person act in ways that are unique to that particular combination. We call it chemistry, and it can be good or bad. But how can we put a finger on just what it is? Thanks to John Townley, there is a way. When he introduced the composite chart some twenty years ago, astrologers were given a key that unlocks the secret essence of any relationship. Now he presents the results of two decades of experience -- the definitive work on this powerful technique. You will learn: -- How to construct a composite chart -- How to synthesize natal, synastry, and composite charts -- Positive and negative planetary placements -- The effect of the composite ascendant -- Composite house placements and aspects -- How astrology is verified by current scientific thought Townley's fully developed interpretations of all the chart factors will provide a solid foundation for any astrologer who wants to shed light on one of the most popular (and most demanding) applications of astrology -- human relationships.
