continents appears to be the first known semi-aquatic dinosaur, according to a report published Thursday by the journal *Science*. Measuring 9 feet longer than a *Tyrannosaurus rex*, the 95-million-year-old *Spinosaurus aegyptiacus* would have been the largest predatory dinosaur to walk the Earth ...

STRANGER IN THE VILLAGE - Jan van Eyck Academie

From all available evidence no black man had ever set foot in this tiny Swiss village before I came. I was told before arriving that I would probably be a "sight" for the village; I took this to mean that people of my complexion were rarely seen in Switzerland, and also that city people are always something of a "sight" outside of the city.
