Targeted Training for Solving Civil PE Exam Construction Depth Multiple-Choice Problems Six-Minute Solutions for Civil PE Exam Construction Depth Problems contains over 100 multiple-choice problems that are grouped into seven chapters. Each chapter corresponds to a topic on the Civil PE exam construction depth section. Problems are representative of the exam's format, scope of topics, and level of difficulty. Like the PE exam, an average of six minutes is required to solve each problem in this book. Each problem also includes a hint that provides optional problem-solving guidance. Comprehensive step-by-step solutions for all problems demonstrate accurate and efficient solving approaches. Six-Minute Solutions will help you to familiarize yourself with the exam scope connect relevant theory to exam-like problems identify accurate problem-solving approaches organize the references you will use on exam day Topics Covered Construction Operations and Methods Earthwork Construction and Layout Estimating Quantities and Costs Health and Safety Material Quality Control and Production Scheduling Temporary Structures *Civil Engineering PE Breadth Exams* M. R. Islam 2021-11 This PE Civil Breadth book contains 3 full sample exams (40 questions each) with detailed solutions for the Computer-Based Testing (CBT) of the PE Civil morning examination starting in 2022 by NCEES. PE Civil Handbook, v.1.0, 2022 edition, has been used to solve the problems. The location of the solutions equations or theories in the PE Civil Handbook were also pointed out. The exam specification of all disciplines (construction, structural, geotechnical, transportation, water and environmental engineering) have been checked to verify that this book is suitable for the breadth exam (morning session). The following 8 topics are covered which are common for all disciplines and are primarily covered in the breadth exam (morning session) 1. Project Planning (4-6 questions) 2. Means and Methods (3-5 questions) 3. Soil Mechanics (5-8 questions) 4. Structural Mechanics (5-8 questions) 5. Hydraulics and Hydrology (6-9 questions) 6. Geometrics (3-5 questions) 7. Materials (5-8 questions) 8. Site Development (4-6 questions) **Construction Depth Practice Exams for the Civil PE Exam** Beth Lin Hartmann 2014-10-28 "Construction Depth Practice Exams includes two exams designed to match the format and specifications of the construction depth section of the civil PE exam. Like the actual exam, the exams in this book contain 40 multiple choice problems, and each problem takes an average of six minutes to solve. Most of the problems are quantitative, requiring calculations to arrive at the correct option. A few are a nonquantitative." -- Introduction
