911 LoveRS Jürgen Lewandowski 2018-01-08 - The first comprehensive homage to the Porsche R and RS models -From the first 911 R (1967) through the varying RS models, to the latest 911 R (2016) -Includes interviews with enthusiasts, racing drivers and customers -Presents portraits of unique collectors' items and race histories - Celebrates the 50th Anniversary of the Porsche 911 R in 2017 Porsche's sporting elite - the 911 R - more performance, less weight. As the first comprehensive homage to the R and RS models, this is a must-have for all Porsche 911 lovers. The story begins 50 years ago, when the first Porsche 911 R achieved five new long-distance world records in Monza; and goes on to the latest 911 R - a car that is aware of its history, with racing stripes, houndstooth bucket seats, manual gear change, and a free-revving naturally aspirated engine. In between the first and the latest lie 50 years, numerous models, and a legion of fans.

James Dean Lee Raskin 2020-01-21 On September 30, 1955, 24-year-old James Dean became immortal. While his young life ended in a car crash, James Dean passed into the realm of American folklore, where his memory remains today. What exactly happened on that fateful day 60 years ago? What events led to the tragic accident that cost Dean his life? What became of the people and vehicles involved in that unguarded moment at Cholame? Is there any truth to the idea of a "curse" associated with Dean and his Porsche Spyder? And what do the major landmarks of the last few months of Dean's life look like today? Foremost James Dean researcher and expert Lee Raskin answers these questions and more in *James Dean: On the Road to Salinas*. He paints a vivid picture of Dean's life during that last summer, as he began to race his Porsche Speedster, filmed his third leading role in the movie *Giant*, and acquired the infamous 550 Spyder that he dubbed, "Little Bastard." Raskin provides a detailed timeline of the rising movie star's last 12 hours, while debunking numerous "factoids" that continue to circulate prominently in accounts of Dean's life and fatal crash. *James Dean: On the Road to Salinas* is the definitive account of the last months of James Dean's life. It is a must-read for any James Dean fan, Porscheophile, or enthusiast of American popular culture of the 20th century.

Targa Florio Pino Fondi 2006 Many years ago in Sicily, the legend of the "Coppa Florio" and "Targa Florio" road races became one of the most emotive and prestigious expressions in world motor racing, second only to the mythical Mille Miglia. "Coppa Florio" began in 1905 while "Targa Florio" in 1906, at the dawn of motoring civilisation and evolved over the years, hand-in-hand with the ever growing popularity of the car itself. The narrow and tortuous roads of the Sicilian mountains were testimony to the feats of Fiat, Bugatti, Alfa Romeo, Maserati, Lancia, Ferrari and Porsche: manufacturers who alternated year after year at the top of the final classification of one of the toughest races in history, a race rich in allure and an ever present peril. On the occasion of the Targa Florio Centenary the book retraces this charming epics thanks to a vivid text and hundred of pictures, many of them unpublished. The work is complemented by a rich appendix (150 pages) reporting the complete results of all the Coppa and Targa Florio editions.

Porsche Unseen Stefan Bogner 2020-11-12 Unbekannte Preziosen Wenn Autofirmen Studien und Prototypen zeigen, erlauben sie damit einen Blick hinter den Vorhang, eine Vision von dem, was kommt oder kommen könnte. Neben dem, was bei offiziellen Terminen und auf Messen gezeigt wird, gibt es aber eine überwältigende Menge von Entwürfen und Modellen, die der Öffentlichkeit aus verschiedensten Gründen verborgen bleiben. In diesem Buch wird das unmögliche möglich: ein Blick auf noch nie gesehene Porsche - Porsche Unseen. Stefan Bogner durfte exklusiv im Allerheiligsten des

Porsche Designs fotografieren und beschert uns absolute Aha-Momente. Die Porsche-DNA ist in jedem der gezeigten Modelle erkennbar, die Ausführung aber so neu und zum Teil so unerwartet, dass man meint, in einem Paralleluniversum gelandet zu sein. Ein 1-Liter-Auto von Porsche? Ein coupéhafter 4-Sitzer mit 911-Zügen? Einsitzige Roadster mit dem Geist der 50er-Jahre? Das alles hat Stefan Bogner im Modell oder sogar fahrfertig vor der Linse gehabt. Die erhellenden Hintergründe hat Jan Baedeker im persönlichen Gespräch mit Designchef Michael Mauer notiert. Folgen Sie uns auf eine unvergleichliche Entdeckungsreise durch die Welt des Porsche Designs! Zweisprachig: Deutsch/Englisch Unknown valuables When car companies present studies and prototypes, they allow a glimpse behind the scenes, a vision of what will come or might come. Apart from what is shown on official events and at fairs, there is an overwhelming number of drafts and models, that remain hidden from the public for various reasons. This book achieves the impossible: a look at Porsche cars the public never laid eyes on - Porsche Unseen. Stefan Bogner was exclusively allowed to take pictures in the Porsche Design sanctum, aha-experiences guaranteed. The Porsche DNA is recognisable in any of the models shown, but the design is so new and unexpected that it suggests the existence of a parallel universe. A 1-litre Porsche? A coupé-like four seater with 911-looks? Single-seated roadsters with 50's flair? Stefan Bogner took photos of all of them - either as models or ready to drive. Jan Baedeker talked with Michael Mauer, Head of Design, and took down the enlightening background information. Join our extraordinary expedition of discovery through the world of Porsche Design!

Porsche Gui Bernardes 2017-06-30 In Stuttgart-Zuffenhausen, August 1939, the 60K10 project, under the supervision of one Professor Ferdinand Porsche, builds a car in anticipation of a race, Berlin to Rome, that will never take place. With this model, the idea for a light and aerodynamic car, with a small engine but remarkable performance was born. Nine years later this idea bore fruit and the company released their first automobile, the 356, created by Ferdinand's son, Ferry Porsche, which would launch the company into automotive history. *Porsche - Cars with Soul* tells the story of Porsche, from the unique perspective of the cars themselves, through the most significant events and races of the marque's celebrated history. It covers exhilarating accounts of races in which Porsche cars competed, from 1951 to 2015 and it tracks the development of Porsche models from the first model 356, to the defining model 911, and beyond. Beautifully illustrated with rarely seen full-colour and vintage photographs from the Porsche archives.

Porsche Model Cars Jorg Walz 2019-03-07 * A unique take on the history of Porsche - all photographs are of highly detailed miniatures in 1:43 scale, each one taken with an iPhone, and each uploaded to Instagram with the hashtag #PorschePur #PorschePur... That's the hashtag that marked the start of this project. From the 356 to the 911 GT2 RS, from Porsche no. 1 to the Panamera Turbo S E-Hybrid Executive, from Le Mans to the Nürburgring, from the Rallye Monte

Carlo to Dakar, from James Dean and Hans Herrmann to Mark Webber and Neel Jani - this book retraces the rich and varied history of the Porsche brand and its models. Included in this book are all the sports car models as well as the race cars with which the brand has earned its laurels in sporting competitions. The visual story is told by means of unique photography of highly detailed miniatures in 1:43 scale, photographed in the actual surroundings be it at the Nürburgring, in Hong Kong, Los Angeles, Paris or any other place on earth. The camera used in all cases is an iPhone. The photos and the fascinating text were originated by long-standing motoring journalist, book author and communications professional Jörg Walz. His 'Instagram car park' has grown to become a unique automotive museum with space for more than 1,000 cars. A large proportion of this collection is showcased here in this unique book.

Porsche Turbo Randy Leffingwell 2015-10-23
Celebrate the rebirth of the world's most stunning high-performance automobile. Porsche made history when it brought turbocharging to the racing world in the form of the 917. When strict regulations regarding engine displacement took away the option of bigger engines, manufacturers turned to forced induction. In its wildest trim, the original 12-cylinder turbocharged Porsche racing engine yielded as much as 1,400 horsepower! Porsche's official philosophy was that racing cars must have a connection to street cars, so it was preordained that Porsche would eventually produce a turbocharged version of its air-cooled flat-six cylinder engine. The resulting 930 Turbo appeared in the spring of 1975 in Europe. Acceleration from 0 to 100 kilometers per hour took a scant 5.5 seconds, and its top speed was 155 miles per hour. The Turbo's distinctive rear wing let the world know that this was something very special. It was nothing less than the rebirth of the high-performance automobile. At a time when the big-block engines in America's so-called "muscle cars" were putting out 180 horsepower and the engines in exotic supercars weren't much more ambitious, the lightweight Porsche was a genuine rocket. *Porsche Turbo: The Inside Story of Stuttgart's Turbocharged Road and Race Cars* celebrates Porsche's five decades of turbocharged supercar performance, both on the track and on the street. It covers all of the major racing cars as well as the turbocharged street cars, including the 930, 935, 924, 944, 968, 911, and Cayenne Panamera. Don't let this one fly past you!

Professor Porsche's Wars Karl Ludvigsen 2018-05-30 **Endorsements: ** 'Fascinating and meticulously researched.' The Spectator 'The connection between weapons and industrial design is strong at Porsche. This is the subject of an engrossing new book, *Professor Porsche's Wars*.' Stephen Bayley, Octane 'Ludvigsen approaches the legend from a new and surprisingly rich angle -- the Professor's contributions to military ordnance, the design and production of which occupied him continuously throughout his long career. He produces a compelling tale of a prolifically talented engineer dedicated to innovation and perfection stubbornly battling against the often seemingly impossible constraints imposed upon him.' The Automobile 'Crammed with information, original photographs, illustrations and drawings, we reckon it's an essential addition to any military vehicle enthusiast's reference library.' Classic Military Vehicle Regarded as one of the great automotive engineers of the twentieth century, Ferdinand Porsche is well remembered today for his remarkable automotive designs including the Volkswagen Beetle and Auto Union Grand Prix cars. Yet there is another side to his extraordinary career, for he was an equally inventive designer of military vehicles and machinery. In this field too he excelled. Indeed the sheer versatility of his contribution is astonishing. Karl Ludvigsen's study is the definitive guide. Karl Ludvigsen tells the complete story, detailing Porsche's relations with the Third Reich and the stream of advanced designs for which he was responsible. Among them were the Kubelwagen, the Schwimmwagen, the Type 100 Leopard tank, the controversial Ferdinand tank destroyer and the colossal Type 205 'Maus' tank. He also describes Porsche's creative work on aero engines, tank engines and

even his company's manufacture of the V-1 flying bomb, for which he designed a turbojet engine. *Porsche 70 Years* Randy Leffingwell 2017-09-19 This richly illustrated book offers a complete history of Porsche, Germany's premium sports-car maker. Porsche 70 Years focuses on engineering and design stories, while also paying homage to key players.

Erich Strenger and Porsche Mats Kubiak 2017
Erich Strenger (1922-1993), an author, photographer, designer, and illustrator, left his mark on the look of Porsche during the company's formative years in the early '50s and '60s with a design language that, for the most part, continues to bear his signature to this day. He also created countless print products for this successful sports car maker, including *Christophorus Zeitschrift für die Freunde des Hauses Porsche*, the brainchild of Erich Strenger and Richard von Frankenberg. Over the course of a collaborative relationship with Porsche spanning more than thirty years, the graphic artist, who started out working alone, founded an advertising agency in the heart of Stuttgart with a staff of up to eleven permanent employees. There, Strenger would later create countless racing posters, much like those he had designed in his early days working for Dr. Ing. h.c. F. Porsche AG as a freelancer in the early '50s. Strenger was instrumental in influencing and molding the image of the Porsche brand as we know it today.
