**Dog Eat Dog** Niq Mhlongo 2012-06-13 Dog Eat Dog is a remarkable record of being young in a nation undergoing tremendous turmoil, and provides a glimpse into South Africa's pivotal kwaito (South African hip-hop) generation and life in Soweto. Set in 1994, just as South Africa is making its postapartheid transition, Dog Eat Dog captures the hopes—and crushing disappointments—that characterize such moments in a nation's history. Raucous and darkly humorous, Dog Eat Dog is narrated by Dingamanzi Makhedama Njomane, a college student in South Africa who spends his days partying, skipping class, and picking up girls. But Dingz, as he is known to his friends, is living in charged times, and his discouraging college life plays out against the backdrop of South Africa's first democratic elections, the spread of AIDS, and financial difficulties that threaten to force him out of school.

**Becoming a teacher** Josef de Beer 2020-12-31 This book disseminates original research on learning in and from practice in pre-service teacher education. Authors such as Lederman and Lederman describe the student teaching practicum (or work-integrated learning [WIL]), which is an essential component of pre-service teacher education, as the 'elephant in the room'. These authors note that 'the capstone experience in any teacher education programme is the student teaching practicum... [a]fter all, this is where the rubber hits the road'. However, many teacher educators will agree that this WIL component is sometimes very insufficient in assisting the student teacher to develop their own footing and voice as a teacher. This is the 'gap' that this research book addresses. Most of the chapters in the book report empirical data, with the exception of two chapters that can be categorized as systematic reviews. WIL is addressed from various angles in the chapters. Chapter 6 focuses on research related to what makes Finnish teacher education so effective, and in Chapter 4 researchers of the University of Johannesburg disseminate their findings on establishing a teaching school (based on Finnish insights) in Johannesburg. Chapter 3 highlights the challenges faced in open-and distance learning teacher education contexts. Several of the chapters disseminate research findings on alternative interventions to classic WIL, namely, where "safe spaces" or laboratories are created for student teachers to learn and grow professionally. These could either be simulations, such as software programmes and avatars in the intervention described in Chapter 2; student excursions, as the findings in chapters 5, 7 and 10 portray; or alternative approaches to WIL (e.g. Chapters 11 and 12). The book is devoted to scholarship in the field of pre-service teacher education. The target audience is scholars working in the fields of pre-service teacher education, work-integrated learning, and self-directed learning. The book makes a unique contribution in terms of firstly its extensive use of Cultural-Historical Activity Theory as a research lens, and secondly in drawing on various theoretical frameworks. Both quantitative and qualitative research informed the findings of the book.

**An African Language Experience** Dahiru Muhammad Argungu 2017-09-21 The present book is about Hausa linguacultural practices. Its primary goal is to demonstrate aspects of the relationship between Hausa language and culture as it affects northern Nigeria, the territory with the largest concentration of native-Hausa speakers on earth today. Using various examples, illustrations and real-life situations, the book seeks to portray Hausa speakers experiences and practices as they daily exploit their language to communicate their needs and, in the process, express their culture. These experiences and practices are realised largely through Hausa verbal and non-verbal means or both which together give rise to linguacultural patterns of behaviour unique to the speakers. It is hoped that readers, particularly non-Hausas, will find the book enjoyable especially in trying to experience what native-Hausa speakers, using their language to communicate, experience during social interactions. Supported by a number of optional activities and exercises, students and teachers of Hausa will particularly find the book not only resourceful and entertaining but also reader-friendly especially with regard to the role of culture in language learning and teaching. Indeed the book has been partly written to encourage the use of Hausa culture in language teaching and learning.
