**Slave Stealers** Timothy Ballard 2018-09-04 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

**Transnational Crime Networks** Robert Fiedler 2010-12-22 Essay from the year 2008 in the subject Politics - Miscellaneous, grade: 2,2, Macquarie University, language: English, abstract: After cold war, new patterns of conflicts emerged, most of them regional or intra - state conflicts (Stohl 2005). In these conflicts small arms were the dominant weapons, often purchased and supplied in an international black market, one that traffics 250 - 300 Millions illegal small arms (Jane's Terrorism & Security Monitor 2006). To fulfil the pretensions of this enormous market, trans-national crime organizations established highly sophisticated purposive networks throughout the globe that became rather successful, being able to "exploit international channels, systems and infrastructure where they already exist and are equally quick to create new ones" (Stohl 2004, p. 21). Globalization, considered as "processes through which sovereign national states are crisscrossed and undermined by trans-national actors" (Beck 2000, p. 101) has had a tremendous effect on the illicit markets and in special on the illicit small arms trade. In the following this paper will argue, that by creation of international networks in order to exploit international sources and new emerging markets, illicit small arms trade became a global business in the last decades (Stohl 2004, p. 21). It will also analyze how globalization processes contributed to this development by opening up new perspectives for international acting crime groups. A focus will be laid on major sources for illicit arms and the analysis of major causes for the global expansion of illicit trade in small arms during the last 20 years.

**Opening Closed-Guard: the Origins of Jiu-Jitsu in Brazil** robert drysdale 2020-09-26 What are the origins of Brazilian Jiu-Jitsu? Is it merely a by-product--a rebel offspring--of Judo? What was the nature and content of the art that Mitsuyo Maeda, a.k.a. "Count Koma", and other Japanese were teaching in the Amazon? Was it Judo? Jiu-Jitsu? His own personal fight-tested style, built on a foundation of Judo and informed by his dozens and dozens of matches around the world? What was the bridge between the art he learned at the Kodokan and the Brazilian style that claims him as its godfather: a style now practiced by millions worldwide (and growing bigger every day)? Should Maeda even be at the center of this story? And what role did Carlos and Hélio Gracie play in all of this? Did they "invent" BJJ? Would BJJ exist without them? And, if so, what--if anything--did they create? And why does this history matter to the average BJJ practitioner today? Any history possesses its official narrative with its own favorite characters and events. But true history is seldom simple, and more oft than not the real story is far richer than the popular version that is widely repeated and handed down. The history of BJJ and MMA in Brazil doesn't escape this paradigm. The recent renaissance in research in regards to the history of martial arts in Brazil led to the author's curiosity, which in turn led to the documentary Closed-Guard: The Origins of Jiu-Jitsu in Brazil, which in turn led to this book. This manuscript started as an account of the author's recollections of the film's production, and quickly grew into much more. Opening Closed Guard: The Story Behind the Film contains conclusions, analysis, and historical interpretations, as well as the story behind the documentary itself and the many challenges it faced along the way. It contains interviews, research articles pertaining to the history of Jiu-Jitsu in Brazil, as well as the author's own take on the current state of BJJ and MMA. Finally, it is the story of the author rediscovering his love for Jiu-Jitsu in a completely new and unexpected way. ABOUT THE AUTHOR Born in the US from a Brazilian mother and American father, and having spent his life between these two countries, Robert Drysdale remains the only American competitor to have ever won both the IBJJF and ADCC World Championships, the two most prestigious tournaments in all of Jiu-Jitsu. Furthermore, he has also cultivated a career in MMA, both as a fighter and as a coach. The author also holds a Bachelor's Degree in History, as well as a long-held passion for this discipline. He lives in Las Vegas, Nevada, where he teaches Brazilian Jiu-Jitsu and MMA. He is also the co-founder of the international team Zenith Jiu-Jitsu, and is the father of two girls.

Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. With an Introduction by Peter Dunwoodie; translated by Matthew Ward. Behind the subterfuge, Camus explores what he termed "the nakedness of man faced with the absurd" and describes the condition of reckless alienation and spiritual exhaustion that characterized so much of twentieth-century life. "The Stranger is a strikingly modern text and Matthew Ward's translation will enable readers to appreciate why Camus's stoical anti-hero and devious narrator remains one of the key expressions of a postwar Western malaise, and one of the cleverest exponents of a literature of ambiguity." --from the Introduction by Peter Dunwoodie First published in 1946; now in translation by Matthew Ward.

**Mastering Canon EOS Flash Photography, 2nd Edition** Nk Guy 2016-03-18 In this updated, second edition of the authoritative, bestselling *Mastering Canon EOS Flash Photography*, photographer NK Guy brings the book fully up to date, with coverage of all the newest Canon gear that has hit the market since the first edition published in 2010. This includes coverage of the radio-enabled Canon Speedlite 600EX-RT and Canon Speedlite Transmitter ST-E3-RT, as well as the other Speedlites that have released since the first edition's publication: Canon Speedlite 90EX, 270EX II, 320EX, and 600EX. And this is the first book to cover Canon's new, affordable master unit--the Speedlite 430EX III-RT flash! Digital cameras and flash technology have truly revolutionized photography in the 21st century. Originally seen simply as a practical way to illuminate dark scenes with portable light, flash today is used for a host of creative and nuanced applications, including supplementing daylight, designing complex scenes lit by multiple light sources, and simply creating beautiful, controllable light for portraiture. With LCD screens on DSLRs, the ability to get instant feedback on lighting setups is a great help in advancing one's lighting capabilities and encouraging experimentation. However, flash photography can still be a difficult artistic and technical challenge. It's simple to get that harsh deer-in-the-headlights look from built-in automatic flash, but it is a far cry from beautiful light. Creating natural-looking images is not nearly as straightforward. Mastering the properties of light and the ability to manipulate, craft, and direct it is a lifelong endeavor. Those diving into Speedlights need some help. Manuals are terse and the terminology is confusing--this is where *Mastering Canon EOS Flash Photography* comes in. This is the complete book on the subject, guiding you through Canon's Speedlite system, from off-camera portable flash to professional studio lighting. It covers the fundamentals of flash metering technology, discusses key lighting concepts, and documents a wide range of Canon and third-party equipment. Universal flash accessories, studio gear, and radio triggers are all thoroughly covered. The book is lavishly illustrated with diagrams that demonstrate important functions and lighting arrangements, and inspiring photos that show sophisticated flash techniques. Though tailored for users of Canon EOS cameras, owners of other camera systems will find much valuable information as well. So, whether you're just getting started with flash, or you've picked up the bug for off-camera lighting from such popular websites as Strobist.com, or you're making the leap into advanced studio work, *Mastering Canon EOS Flash Photography* is your in-depth resource. Includes a foreword by David Hobby, noted photojournalist and founder of Strobist.com.
