## **Opening Closed-Guard: the Origins of Jiu-Jitsu in Brazil**

robert drysdale 2020-09-26 What are the origins of Brazilian Jiu-Jitsu? Is it merely a by-product--a rebel offspring--of Judo? What was the nature and content of the art that Mitsuyo Maeda, a.k.a. "Count Koma", and other Japanese were teaching in the Amazon? Was it Judo? Jiu-Jitsu? His own personal fight-tested style, built on a foundation of Judo and informed by his dozens and dozens of matches around the world? What was the bridge between the art he learned at the Kodokan and the Brazilian style that claims him as its godfather: a style now practiced by millions worldwide (and growing bigger every day)? Should Maeda even be at the center of this story? And what role did Carlos and Hélio Gracie play in all of this? Did they "invent" BJJ? Would BJJ exist without them? And, if

so, what--if anything--did they create? And why does this history matter to the average BJJ practitioner today? Any history possesses its official narrative with its own favorite characters and events. But true history is seldom simple, and more oft than not the real story is far richer than the popular version that is widely repeated and handed down. The history of BJJ and MMA in Brazil doesn't escape this paradigm. The recent renaissance in research in regards to the history of martial arts in Brazil led to the author's curiosity, which in turn led to the documentary Closed-Guard: The Origins of Jiu-Jitsu in Brazil, which in turn led to this book. This manuscript started as an account of the author's recollections of the film's production, and quickly grew into much more. Opening Closed Guard: The Story Behind the Film contains conclusions, analysis, and historical interpretations, as well as the story behind the documentary itself and the many challenges it faced along the way. It contains interviews, research articles pertaining to the history of Jiu-Jitsu in Brazil, as well as the author's own take on the current state of BJJ and MMA. Finally, it is the story of the author rediscovering his love for Jiu-Jitsu in a completely new and unexpected way. ABOUT THE AUTHOR Born in the US from a Brazilian mother and American father, and having spent his life between these two countries, Robert Drysdale remains the only

American competitor to have ever won both the IBJJF and ADCC World Championships, the two most prestigious tournaments in all of Jiu-Jitsu. Furthermore, he has also cultivated a career in MMA, both as a fighter and as a coach. The author also holds a Bachelor's Degree in History, as well as a long-held passion for this discipline. He lives in Las Vegas, Nevada, where he teaches Brazilian Jiu-Jitsu and MMA. He is also the co-founder of the international team Zenith Jiu-Jitsu, and is the father of two girls.

**Sick** Tom Leveen 2013-10-01 Brian and his friends are not part of the cool crowd. They're the misfits and the troublemakers—the

ones who jump their high school's fence to skip class regularly. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the theater department—far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates. Praise for SICK "The gore and action will leave enthralled readers thrilled and then sated with each kill on either side." —Booklist "Between the pacing and the heroes' salty, blue language (full of lovingly creative, genital-inspired insults), reluctant readers who love zombies will devour it, right up to the abrupt end." —Kirkus Reviews "Sick is well written, with great detail, even if it is a little gory." —VOYA Magazine Awards 2014 Quick Picks for Reluctant Young Readers list from YALSA

**Transnational Crime Networks** Robert Fiedler 2010-12-22 Essay from the year 2008 in the subject Politics - Miscellaneous, grade: 2,2, Macquarie University, language: English, abstract: After cold war, new patterns of conflicts emerged, most of them regional or intra - state conflicts (Stohl 2005). In these conflicts small arms were the dominant weapons, often purchased and supplied in an international black market, one that traffics 250 - 300 Millions illegal small arms (Jane's Terrorism & Security Monitor 2006). To fulfil the pretensions of this enormous market, transnational crime organizations established highly sophisticated purposive networks throughout the globe that became rather successful, being able to "exploit international channels, systems and infrastructure where they already exist and are equally quick to create new ones" (Stohl 2004, p. 21). Globalization, considered as "processes through which sovereign national states are crisscrossed and undermined by trans-national actors" (Beck 2000, p. 101) has had a tremendous effect on the illicit markets and in special on the illicit small arms trade. In the following this paper will argue, that by creation of international networks in

order to exploit international sources and new emerging markets, illicit small arms trade became a global business in the last decades (Stohl 2004, p. 21). It will also analyze how globalization processes contributed to this development by opening up new perspectives for international acting crime groups. A focus will be laid on major sources for illicit arms and the analysis of major causes for the global expansion of illicit trade in small arms during the last 20 years.

conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.
