Goodbye Homeboy Steve Mariotti 2019-08-06 One sunny afternoon in

1982, a young businessman experienced a terrifying mugging in New

York City that shook him to his core. Tortured by nightmares about the

teens who roughed him up, Steve Mariotti sought counseling. When his

therapist suggested that he face his fears, Mariotti closed his small

import-export business and became a teacher at the city's most notorious

public school--Boys and Girls High in Bed-Stuy. Although his nightmares

promptly ceased, Mariotti's out-of-control students rapidly drove him to

despair. One day, Mariotti stepped out of the classroom so his students

wouldn't see him cry. In a desperate move to save his job, he took off his

watch and marched back in with an impromptu sales pitch for it. To his

astonishment, his students were riveted. He was able to successfully lead

a math lesson for the first time. Mariotti realized his students felt

trapped in soul-crushing poverty. They saw zero connection between

school and improving their lives. Whenever Mariotti connected their

lessons to entrepreneurship, though, even his most disruptive students

got excited about learning. School administrators disapproved of Mariotti

discussing money in the classroom, however. He was repeatedly fired

before receiving one last-ditch assignment: an offsite program for

special-ed students expelled from the public schools for violent crimes.

The success Mariotti had with these forgotten children—including

coverage in the Daily News, The New York Times, and World News

Tonight—inspired him to found the nonprofit Network for Teaching Entrepreneurship to bring entrepreneurship education to low-income youth. By turns tragic and hilarious, Goodbye Homeboy shares Mariotti's flaws and missteps as he connects deeply with his troubled students, and woos the most influential people in the world into helping them—saving himself in the process. Today, Mariotti is widely recognized as the world's leading advocate for entrepreneurship education. More than one million young people from Chicago to China have graduated from NFTE programs, and NFTE counts Sean Combs, Chelsea Clinton, Diana Davis Spencer, and many more business, entertainment, and community leaders among its staunchest supporters. As Goodbye Homeboy powerfully illustrates, a spark of hope really can empower us to overcome life's greatest hardships.

An Introduction to Community Development Rhonda Phillips 2014-11-26

Beginning with the foundations of community development, An

Introduction to Community Development offers a comprehensive and

practical approach to planning for communities. Road-tested in the

authors' own teaching, and through the training they provide for

practicing planners, it enables students to begin making connections

between academic study and practical know-how from both private and

public sector contexts. An Introduction to Community Development

shows how planners can utilize local economic interests and integrate

finance and marketing considerations into their strategy. Most

importantly, the book is strongly focused on outcomes, encouraging

students to ask: what is best practice when it comes to planning for

communities, and how do we accurately measure the results of planning

practice? This newly revised and updated edition includes: increased

coverage of sustainability issues, discussion of localism and its relation to

community development, quality of life, community well-being and public

health considerations, and content on local food systems. Each chapter

provides a range of reading materials for the student, supplemented with

text boxes, a chapter outline, keywords, and reference lists, and new

skills based exercises at the end of each chapter to help students turn

their learning into action, making this the most user-friendly text for

community development now available.

Teaching the Entrepreneurial Mindset Across the University Lisa

Bosman 2021-10-07 "It stretches no point to suggest that creativity,

innovation and risk-taking will decide our future societal prosperity. We

cannot spread those values too widely, so having taught engineering

faculty in their first book, these authors now aim to boost the spirit

across all disciplines. What a great success for all of us if they succeed."

- Mitchell E. Daniels, Jr., president of Purdue University and former

governor of Indiana Despite the relevancy of the entrepreneurial mindset for all career paths, only a small percentage of the higher education student population takes part in entrepreneurially-minded learning opportunities. This gap can be attributed to several factors. From a program perspective, many degrees are already at credit capacity which allows limited room in the existing curriculum to add new courses. From a student perspective, entrepreneurship education is thus positioned as optional and requires extra time (and in some cases tuition) to do so. Finally, from an educator perspective, the majority of faculty members across the university have not been trained in entrepreneurship and may not know where to start. Teaching the Entrepreneurial Mindset Across the University: An Integrative Approach overcomes these challenges by providing higher education faculty with a toolkit, including tips and strategies, to integrate the entrepreneurial mindset into existing courses regardless of discipline. The book is broken into three core parts: Motivation: The importance of the entrepreneurial mindset for all students is established; Design: The Entrepreneurial Mindset Teaching Blueprint is introduced as a tool for integrating entrepreneurially-minded curricular learning experiences within existing courses; Application: Example entrepreneurially-minded curriculum from across the university are provided. By integrating the entrepreneurial mindset across the curriculum, students from all disciplinary backgrounds will be better prepared to enter the workforce, solve complex social issues, and leverage entrepreneurial thinking in their everyday lives. This book is meant for educators who want to make an impact and truly prepare graduates for the real world.

Entrepreneurship and Small Business Management Steve Mariotti 2012-04-10 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Written by award-winning experts, Steve Mariotti and Caroline Glackin, *Entrepreneurship and Small Business Management* presents complex economic, financial and business concepts in a manner easily understood by a variety of students. Based on a proven curriculum from the Network for Teaching Entrepreneurship (NFTE), it is organized to follow the life-cycle of an entrepreneurial venture—from concept through implementation to harvesting or replication. Filled with examples from a broad range of industries, it moves further into the entrepreneurial process—discussing the business plan and also the unique aspects of managing and growing entrepreneurial ventures and small businesses.

Teaching the Entrepreneurial Mindset to Engineers Lisa Bosman 2017-08-01 This book provides engineering faculty members and instructors with a base understanding of why the entrepreneurial mindset is important to engineering students and how it can be taught. It helps advance entrepreneurship education for all engineering students, and equips educators with tools and strategies that allow them to teach the entrepreneurial mindset. Divided into four parts, this book explores what the entrepreneurial mindset is, and why it is important; shows how to get started and integrate the mindset into existing coursework so that curricula can focus on both technical/functional concepts and entrepreneurial ones as well; guides readers through the growing multitude of conferences, journals, networks, and online resources that are available; and provides solid examples to get the reader started. This book is an important resource for engineering educators as they learn how to remain competitive and cutting-edge in a field as fast-moving and dynamic as engineering.

Putting the Young in Business OCSE = OECD. 2001 Policies and practices promoting youth entrepreneurship in Organisation for Economic Cooperation Development (OECD) member countries were reviewed. Special attention was paid to the following issues: youth unemployment; contrasting employment situations and policy approaches in individual OECD countries; a definition of self-employment; and the state of entrepreneurship and attitudes toward it in OECD countries. Emerging program approaches to youth entrepreneurship were examined. Special attention was paid to "best practice" examples and international youth business networks. The issues of teaching teachers, teaching entrepreneurship at all levels (primary, secondary, and tertiary), and entrepreneurship training were also discussed. It was concluded that although youth unemployment is a highly intractable problem affecting all OECD member countries, globalization and other factors are causing economic development strategies to become increasingly local and regional. It was further concluded that entrepreneurial activity is a complex process whose

outcome depends on a number of factors that are either not economic or only tangentially economic. The following policy suggestions were offered: (1) the field must become more institutionalized; (2) more program evaluation is needed; (3) more cooperative connections with other schools are required; and (4) young entrepreneurs need more networks and support groups among themselves. (Twelve figures/tables/boxes are included. The bibliography lists 31 references.) (MN)

The Other Wes Moore Wes Moore 2010-04-27 NEW YORK TIMES BESTSELLER • The “compassionate” (People), “startling” (Baltimore Sun), “moving” (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his “Underrated” Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world. BONUS: This edition contains a new afterword and a *The Other Wes Moore* discussion guide.

The Grace Walk Experience Steve McVey 2008-03-01 For years, Steve McVey's *Grace Walk* (more than 200,000 copies sold) has inspired Christians to leave behind a performance and fear-based faith to embrace a faith lived in abundance and grace. Now *The Grace Walk Experience* workbook helps readers move that message of hope from their heads to their hearts as they explore eight truths that have changed lives worldwide daily, interactive studies that reveal grace as much more than a doctrine ways to quit "doing" for God so that He can live through them illustrations of the wonder and miracle of faith as God intended God's Word, salvation, and evangelism with new perspective This excellent tool for church classes, small group discussion, and individual study will lead believers to understand their identity in Christ, let go of legalism, and make room for the overflowing love, mercy, and purpose of life lived wholly in God's grace.

Discovering Wes Moore Wes Moore 2012-09-11 For fans of *The Wire* and

Unbroken comes a story of two fatherless boys from Baltimore, both named Wes Moore. One is in prison, serving a life sentence for murder. The other is a Rhodes Scholar, an army veteran, and an author whose book is being turned into a movie produced by Oprah Winfrey. The story of “the other Wes Moore” is one that the author couldn't get out of his mind, not since he learned that another boy with his name—just two years his senior—grew up in the same Baltimore neighborhood. He wrote that boy—now a man—a letter, not expecting to receive a reply. But a reply came, and a friendship grew, as letters turned into visits and the two men got to know each other. Eventually, that friendship became the inspiration for *Discovering Wes Moore*, a moving and cautionary tale examining the factors that contribute to success and failure—and the choices that make all the difference. Two men. One overcame adversity. The other suffered the indignities of poverty. Their stories are chronicled in *Discovering Wes Moore*, a book for young people based on Wes Moore's bestselling adult memoir, *The Other Wes Moore*. Includes an 8-page photo insert. Praise for *Discovering Wes Moore* “Moore wisely opens the door for teens to contemplate their own answers and beliefs, while laying out his own experiences honestly and openly.”—Publishers Weekly “He argues earnestly and convincingly that young people can overcome the obstacles in their lives when they make the right choices and accept the support of caring adults.”—Kirkus Reviews

Insiders and Outsiders Francis B. Nyamnjoh 2013-07-04 This study of xenophobia and how it both exploits and excludes is an incisive commentary on a globalizing world and its consequences for ordinary people's lives. Using the examples of Sub-Saharan Africa's two most economically successful nations, it meticulously documents the fate of immigrants and the new politics of insiders and outsiders. As globalization becomes a palpable reality, citizenship, sociality and belonging are subjected to stresses to which few societies have devised a civil response beyond yet more controls.

Towards an Entrepreneurial Culture for the Twenty-first Century International Labour Office 2006 In line with the World Declaration on Education for All and the Millennium Goal of halving poverty in the world by the year 2015, education is expected to serve not only the acquisition of academic knowledge but also the preparation of young people for life and work. Secondary education has to meet the challenge of providing skills for successfully dealing with economies and work patterns in transition and changing cultural values. Education that makes young people entrepreneurial in a broad sense would be part of this solution. This volume draws on various experiences in entrepreneurial education around the world. It aims to provoke discussion on such questions as: How can we harness the imagination and entrepreneurial talents of secondary students as assets for development? How should these talents be channelled? What are the contents, subjects, topics that support the entrepreneurial process? What is the best institutional framework for entrepreneurship education? What kind of teacher is needed? How do we systematically measure the performance of entrepreneurship education and training?

Teach to Work Patty Alper 2017-03-27 The United States is abundantly rich in adults with "know how." By connecting mentors -- educated adults with expertise and knowledge -- with mentees -- teens and young adults who lack motivation, experience, and role models in their lives -- we can begin to close this gap dramatically. We can prepare the next generation for the jobs of tomorrow by adding real-world, project based experience to their education. *Teach to Work* is a call to action for mentors currently sitting on the sidelines. Whether you are a banker, lawyer, architect, accountant, engineer, IT specialist, or artist, you have the experience and skillset to become an ambassador of talent, grit, and transferable

skills. The book provides a step-by-step guide to help professionals share their knowledge with the next generation of workers through this intergenerational experience. Based on Alper's fifteen years of mentoring inner-city high-school students, *Teach to Work* proves how corporations, professionals, and boomers can have a significant impact on the professional future of America's youth. Drawing from real-life stories and letters received from students, teachers, and fellow mentors describing pride of accomplishment, Alper helps professionals embark on this journey to transform lives, mentoring one student at a time.
