Study Skills Workbook for Intermediate Algebra Alan Bass 2008-06 This study skills workbook, written by Alan Bass, expands upon George Woodbury's study skills feature in the text, Building Your Study Strategy, and introduces new topics to help students be more successful in developmental math. Topics include: time management, note-taking, homework, and test

preparation skills, overcoming math anxiety, among other topics. This no-nonsense approach to developing better math study skills provides students with the basic skills needed to be successful in developmental math.

Math Study Skills Alan Bass 2012-10-25 Math Study Skills outlines good study habits and provides students with study strategies and tips to improve in areas such as time

management, organization, and test-taking skills. With a friendly and relatable voice, Alan Bass addresses the misgivings and challenges many students face in a math class, and offers techniques to improve their study skills, as well as opportunities to practice and assess these techniques. This math study skills workbook is short enough to be used as a supplement in a math course, but can also be used as a main text in a study skills class.

Foresman 2007-06 Envision a math program that engages your students as it strengthens their understanding of math. enVisionMATH uses problem based interactive learning and visual learning to deepen conceptual understanding. It incorporates bar diagram visual tools to help students be better problem solvers, and it provides data-driven differentiated instruction to ensure success for every student. The best part, however, is that this success is proven by independent, scientific research. Envision more, enVisionMATH!

Check with the seller before completing your purchase. Blitzer's College Algebra with Integrated Review and Worksheets can be used in co-requisite courses, or simply to

help students who enter College Algebra without a full understanding of prerequisite skills and concepts. Integrated Review MyLab(tm) Math courses provide the full suite of supporting resources for the college algebra course, plus additional assignments and study aids from select intermediate algebra topics for students who will benefit from remediation. Assignments for the integrated review content are preassigned in MyLab, making it easier than ever to create your course. About College Algebra, 7th Edition: Bob Blitzer continues to inspire students with his engaging approach to mathematics, making this beloved series the #1 in the market year after year. Blitzer draws on his unique background in mathematics and behavioral science to present a wide range of vivid applications in real-life situations. Students of all majors stay engaged because Blitzer uses pop-culture and up-to-date references to connect math to students' lives, showing that

our world is profoundly mathematical. With the new edition, Blitzer takes student engagement with the mathematical world to a whole new level drawing from applications across all fields as well as topics that are of interest to any college student (e.g., student loan debt, grade inflation, sleep hours of college students). Applications are also brought to life online in a new, assignable video series that explore the entertaining and mathematical Blitzer Bonus boxes. The new edition also aims to help more students to succeed in the course with just-in-time support in the text-such as Brief Review of prerequisite topics, Achieving Success boxes, and Retain the Concepts exercises-as well as support within MyLab Math such as new concept-level videos, assignable tools to enhance visualization, and more. Foundation Maths Anthony Croft 2016-02-05 Were you looking for the book with access to MyMathLab Global? This product is the book alone, and does NOT come with access to MyMathLab Global.

Buy Foundation Maths, 6th edition with MyMathLab Global access card (ISBN 9781292095257) if you need access to MyMathLab Global as well, and save money on this resource. You will also need a course ID from your instructor to access MyLab. Foundation Maths has been written for students taking higher and further education courses who have not specialised in mathematics on post-16 qualifications and need to use mathematical tools in their courses. It is ideally suited to those studying marketing, business studies, management, science, engineering, social science, geography, combined studies and design. It will be useful for those who lack confidence and who need careful, steady guidance in mathematical methods. For those whose mathematical expertise is already established, the book will be a helpful revision and reference guide. The style of the book also makes it suitable for self-study and distance learning.
