under conditions where the US simultaneously attained the status of world's principal debtor economy. It traces out the complicity of Japan in the game beholden as it was to US anti-communist largesse for its meteoric post-war rise. It examines how China, the former communist Cold War nemesis, paradoxically became the next major underwriter of US debt and exporter of global deflation as is sets low wage rates for the world. The present volume clearly answers these questions and more as it connects the dots linking the 2008 meltdown and over a decade of dress rehearsals for it to a rigged global financial game that cemented US international dominance under conditions where the US simultaneously attained the status of world's principal debtor economy. It examines how China, the former communist Cold War nemesis, paradoxically became the next major underwriter of US debt and exporter of global deflation as is sets low wage rates for the world.

Days of Infamy Newt Gingrich 2008-04-29 "Absolutely brilliant! Fast paced and filled with tension and suspense. Every page resonates with the momentous events and great personalities of World War II - and scenes so carefully crafted you feel like you're there. This is a 'must read' for all who look at history and wonder: "What if..." -- Oliver North, Lt. Col., USMC (Ret.), host of War Stories on the Fox News Channel In 2007, bestselling authors Newt Gingrich and William R. Forstchen launched a new epic adventure series about World War II in the Pacific, with their book Pearl Harbor: A Novel of December 8th, 1941, which instantly rocketed to the New York Times bestseller list. Gingrich and Forstchen's now critically acclaimed approach, which they term "active history," examines how a change in but one decision might have profoundly altered American history. In Pearl Harbor they explored how history might have been changed if Admiral Yamamoto had directly led the attack on that fateful day, instead of remaining in Japan. Building on that promise, Days of Infamy starts minutes after the close of Pearl Harbor, as both sides react to the monumental events triggered by the presence of Admiral Yamamoto. In direct command of the six carriers of the attacking fleet, Yamamoto decides to launch a fateful "third-wave attack" on the island of Oahu, and then keeps his fleet in the area to hunt down the surviving American aircraft carriers, which by luck and fate were not anchored in the harbor on that day. Historians have often speculated about what might have transpired from legendary "matchups" of great generals and admirals. In this story of the aftermath of Pearl Harbor, the notorious gambler Yamamoto is pitted against the equally legendary American admiral Bill Halsey in a battle of wits, nerve, and skill. Days of Infamy recounts this alternative history from a multitude of viewpoints--from President Roosevelt, Prime Minister Churchill, and the two great admirals, on down to American pilots flying antiquated aircraft, bravely facing the vastly superior Imperial Japanese Navy aircraft. Gingrich and Forstchen have written a sequel that's as much a homage to the survivors of the real Pearl Harbor attack as it is an imaginative and thrilling take on America's entry into World War II. Praise for the first book in the Pacific War Series, Pearl Harbor: "A thrilling tale of American's darkest day." --W.E.B. Griffin

Purging the Republican Party Ronald T. Libby 2013-11-22 Ronald T. Libby's Purging the Republican Party examines Tea Party primary campaigns against Republicans including the defeats of Dede Scozzafava in New York and Bob Bennett in Utah, and the election of Marco Rubio in Florida. It includes an assessment of the Tea Party's political prospects following the 2012 elections and beyond.

The Climate War Eric Pooley 2010-06-08 In The Climate War, Eric Pooley--deputy editor of Bloomberg BusinessWeek--does for global warming what Bob Woodward did for presidents and Lawrence Wright did for terrorists. In this epic tale of an American civil war, Pooley takes us behind the scenes and into the hearts and minds of the most important players in the struggle to cap global warming pollution--a fight in which trillions of dollars and the fate of the planet are at stake. Why has it been so hard for America to come to grips with climate change? Why do so many people believe it isn't really happening? As President Obama's science advisor John Holdren has said, "We're driving in a car with bad brakes in a fog and heading for a cliff. We know for sure that cliff is out there. We just don't know exactly where it is. Prudence would suggest that we should start putting on the brakes." But powerful interests are threatened by the carbon cap that would speed the transition to a clean energy economy, and their agents have worked successfully to deny the problem and delay the solutions. To write this book, Pooley, the former managing editor of Fortune and chief political correspondent for Time, spent three years embedded with an extraordinary cast of characters: from the flamboyant head of one of the nation's largest coal-burning energy companies to the driven environmental leader who made common cause with him, from leading scientists warning of impending catastrophe to professional skeptics disputing almost every aspect of climate science, from radical activists chaining themselves to bulldozers to powerful lobbyists, media gurus, and advisors in Obama's West Wing--and, to top it off, unprecedented access to former Vice President Al Gore and his team of climate activists. Pooley captures the quiet determination and even heroism of climate campaigners who have dedicated their lives to an uphill battle that's still raging today. He asks whether we have what it takes to preserve our planet's habitability, and shows how America's climate war sends shock waves from Bali to Copenhagen. No other reporter enjoys such access to this cast of characters. No other book covers this terrain. From the trenches of a North Carolina power plant to the battlefields of Capitol Hill, Madison Avenue, and Wall Street, The Climate War is the essential read for anyone who wants to understand the players and politics behind the most important issue we face today.

Understanding Trump Newt Gingrich 2017-06-13 The presidency of Donald Trump marks a profound change in the trajectory of American government, politics, and culture. Like his administration, the movement that put him in office represents a phenomenon that is worth studying. Donald Trump is unlike any president we've ever had. He is the only person ever elected to be commander in chief who has not first held public office or served as a general in the military. His principles grow out of five decades of business and celebrity success-not politics-so he behaves differently than do traditional politicians. In UNDERSTANDING TRUMP, Newt Gingrich shares what he learned from more than two years helping Trump and his team throughout the campaign, the election, and during the first months of the presidency. Mr. Gingrich provides unique insight into how the new president's past experiences have shaped his life and style of governing. This book also includes Mr. Gingrich's thorough analysis of how President Trump thinks and makes decisions, as well as the president's philosophy, doctrine, and political agenda going forward. Further, these pages hold a detailed discussion of Trump-style solutions for national security, education, health care, economic growth, government reform, and other important topics. Mr. Gingrich also identifies the forces in the Washington establishment, media, and bureaucracy that will oppose the president at every turn. Finally, UNDERSTANDING TRUMP explains the president's actions so far and lays out a vision for what Americans can do to help make President Trump's agenda a success. The president owes his position to the people who believed in him as a candidate, not to the elites in government and media who have expressed contempt for him since he began his campaign to become president. The very essence of Trump's mission is a willingness to enact policies and set goals that send our country in a bold new direction - one that may be "unreasonable" to Washington but is sensible to millions of Americans outside the Beltway. Only with the country's help will President Trump be able to overcome the entrenched interests in Washington and fulfill his promise to make America great again for all Americans.

Beyond Biden Newt Gingrich 2021-11-02 Bestselling author Newt Gingrich exposes the anti-American forces that have grown so large and so aggressive in their quest for power. The struggle between the defenders of America as an exceptional nation and the forces of anti-Americanism is reaching a fever pitch. These forces have grown so large, so well-financed, so entrenched and aggressive that they must be studied closely and understood completely if America is to survive this imminent civil war. In *Beyond Biden*, bestselling author Newt Gingrich brings together the various strands of the movement seeking to destroy true, historic American values and replace this country with one that's imposed on us by the combined power of government and social acceptance. Now a National Bestseller!

Campaigns and Elections Stephen K. Medvic 2013-12-04 Stephen K. Medvic's *Campaigns and Elections* addresses two distinct but related aspects of American electoral democracy—both the processes that constitute campaigns and elections and the players who are involved. In addition to this balanced coverage on process and actors, it also gives equal billing to both campaigns and elections, and to contests for both legislative and executive positions at the national and state and local level. The book starts by providing students with the conceptual distinctions between what happens in an election and the campaigning that proceeds it. Significant attention is devoted to setting up the context for these campaigns and elections by covering the rules of the game in the American electoral system as well as aspects of election administration and the funding of elections. Then the book systematically covers the actors at every level—candidates and their organizations, parties, interest groups, the media, and voters—and the macro level aspects of campaigns such as campaign strategy and determinants of election outcomes. The book concludes with a big picture assessment of campaign ethics and implications of the "permanent campaign".

The Teavangelicals David Brody 2012-06-19 The *Teavangelicals* is a one-of-a-kind book chock-full of original reporting from the 2012 presidential race with an up-close look at how evangelicals and the Tea Party are plotting strategy to reclaim America. In his trademark breezy, funny, and engaging style, David Brody takes you

inside the blossoming Teavangelical movement and describes how it is having a major effect on today's politics with an eye on dominating the political affairs of tomorrow. The author takes his niche for getting interviews and inside access with all the big-name political and evangelical newsmakers and now shares that exclusive access with readers. The author offers a rare, behind-the-scenes glimpse along the campaign trail within the three key factions working tirelessly to overcome President Obama and his political machine: evangelicals, the Tea Party and the GOP presidential contenders. Brody, embedded with leading Tea Party and evangelical groups, shares what he learned from private emails, memos, and conversations that shed light on campaign strategy and voter mobilization efforts. In addition, this book highlights Brody's exclusive interviews, stories, and travels with all the 2012 GOP presidential candidates as they try to be the candidate that takes on President Obama and ultimately change the course of direction in America. The author travels to the key early Primary states of Iowa and South Carolina where Evangelicals will have a major say in who the GOP nominates for President. The author gives readers the inside scoop on the power of evangelical groups and how they're making a difference early on in the process. Additionally, how will these GOP candidates appeal to evangelicals and how well will it work out? At the same time, the candidates are catering to the Tea Party crowd. We'll go inside the living rooms of major Tea Party organizers to get inside access on the chatter. Are these presidential candidates passing the Tea Party "smell test"?

Dennis W. Johnson 2011-01-31 So much has changed during the past decade in political campaigning that we can almost say "it's a whole new ball game." This book analyzes the way campaigns were traditionally run and the extraordinary changes that have occurred in the last decade. Dennis W. Johnson looks at the most sophisticated techniques of modern campaigning—micro-targeting, online fundraising, digital communication, the new media—and examines what has changed, how those changes have dramatically transformed campaigning, and what has remained fundamentally the same despite new technologies and communications. Campaigns are becoming more open and free-wheeling, with greater involvement of activists and average voters alike. But they can also become more chaotic and difficult to control. Campaigning in the Twenty-First Century presents daunting challenges for candidates and professional consultants as they try to get their messages out to voters. Ironically, the more open and robust campaigns become, the greater is the need for seasoned, flexible and imaginative professional consultants.

William R. Forstchen 2011-04-26 A post-apocalyptic thriller of the after effects in the United States after a terrifying terrorist attack using electromagnetic pulse weapons. New York Times best selling author William R. Forstchen now brings us a story which can be all too terrifyingly real...a story in which one man struggles to save his family and his small North Carolina town after America loses a war, in one second, a war that will send America back to the Dark Ages...A war based upon a weapon, an Electro Magnetic Pulse (EMP). A weapon that may already be in the hands of our enemies. Months before publication, *One Second After* has already been cited on the floor of Congress as a book all Americans should read, a book already being discussed in the corridors of the Pentagon as a truly realistic look at a weapon and its awesome power to destroy the entire United States, literally within one second. It is a weapon that the Wall Street Journal warns could shatter America. In the tradition of *On the Beach*, *Fail Safe* and *Testament*, this book, set in a typical American town, is a dire warning of what might be our future...and our end. The John Matherson Series #1 *One Second After* #2 *One Year After* #3 *The Final Day* Other Books *Pillar to the Sky* 48 Hours At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
