**Goodbye Homeboy** Steve Mariotti

2019-08-06 One sunny afternoon in 1982, a young businessman experienced a terrifying mugging in New York City that shook him to his core. Tortured by nightmares about the teens who roughed him up, Steve Mariotti sought counseling. When his therapist suggested that he face his fears, Mariotti closed his small import-export business and became a teacher at the city's most notorious public school--Boys and Girls High in Bed-Stuy. Although his nightmares promptly ceased, Mariotti's out-of-control students rapidly drove him to despair. One day, Mariotti stepped out of the classroom so his students wouldn't see him cry. In a desperate

move to save his job, he took off his watch and marched back in with an impromptu sales pitch for it. To his astonishment, his students were riveted. He was able to successfully lead a math lesson for the first time. Mariotti realized his students felt trapped in soul-crushing poverty. They saw zero connection between school and improving their lives. Whenever Mariotti connected their lessons to entrepreneurship, though, even his most disruptive students got excited about learning. School administrators disapproved of Mariotti discussing money in the classroom, however. He was repeatedly fired before receiving one last-ditch assignment: an offsite program for special-ed students expelled from the public schools for violent crimes. The success Mariotti had with these

forgotten children—including coverage in the Daily News, The New York Times, and World News Tonight—inspired him to found the nonprofit Network for Teaching Entrepreneurship to bring entrepreneurship education to low-income youth. By turns tragic and hilarious, Goodbye Homeboy shares Mariotti's flaws and missteps as he connects deeply with his troubled students, and woos the most influential people in the world into helping them—saving himself in the process. Today, Mariotti is widely recognized as the world's leading advocate for entrepreneurship education. More than one million young people from Chicago to China have graduated from NFTE programs, and NFTE counts Sean Combs, Chelsea Clinton, Diana Davis Spencer, and

many more business, entertainment, and community leaders among its staunchest supporters. As Goodbye Homeboy powerfully illustrates, a spark of hope really can empower us to overcome life's greatest hardships.

### **Towards an Entrepreneurial Culture for the Twenty-first Century**

International Labour Office 2006 In line with the World Declaration on Education for All and the Millennium Goal of halving poverty in the world by the year 2015, education is expected to serve not only the acquisition of academic knowledge but also the preparation of young people for life and work. Secondary education has to meet the challenge of providing skills for successfully dealing with economies and work

patterns in transition and changing cultural values. Education that makes young people entrepreneurial in a broad sense would be part of this solution. This volume draws on various experiences in entrepreneurial education around the world. It aims to provoke discussion on such questions as: How can we harness the imagination and entrepreneurial talents of secondary students as assets for development? How should these talents be channelled? What are the contents, subjects, topics that support the entrepreneurial process? What is the best institutional framework for entrepreneurship education? What kind of teacher is needed? How do we systematically measure the performance of entrepreneurship education and training?

**The Young Entrepreneur's Guide to Starting and Running a Business** Steve Mariotti 2014-04-29 It doesn't matter how old you are or where you're from; you can start a profitable business. The Young Entrepreneur's Guide to Starting and Running a Business will show you how. Through stories of young entrepreneurs who have started businesses, this book illustrates how to turn hobbies, skills, and interests into profit-making ventures. Mariotti describes the characteristics of the successful entrepreneur and covers the nuts and bolts of getting a business up, running and successful.

Teach to Work Patty Alper 2017-03-27 The United States is abundantly rich in adults with "know how." By connecting mentors -- educated adults with expertise and knowledge -- with

mentees -- teens and young adults who lack motivation, experience, and role models in their lives -- we can begin to close this gap dramatically. We can prepare the next generation for the jobs of tomorrow by adding real-world, project based experience to their education. Teach to Work is a call to action for mentors currently sitting on the sidelines. Whether you are a banker, lawyer, architect, accountant, engineer, IT specialist, or artist, you have the experience and skillset to become an ambassador of talent, grit, and transferable skills. The book provides a step-by-step guide to help professionals share their knowledge with the next generation of workers through this intergenerational experience. Based on Alper's fifteen years of mentoring inner-city high-school students,

Teach to Work proves how corporations, professionals, and boomers can have a significant impact on the professional future of America's youth. Drawing from real-life stories and letters received from students, teachers, and fellow mentors describing pride of accomplishment, Alper helps professionals embark on this journey to transform lives, mentoring one student at a time.

An Introduction to Community Development Rhonda Phillips  
2014-11-26 Beginning with the foundations of community development, An Introduction to Community Development offers a comprehensive and practical approach to planning for communities. Road-tested in the authors' own teaching, and through the training they provide for

practicing planners, it enables students to begin making connections between academic study and practical know-how from both private and public sector contexts. An Introduction to Community Development shows how planners can utilize local economic interests and integrate finance and marketing considerations into their strategy. Most importantly, the book is strongly focused on outcomes, encouraging students to ask: what is best practice when it comes to planning for communities, and how do we accurately measure the results of planning practice? This newly revised and updated edition includes: increased coverage of sustainability issues, discussion of localism and its relation to community development, quality of life, community well-being and public

health considerations, and content on local food systems. Each chapter provides a range of reading materials for the student, supplemented with text boxes, a chapter outline, keywords, and reference lists, and new skills based exercises at the end of each chapter to help students turn their learning into action, making this the most user-friendly text for community development now available. *Hearing on careers for the 21st century* United States. *Entrepreneurship and Small Business Management* Steve Mariotti 2012-04-10  
This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Written by award-winning experts, Steve Mariotti and Caroline Glackin, *Entrepreneurship and Small Business Management* presents complex economic, financial and business concepts in a

manner easily understood by a variety of students. Based on a proven curriculum from the Network for Teaching Entrepreneurship (NFTE), it is organized to follow the life-cycle of an entrepreneurial venture—from concept through implementation to harvesting or replication. Filled with examples from a broad range of industries, it moves further into the entrepreneurial process—discussing the business plan and also the unique aspects of managing and growing entrepreneurial ventures and small businesses.

*Handbook of Research in Entrepreneurship Education* Alain Fayolle 2007-01-01 The Handbook of Research in Entrepreneurship Education is well worth reading and both editions are excellent volumes for all of us involved and interested

in the debate on how to bring entrepreneurship education forward and whether to create a distinctive domain of entrepreneurship studies. Domingo Ribeiro Soriano, Academy of Management Learning & Education . . . a commendable source of reference for entrepreneurship education researchers and practitioners alike, and would make a worthy addition to a library's collection. David Douglas, International Journal of Entrepreneurial Behaviour and Research In this, the second volume of the Handbook of Research in Entrepreneurship Education, leading international scholars highlight the unique characteristics and rich variety of research in entrepreneurship education. They adopt several different perspectives, focusing on key issues and

significant developments in the field, and highlighting emergent new insights. The 35 contributors span 11 countries and three continents, demonstrating not only the richness but also the complexity of the field in terms of culture, geography and institutional, ethical and political systems. The Handbook is intended to collectively assist entrepreneurship educators in developing new programmes and pedagogical approaches that take into account the richness and diversity of these multiple perspectives. Highlighting the unique characteristics of research in entrepreneurship education, this Handbook will be of great interest to entrepreneurship researchers, academics and students wishing to understand the unique notions of entrepreneurship education and

entrepreneurial learning, which are often quite distinct from current practical views. The companion volume, Handbook of Research in Entrepreneurship Education, Volume 1: A General Perspective, showcases the nature and benefits of the new wave in entrepreneurship education emerging as a result of revised academic programmes developed to reflect new forms of entrepreneurship.

An Oresteia Aeschylus 2009-03-31 A Bold, Iconoclastic New Look at One of the Great Works of Greek Tragedy In this innovative rendition of The Oresteia, the poet, translator, and essayist Anne Carson combines three different visions—Aischylos' Agamemnon, Sophokles' Elektra, and Euripides' Orestes—giving birth to a wholly new experience of the classic

Greek triumvirate of vengeance. After the murder of her daughter Iphigenia by her husband Agamemnon, Klytaimestra exacts a mother's revenge, murdering Agamemnon and his mistress, Cassandra. Displeased with Klytaimestra's actions, Apollo calls on her son, Orestes, to avenge his father's death with the help of his sister Elektra. In the end, Orestes, driven mad by the Furies for his bloody betrayal of family, and Elektra are condemned to death by the people of Argos, and must justify their actions—signaling a call to change in society, a shift from the capricious governing of the gods to the rule of manmade law. Carson's accomplished rendering combines elements of contemporary vernacular with the traditional structures and rhetoric of Greek tragedy, opening up

the plays to a modern audience. In addition to its accessibility, the wit and dazzling morbidity of her prose sheds new light on the saga for scholars. Anne Carson's *Oresteia* is a watershed translation, a death-dance of vengeance and passion not to be missed.

**Putting the Young in Business** OECD 2001 This book sets out a potential response to two major challenges facing OECD countries: the "youth problem", or the need to ensure that young people can play a full role in society, and the need to foster entrepreneurship for job creation, innovation and economic adaptability. The "new economy" will be built on a culture of entrepreneurship and this must include youth as well as adults. In publishing this book, the OECD therefore wishes to stimulate policy

debate on the factors that encourage youth entrepreneurship, the obstacles that stand in its way and the policy measures that can support it. A picture is painted of youth entrepreneurship programmes operating at national, regional and local levels across the OECD in a wide variety of settings and with various different approaches and delivery mechanisms. The result is the first international review of "best practices" in this new and emerging area. Examples are given of programmes for education and training, help with capital, ideas and operational matters, counselling and mentoring, networking and intergenerational transfers of businesses. The range of players and activities involved are set out and suggestions are made for where gaps

might be filled. The main message is that young people can indeed found new businesses and succeed, but new policies will be needed if they are to be fully encouraged.

Insiders and Outsiders Francis B. Nyamnjoh 2013-07-04 This study of xenophobia and how it both exploits and excludes is an incisive commentary on a globalizing world and its consequences for ordinary people's lives. Using the examples of Sub-Saharan Africa's two most economically successful nations, it meticulously documents the fate of

immigrants and the new politics of insiders and outsiders. As globalization becomes a palpable reality, citizenship, sociality and belonging are subjected to stresses to which few societies have devised a civil response beyond yet more controls.

*Teaching the Entrepreneurial Mindset Across the University* Lisa Bosman 2022-10-08 "It stretches no point to suggest that creativity, innovation and risk-taking will decide our

future societal prosperity. We cannot spread those values too widely, so having taught engineering faculty in their first book, these authors now aim to boost the spirit across all disciplines. What a great success for all of us if they succeed.” – Mitchell E. Daniels, Jr., president of Purdue University and former governor of Indiana Despite the relevancy of the entrepreneurial mindset for all career paths, only a small percentage of the higher education student population takes part in entrepreneurially-minded learning opportunities. This gap can be attributed to several factors. From a program perspective, many degrees are already at credit capacity which allows limited room in the existing curriculum to add new courses. From a student perspective,

entrepreneurship education is thus positioned as optional and requires extra time (and in some cases tuition) to do so. Finally, from an educator perspective, the majority of faculty members across the university have not been trained in entrepreneurship and may not know where to start. Teaching the Entrepreneurial Mindset Across the University: An Integrative Approach overcomes these challenges by providing higher education faculty with a toolkit, including tips and strategies, to integrate the entrepreneurial mindset into existing courses regardless of discipline. The book is broken into three core parts: Motivation: The importance of the entrepreneurial mindset for all students is established; Design: The Entrepreneurial Mindset Teaching

Blueprint is introduced as a tool for integrating entrepreneurially-minded curricular learning experiences within existing courses; Application: Example entrepreneurially-minded curriculum from across the university are provided. By integrating the entrepreneurial mindset across the curriculum, students from all disciplinary backgrounds will be better prepared to enter the workforce, solve complex social issues, and leverage entrepreneurial thinking in their everyday lives. This book is meant for educators who want to make an impact and truly prepare graduates for the real world. The Young Entrepreneur's Guide to Starting and Running a Business Steve Mariotti 2008-08-11 Describes the characteristics of a successful entrepreneur, explains how to start

If we want Millennials (and future generations) to survive and thrive in the new economy, then we need to funnel this entrepreneurial energy into something positive, or risk turning the Millennial generation into a lost generation. The solutions in this book represent the beginning of an important conversation about how to support and foster the real leaders of tomorrow. From policy

ideas and educational programs, to private sector solutions and philanthropic activities, #FixYoungAmerica provides best practices and tangible solutions for solving the epidemic of youth unemployment—straight from the individuals and organizations that are already in the trenches, working to rebuild an entrepreneurial America right now.
