Military Recruiting in the United States Pat Elder 2016-12-08

Military Recruiting in the United States provides a fearless and penetrating description of the deceptive practices of the U.S. military as it recruits American youth into the armed forces. Long-time antiwar activist Pat Elder exposes the underworld of American military recruiting in this explosive and consequential book. The book describes how recruiters manage to convince youth to enlist. It details a sophisticated psy-ops campaign directed at children. Elder describes how the military encourages first-person shooter games and places firearms into the hands of thousands using the schools, its JROTC programs, and the Civilian Marksmanship Program to inculcate youth with a reverence for guns. Previously unpublished investigative work reveals how indoor shooting ranges in schools are threatening the health of children and school staff through exposure to lead particulate matter. The book provides a kind of "what's coming next manual" for European peacemakers as they also confront a rising tide of militarism. The book examines the disturbing, nurturing role of the Catholic Church in recruiting youth. It surveys the wholesale military censorship of Hollywood films, pervasive military testing in the high schools, and an explosion of military programs directed toward youth. Who have been the 'market wizards' during this tumultuous financial period? How did some traders manage to significantly outperform a stock market that during its heyday moved virtually straight up? This book will feature interviews with a variety of traders who achieved phenomenal financial success during the glory days of the Internet boom. In contrast with the first two Market Wizard books, which included traders from a broad financial spectrum—stocks, bonds, currencies and futures—this volume will focus on traders in the stock market.

So trading guru Richard Dennis reportedly said to his long-time friend William Eckhardt nearly 25 years ago. What started as a bet about whether great traders were born or made became a legendary trading experiment that, until now, has never been told in its entirety. *Way of the Turtle* reveals, for the first time, the reasons for the success of the secretive trading system used by the group known as the "Turtles." Top-earning Turtle Curtis Faith lays bare the entire experiment, explaining how it was possible for Dennis and Eckhardt to recruit 23 ordinary people from all walks of life and train them to be extraordinary traders in just two weeks. Only nineteen years old at the time—the youngest Turtle by far—Faith traded the largest account, making more than \$30 million in just over four years. He takes you behind the scenes of the Turtle selection process and behind closed doors where the Turtles learned the lucrative trading strategies that enabled them to earn an average return of over 80 percent per year and profits of more than \$100 million. You'll discover How the Turtles made money—the principles that guided their trading and the step-by-step methods they followed. Ways to diversify your trading and limit your exposure to risk. Offering his unique perspective on the experience, Faith explains why the Turtle Way works in modern markets, and shares hard-earned wisdom on taking risks, choosing your own path, and learning from your mistakes.

Dr. Fries-With-That Joshua Renken 2015-04-27 Hello. My name is Josh, and I'm a dentist. If you are like me, that simple introduction typically sets off one of several severe reactions. The uncomfortable shuffle as the person you just met tries to get away

from you. Or maybe it goes the opposite direction and an emergency exam about tooth whitening ensues. Like you, I decided to pursue this career years ago because I wanted to help people. Like you, I go to the office every day and do many things that are hard to reconcile as actually "helping people." I wrote this book because you and I probably share one distinct fear. You know the one. The one where you sink years of your life, thousands upon thousands of dollars, and many sleepless nights into a profession. The fear that, despite all that effort, you end up a nameless face working for a big box organization that doesn't care about you, your co-workers, or the people you are serving. *Dr. Fries-With-That* is a book about getting past that fear and finding a new way forward.

Read on your PC, Mac, smart phone, tablet or Kindle device Minervini tells about his thirty-plus years trading stocks starting in the 1980's and how he was a multi-millionaire by the time he was 34. He talks about his struggles stating that he "didn't start out successful" in fact he didn't make a significant return for six years. However, the more he practiced his craft the better he got and the more return he made. He adds a quote by Laila Ali that says "Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to

explore the power they have to change it." That attitude is evident in the following pages. He talks about how his "real life education" began when he was 15 and dropped out of school. He then realized he needed a way to make money, but didn't know who would hire a 15-year-old drop out. He began by reading the financial news and poring over stock market reports, as well as building himself an impressive library of over 1,000 investment books alone. Trading appealed to him because there was a lot of freedom. Freedom to stay at home and most of all freedom to use his talents to become a stock market "Superperformer" He talks about the difference between interest and commitment. While you need interest to start working towards something, you require commitment to become successful. He also states that there is no substitute for real life experience, he shares his tactics but there is no way to become a Superperformer without experiencing it yourself. One of the most important things he talks about is learning to be a great trader first, he states "For me, the greatest success came when I finally decided to forget about the money and concentrate on being the best trader I could be. Then the money followed."
