Complexity Demystified Patrick Beautement 2011 Practitioners often say: 'We need to do something differently but are not sure what to do or how to do it' and 'Scientists explain complexity but don't tell you what to do in practical terms'. This book has been written to offer solutions for these practitioners - to provide an Approach for 'putting complexity to work'. Practice is, de facto, determined by changing contexts. In a specific instance, what needs doing will depend on the circumstances, and cannot be bounded or decided in advance. But when most auditors, donors or managers demand tangible, target-driven results within a fixed time frame, how can practitioners convince them that working with the open principles of complexity will lead to more successful and sustainable solutions? This book is not 'yet another' complexity book. What it offers is an in-depth, systematic, Framework that practitioners can use to focus on the dynamic phenomena already active in their working context, to be able to shape and influence these phenomena 'on the fly'. The authors present six case studies, including the UK Fuel Crisis (2000) and the 2010 Gulf of Mexico Oil Spill. Their Approach reveals a clear understanding of the stresses and strains that were felt throughout the crises and how these might have been handled differently had an appreciation of the underlying complexity been part of standard practice. Drawn from their own experiences and those of other practitioners, and to bridge the gap between theory, experience and practice, the authors have produced a clear and erudite 'bible' for realising the inherent benefits of 'putting complexity to work'.

When God Goes to Starbucks Paul Copan 2008-08-01 More than ever, Christians are bombarded with tough faith questions from their pluralistic friends and neighbors. Many of these emerge as "anti-truth claims" and slogans we are all familiar with: • Why not just look out for yourself? • Do what you want--just as long as you don't hurt anyone • Miracles violate the laws of nature • Aren't people born gay? Paul Copan has been answering questions like these for many years. In *When God Goes to Starbucks*, he offers readers solid and caring Christian responses to these and many other concerns that are being discussed in Starbucks, shopping malls, youth groups, and schools. Each chapter provides succinct answers and points for countering the cultural questions believers are faced with today.

The Grace Walk Experience Steve McVey 2008-03-01 For years, Steve McVey's Grace Walk (more than 200,000 copies sold) has inspired Christians to leave behind a performance and fear-based faith to embrace a faith lived in abundance and grace. Now The Grace Walk Experience workbook helps readers move that message of hope from their heads to their hearts as they explore eight truths that have changed lives worldwide daily, interactive studies that reveal grace as much more than a doctrine ways to quit "doing" for God so that He can live through them illustrations of the wonder and miracle of faith as God intended God's Word, salvation, and evangelism with new perspective This excellent tool for church classes, small group discussion, and individual study will lead believers to understand their identity in Christ, let go of legalism, and make room for the overflowing love, mercy, and purpose of life lived wholly in God's grace. **Livestock, Dead Stock** Seymour Grufferman 2020-09 A disgruntled British veterinary technician has access to a large repository of animal diseases at Britain's main veterinary laboratory. To exact revenge for his mistreatment, he steals samples of highly infectious agents for animal diseases and sells them to al Qaeda. Ayman al Zawahiri, the head of al Qaeda, decides to use the agents to mount a bioterrorism attack on the US. He first does a trial run with the causative agent for mad cow disease to check whether it would work. The agent is sprinkled on restaurant food and causes four cases of a horrific disease, Creutzfeldt-Jakob disease (CJD) which is also caused by the mad cow disease agent. Al Zawahiri then decides to use all the infectious material he bought to attack US farm animal production.Winston Sage, a retired epidemiologist who had previously helped the FBI interdict a terrorist attempt to poison US food supplies, is invited to help investigate the four cases of CJD. While the investigation is flubbed and going nowhere, the terrorists introduce foot and mouth disease, Rinderpest, swine flu and Newcastle disease into US herds and flocks via placing the infectious agents into feed supplies. These are highly contagious and deadly diseases of livestock. The terrorists also spread a fungal disease of wheat by aerial spraying of fields with fungal agents. Devastating economic damage is inflicted on US agriculture, to the tune of billions of dollars of losses. As a result, no one will buy US meat or wheat. It also leads to demonstrations and riots by alarmed citizens. Sage is left furious about the incompetence of the CIA and FBI and the ruthlessness of al Qaeda. He is invited to a meeting with the US President and recommends a complete overhaul of intelligence activities, with which the President agrees..
